

SCHOOL FOOD SERVICE PROGRAM

The school district will operate a school lunch and breakfast program in each attendance center. The school food service program will include lunches and breakfasts through participation in the National School Lunch and Breakfast Program. Students may bring their lunches from home and purchase milk and other incidental items.

School food service facilities are provided to serve students and employees when school is in session and during school-related activities. They may also be used under the supervision of the District managers for food service to employee groups, parent-teacher meetings, civic organizations meeting for the purpose of better understanding the schools, and senior citizens in accordance with board policy.

The school food service program is operated on a nonprofit basis. The revenues of the school food program will be used only for paying the regular operating costs of the school food service program. Supplies of the school food service program shall only be used for the school food program.

The Board will set, and periodically review, the prices for school lunches and breakfast programs. It is the responsibility of the Superintendent to make a recommendation regarding the prices of school lunch, and breakfast, in accordance with the federal and state laws.

It is the responsibility of the Director of Operations to administer the program and to cooperate with the Superintendent and District Managers of Food Services for the proper functioning of the school food program.
