STATEMENT OF NON-DISCRIMINATION IN PROGRAMS AND EMPLOYMENT

It is the policy of the Waterloo Community School District not to illegally discriminate on the basis of race, color, national origin, gender, disability, religion, creed, age (for employment), marital status (for programs), sexual orientation, gender identity and socioeconomic status (for programs) in its educational programs and its employment practices. There is a grievance procedure for processing complaints of discrimination.

If you have questions or a grievance related to these policies, please contact the district’s Equity Coordinator:
Kingsley Botchway II, Chief Officer of Human Resources and Equity
1516 Washington Street, Waterloo, IA 50702
Phone: 319-433-1800
Email: botchwayk@waterlooschools.org
Dear Students and Parents,

High school is a critical time in a student’s life. It’s a transitional time when students are finishing their PK-12 learning experience and preparing to enter the next phase of their lives. Students are preparing for the opportunities and challenges they will experience in the coming years. They'll need to think globally, whether they stay in the Cedar Valley or choose a career across the United States or around the world. Our goal is to help unfold futures for our students by providing a spectrum of opportunities, programs and services.

Waterloo Schools is not a one-size-fits-all district. We work diligently to add and adjust courses so students have a variety of options—a continuum of course offerings. To prepare our students for success:

- We have a broad and deep range of challenging classes, taught by great teachers. Our curriculum encompasses extensive college-credit options (Advanced Placement and dual credit courses), STEM (Science, Technology, Engineering & Mathematics), International Baccalaureate®, Career-Based Pathways, cross-curricular opportunities and project-based learning. These classes and programs all use advanced technology to engage students in active learning.
- Our students learn leadership and experience hands-on, real-world situations beyond the traditional classroom.
- Our schools are welcoming, supportive environments.
- Our diversity prepares students for success in the national community and global economy.
- Our parent and community involvement have led to even greater educational opportunities for our students.
- Our students have unlimited choices for college, career and citizenship.

We are pleased to provide you with this High School Program of Studies/Course Catalog which details the many coursework options available to our high school students. As always, some courses are required, while others can be chosen by students and parents based on need and/or interest. We are confident the courses offered in this catalog provide a spectrum of options that will meet the needs of all students.

Waterloo Schools also works with post-secondary institutions such as Hawkeye Community College, the University of Northern Iowa, Des Moines Area Community College and Kirkwood Community College to ensure our courses prepare students for education after high school. Again, we are creating increased opportunities for students to take higher level classes and earn college credit while they are still a part of our student body.

As we plan our continuous cycle of improvement we look forward to providing you with an educational experience that exceeds state requirements, leads to success after graduation, and makes the high school years meaningful, engaging, and personalized. We also encourage students to be part of sports teams, fine arts and any other extra-curricular activities that are so important to high school life. For additional information about new programs and to stay up-to-date on district events, visit our web page (www.waterlooschools.org), like us on Facebook, follow us on Twitter and look for us on YouTube.

As you create the four-year plan of high school courses with your guidance counselor, teachers, and family, you will be making important choices that will impact your future. I urge you to take this task very seriously. Please let us know how we can assist you in this process. We wish you every success now and in the future, and thank you for choosing Waterloo!

Dr. Jane Lindaman, Superintendent
Waterloo Community Schools
Mission
The Waterloo Schools community commits to a comprehensive system of education and support to assure that each and every Waterloo student will graduate ready for college, career, and citizenship as evidenced by continuing education, pursuing a career path and contributing to a community.

Goals
(SY 21-22)

People
Recruit, hire and retain a diverse, high-performing workforce aligned with district values and goals.

Achievement
Increase achievement for all students through rigorous curriculum, high expectations, and effective delivery of instruction, with assessment for improved teaching and increased learning.

Community
Initiate, strengthen and engage in community partnerships that result in the academic, social, and behavioral success of each and every student.

Environment
Provide an optimal learning environment that is safe, inspiring and welcoming, where all individuals are respected, valued and engaged. Secure, organize, and optimize financial resources for human assets, programs and operations that support student achievement.

Welcome to the
High School Program of Studies /Course Catalog
SY 2021-2022

The HS Program of Studies reflects the Waterloo Community School District belief that every student should be on a path that leads to career success and college preparedness through seamless plans of study that foster academic and technical achievement. The goal is to develop a globally competitive workforce for Iowa and more importantly connect students to rigorous and relevant curriculum. Engagement in the courses outlined in this Program of Studies will enhance our students’ ability to compete competitively in the world economy.

Our high school programming includes not only Career and Technical Programs at the Waterloo Career Center, but also includes pathways for Military Sciences, International Baccalaureate, Performing Arts, and Liberal Arts. The desire is to address student interests and passions in as many ways as possible through comprehensive programming.

Academic and career pathways are defined as an integrated collection of programs and services intended to …

- develop students’ core academic, technical, and employability skills,
- provide students with continuous and sequenced rigorous education and training,
- place students in high-demand, high opportunity employment, and
- prepare students for success as college students.

The High School Program of Studies is structured to help students create their individual career option plans and empowers them to choose the educational pathway aligned to their interests and passions.

- Academies are the overarching general areas comprised of multiple Career Clusters. We use the Academies to organize students into smaller groups for the purpose of a more personalized instructional environment

- The 6 Service Areas are defined by the State of Iowa as areas where school districts are required to offer Career classes in 4 of the 6 areas. Agriculture, Food, and Natural Resources

1. Applied Sciences, Technology, Engineering, and Manufacturing
2. Business, Finance, Marketing, and Management
3. Health Sciences
4. Human Services
5. Information Solutions

Our targeted purpose is that every single student in our district graduates prepared for his/her postsecondary choice of work, college, and citizenship – their choice! We are committed as educators to do everything in our power to make that happen for each of our students.

Students must also successfully complete five advanced courses from PSEO (Post-Secondary Enrollment Option), AP (Advanced Placement), IB (International Baccalaureate), and/or Concurrent Courses, which can include CTE (Career Technical Education) courses. The five advanced courses must be year-long courses. Semester courses count as .5 in meeting the requirement of five advanced courses.

**Credits for Graduation with a Core Diploma**  35-43
SCHEDULING CLASSES

Planning Schedules
Course offerings, staff assignments and the master schedule for the following school year are determined by students’ initial course requests. Based on those requests some courses may not be offered in the “final” master schedule. Four-year academic plans are created in 8th grade that incorporate appropriate course selections for students’ future career interests. In addition to core requirements identified in the plan, electives are also chosen and should be selected to strengthen a student’s area of career interest. The four-year plans are reviewed annually throughout high school.

Only students with senior status will be allowed to arrive late and/or leave early during the school day. This is a special request and granted on the basis of need. Final approval is given by the building principal.

Academic Load/Academic Probation
Students are required to carry a minimum academic schedule of 5 courses (excluding PE) each semester. Students may request a voluntary schedule reduction to fewer than 5 courses per semester, which results in academic probation. This process is initiated with the counselors and requires administrator, parent, student and counselor approval. Students may be placed on academic probation by administrators for disciplinary, behavior, or attendance reasons. This process is initiated with the assigned administrator. Course enrollment includes dual enrollment, work experience, and post-secondary courses.

Policy 603.2

Schedule Changes
All schedule changes are initiated through the counselors. Schedule changes for reasons other than inappropriate or incorrect course placement are kept to a minimum and made on a “space available” basis. Changes must be completed prior to the first day of classes in each semester.

Dropping a Course
Students may drop a course prior to the fifth school day of class in any semester. The dropped course will not affect the student’s grade point average (GPA). For students who are academically exempt from PE, dropping a course rescinds the PE exemption, and PE will be added to the students’ schedules. Students who are removed from a class as a result of their behavior or attendance or those who voluntarily drop a class after the fifth day of the semester will lose credit for the class and receive a failing grade. Students who are administratively “withdrawn” from a course will receive no grade, and it will not affect the GPA.

Withdrawing From a Course
Students who receive an “F” at the end of the first and third quarters may request to withdraw from the course. A student taking seven or more classes may withdraw from up to two classes and a student taking five or six courses may withdraw from one class. This option only applies to students taking five or more academic classes. A request to withdraw from a course can occur two weeks or ten school days after the end of the first and third quarters. Approval is required from the parents and the building principal/administrator. The withdrawn course will not affect the student’s grade point average (GPA). A student who is taking an academic course as pass/fail and receives an “F” or “NC” at the end of the semester will still be considered as an “F” for eligibility purposes.

Zero Hour Classes
Zero hour classes meet from 6:45 – 7:30 AM and may be offered for selected classes. After students have completed course requests, teacher availability and student interest are considered, and decisions are made about which classes will be offered for Zero hour. The school day for students who attend Zero hour classes ends after seventh period, but students have the option of taking a ninth class. Students are responsible for their own transportation if they register for a Zero hour class. Zero hour classes will not meet on inclement weather days when the start of the school day is delayed.

Attendance Policy
There is a strong correlation between consistent attendance and successful completion of high school courses. Students who accumulate excessive excused absences can expect that their achievement will be affected even though work may be made up. Excessive absences in a class will cause the administration to recommend a student be removed from the course. Interventions will be explored for excessive excused absences.

Policy 509.0 and 509.0-R

Grade Level Placement
A student’s grade level placement is determined by the number of completed credits. Students who have questions about their grade level placement are advised to check with their counselor.

At the beginning of the first semester of the school year:
Students who have earned 11 credits are classified as 10th grade.
Students who have earned 22 credits are classified as 11th grade.
Students who have earned 33 credits are classified as 12th grade.

LEARNING SUPPORT

Educational Alternatives
Students may apply and/or be assigned in various alternative education programs in our district. Various alternatives may be utilized to help students complete graduation requirements. Some alternatives include After Hours Program, GRAD Connect, and Virtual School. Students are advised to contact their administrator or counselor for more information.

Credit Recovery
Students who fail a required class will have the opportunity to recover the credit by retaking the course. This may be done by using the districts’ on-line learning system facilitated by a teacher. On-line recovery is offered in the summer and during the school year.

Tutoring and Academic Support
It is our intent that all students will be successful and earn a diploma. Several options exist for academic help. Please contact your counselor/teacher/administrator for information about tutoring programs.
ADDITIONAL OPTIONS for LEARNING

Weighted Grades
Weighted grades are applied in Advanced Placement and International Baccalaureate courses. This recognizes the academic rigor of these courses and means students will be graded on a 5-point scale rather than a 4-point scale. Grades will be weighted as follows: A = 5.0; B = 4.0; C = 3.0; D = 2.0. Plus and minus will also be used when calculating the grade point average.

Auditing a Class
Students may retake a course in which previous credit has been earned on an “audit” basis. The student follows all classroom, course and attendance requirements. Completion of the course is recorded as “Aud” or no credit.

Acceleration Option
In accordance with WCSD Policy 602.3 and 602.3R, secondary students have the opportunity to test out of a core course through the acceleration option. Each content department will determine and administer the appropriate assessment(s) to determine mastery of the course. In addition, students may accelerate through completing online course assessments. Standards and content focus areas will be available to students prior to the testing. This option is exercised in the spring semester prior to fall enrollment upon written request from the student and parent. It is highly recommended that the policy be thoroughly reviewed and that the application to accelerate be made sufficiently in advance and no later than March 1 to ensure timely completion by June 1. The policy includes further explanation of how acceleration will be determined and lists how demonstration of mastery will be evidenced. If acceleration is granted, transcripts will be noted with an A and the course title. Students interested in this option should contact the appropriate counselor, department chair, or principal.

(Policy 602.3 and 602.3-R2)

Independent Study Coursework
Independent study is available on a limited basis for eligible students with unique learning situations. Students may contact their counselor for information concerning independent study.

International Baccalaureate Program (IB)
The International Baccalaureate Diploma Program provides an international standard of excellence and intellectual rigor for college-bound students worldwide. The IB Organization aims to develop inquiring, knowledgeable, and caring young people to help create a better and more peaceful world through intercultural understanding and respect. To this end the IBO works with schools, governments, and international organizations to develop challenging programs of international education and rigorous assessment. These programs encourage students across the world to become active, compassionate, and lifelong learners who understand that other people, with their differences, can also be right. This rigorous program provides high school students an opportunity to take college level classes while still in high school. Many colleges offer credit at their institutions for IB courses taken in high school. Students should be sure of the specific policies at colleges they are interested in attending.

The International Baccalaureate Program in Waterloo is a two year course of study for juniors and seniors encompassing six Curriculum areas. Enrollment in the IB program requires an application through the IB coordinator at each school. For more information contact the Administrator for Advanced Learning Programs, at (319) 433-1800.

Outside Credits
In addition to credits earned in the Waterloo Community School District (WCSD), students who are residents of the WCSD may earn four (4) credits from another accredited institution or high school. This does not include credits for students: (a) placed in treatment programs and placements by Juvenile Court Services and the Department of Human Services, (b) participating in Post-Secondary Enrollment Options, or (c) attending an institution of higher learning through an articulation agreement, such as Hawkeye Community College or University of Northern Iowa. Students may transfer more than four (4) credits under special circumstances approved by a building administrator. Credits from Waterloo alternative programs are not considered outside credits. These credits are recorded as letter grades for inclusion in the student’s grade point average. In order to be transferred, outside credits must be taken at educational institutions approved by WCSD. These include schools approved by the Iowa Department of Education, or appropriate regional accrediting association, such as North Central Association of Colleges and Secondary Schools. A Waterloo Schools building administrator must approve the course before the student enrolls in the course. Questions concerning program approval/non-approval may also be directed to the Associate Superintendent for Educational Services. (Policy 502.3)

Outside credits count toward graduation requirements, but the grades do not count on the student’s GPA. The credits are recorded as “P” for passing or “F” for not passing.

Pass/No Credit Option
A high school student wishing to receive pass/no credit for a subject must:

1. Be enrolled in at least 6 courses, excluding physical education.
2. Have prior written approval of the student’s parent/guardian and counselor.
3. Make a final determination, no later than the end of the sixth week, to either continue in the course on a pass/no credit basis or take a letter grade. A pass/no credit form must be turned in to the Counseling Center by the end of the sixth week.
4. Complete all work required in the subject of students under the regular grading system.

The pass/no credit option is not available for required core classes. Core classes are defined as academic subjects in the areas of English, science, mathematics, and social sciences. Required courses in the non-academic areas as well as electives may be taken pass/no credit. Students will have the opportunity of choosing one course per semester as pass/no credit, however, no more than 4 pass/no credit credits may be taken over the four-year high school career. A no credit will be recorded as "No Credit" and will not result in a penalty to the student's grade point average. (Policy 505.7R)
Physical Education Exemption
Students not exempt are required to take Physical Education one semester each school year they are enrolled.

In accordance with Iowa State Law (Chapter 12) and the Waterloo Community School District Policy (Policy 602.9-R), students may exempt from Physical Education under the following conditions:

- Academic exemption (1) The student must be taking a full academic load (9th - 12th grades). If a course is dropped, the exemption is rescinded. (2) The student is in an approved cooperative, work study or other educational school authorized program which requires the student’s absence from the school’s premises during the school day (12th grade only).
- Athletic exemption (9th, 10th, and 11th grade students may exempt for one semester during their season of athletic participation; eligible participation includes those sports sanctioned by the Iowa High School Athletic Association and the Iowa High School Girls Athletic Association and/or activities recognized by the Waterloo Community Schools. Band, cheerleading, dance team, hockey, color guard, JROTC, and trapshooting are not included because they are non-sanctioned activities. 12th grade students may be exempt both semesters if they are participating in eligible sports.)
- Medical exemption (medical doctor’s permanent-medical excuse)
- Religious exemption (documented religious excuse)  
  (Policy 602.9-R)

Retaking a Course
A student who earns a D or F in a course may retake the course. A subsequent higher grade will replace the previous D or F, but the student will not receive an additional credit for re-taking the course in which credit has already been earned. The new grade will be recorded as the grade for the course and will be included in computing the grade point average and class rank. The transcript will retain the course and title from the first effort. Any student who retakes a course will not be considered for valedictorian status at the time of graduation. In addition, if a student fails a course with a score of 55-59%, the student may choose to take the Cumulative Exam through the corresponding Edgenuity course existing within the list of available courses. The student should request to take the Cumulative Test within 10 school days after the semester ends. If the student earns a 70% or above on the Cumulative Test, then the course grade will be a C. If the student earns a 60-69% on the Cumulative Test then the course grade will be a D. The results will be treated as noted above for retaking a course in regard to how the grade is recorded, how the grade is used in computing grade point average, and valedictorian status.

Shared Coursework with East or West
Students may enroll in a class at East or West if it is not offered to them at their home school. Students must see their counselor to enroll in these courses. Transportation is provided, if needed, for courses, I-JAG (Iowa Jobs for America’s Graduates) courses, and/or other courses not offered at their home schools.

Summer Courses/Academic Eligibility
The Iowa Athletic Association does not allow a student to use summer courses to meet eligibility requirements. A student may repeat a failed course in summer school or at an approved institution; however, it will not be used to determine eligibility. The letter grade will be recorded for the spring semester after an official transcript has been received.

Transfer Credit / Enrollment
Students attending a Non-Accredited Educational Institution:
Students who have attended a non-approved education institution may enroll in Waterloo high schools up to the last two (2) weeks of the school year. The records and transcripts of enrolling students will be reviewed and, if needed, an assessment will be given to determine placement in the most appropriate educational program.  
  (Policy 502.2-R)

Students Re-Entering High School
At the discretion and approval of the building principal, students enrolling after the 10th day of the semester or who have not attended another school within a two-week transfer period can enroll either at the high school or in an alternative program. Alternative programs include enrollment in Expo Alternative Learning Center, enrollment in the Graduate with Required Academics and Diploma program (GRAD Connection), or a reduced academic load. Students entering an alternative program and earning credit may enroll in East High School or West High School the following semester.

English Language Learner (ELL) students and students with Individual Educational Programs (IEPs) will be considered individually.  
  (Policy 502.2-R)

GRADUATION

Commencement
Students participating in commencement exercises must have met all graduation requirements by the published deadline date. In order for students to participate in commencement exercises, all graduation requirements must be met, all fees and fines must be paid, and students must attend commencement practice. Students are not permitted to participate in commencement if they have not met EVERY requirement. Students are not required to participate in the graduation ceremony.

Students who complete graduation requirements after the specified graduation deadline will graduate with the next year’s class.  
  (Policy 602.5 VI)
Early Graduation

Students have the option of graduating at the end of their junior year if all graduation requirements have been met, the minimum score requirement on the Iowa Assessments as stated in board Policy 602.5 has been attained, and the request has been approved. The appropriate Early Graduation Form may be obtained from the student’s counselor. The request requires approval from the parent, counselor, assistant principal (scheduling), and Associate Superintendent for Educational Services. Students can only graduate early on a Standard Diploma or Honors Diploma.

Midyear Graduates

Students also have the option of completing graduation requirements at the end of the first semester of the senior year. Midyear graduates receive their diplomas at Commencement with their class. Students may schedule for this option with their counselors.

Special Graduation Recognition

Top graduates are honored during commencement exercises. Students who have demonstrated superior performance, such as a high Grade Point Average, an Honors Diploma, and other similar high levels of achievement will be honored.

THINKING about the FUTURE

Testing

In preparation for entry into a post-secondary institution, students need to plan for additional testing beyond the required assessments completed in high school. Sophomores and Juniors are encouraged to take the PSAT/NMSQT (Preliminary Scholastic Achievement Test/National Merit Scholarship Qualifying Test) if they are likely to qualify for National Merit standing or if they plan to enter a post-secondary institution that requires an SAT test. ACT (American College Test) or SAT (Scholastic Achievement Test) are optional tests, but are required by many colleges and universities for admission. These tests charge fees, which need to be paid by the student. If a chosen college or university requires the ACT or SAT, students should complete the application process well in advance of the time they wish to take the tests. Application deadline dates and test dates can be obtained from the Counseling Services. Students who plan to attend a four-year college are encouraged to take the ACT or SAT Test in the spring of their junior year and re-take it in the fall of their senior year, if necessary.

Advanced Placement Courses/Testing

Advanced Placement is a program of college-level courses and examinations available at the high school level. Many colleges and universities award AP college credits based on students' scores on the national AP exams. AP Examinations are given in May on a national test schedule. All students enrolled in Advanced Placement courses will complete the AP Examinations. The exams will be paid for by the Waterloo Community Schools. Students who are not enrolled in AP courses may also pay to take the AP examinations. The Advanced Placement coordinator should be contacted for registration, payment, and testing information.

Post-Secondary Enrollment Options

Under the Post-Secondary Enrollment Options Act (PSEOA), eligible juniors and seniors may attend a post-secondary 4 year institution while enrolled in high school. Freshmen and sophomores who have been identified for Talented and Gifted programming are also eligible for PSEOA.

If a student enrolls in a course for which there is no comparable course offered in the Waterloo Community Schools, with prior approval from the Associate Superintendent for Educational Services, the school district may pay up to a maximum of $250 per course for tuition. Post-secondary 4 year institutions require students to meet appropriate standards or requirements for entrance into a course. Students are expected to provide their own transportation.

The PSEOA includes very specific and detailed guidelines. It is important that students consult with their counselors for specific important information, enrollment forms, and assistance with the PSEOA registration process.

NOTE: Registration deadline for a PSEOA fall course is May 15th and the registration deadline for a spring course is November 30th.

Dual Enrollment

Students may register for any course which is approved by the post-secondary institution and the Waterloo Community School District. Students/families are responsible for tuition payment.

Scholarships

Students interested in scholarships should be aware of the requirements early in their high school careers. Most applications must be completed early in the senior year. Schools maintain information about scholarship listings that all students may use.

West High: Scholarships are posted on the West High website under the Counseling Services tab

East High: http://sites.google.com/waterlooschools.net/ehscounseling

Expo: see your counselor

Entering College or University

Students planning on entering either a college/university or technical school after graduation are advised to keep their scholastic record in excellent standing all four years for several reasons:

• Successful college work can ordinarily be done only by those who have learned to study.
• The junior year GPA is used when applying to schools.
• Colleges review student performance for ALL four years.
• Certain colleges will not admit students who are too low in academic standing.
• Scholarships and grants are available to those with excellent high school records.
Tips for Taking College-Level Courses in High School

1. Before you take a college-level course, think about how it will affect your high school connections such as extra-curricular activities or a part-time job. You will want to have enough time for the course and the homework.

2. The grades you receive for these courses will not only be a part of your high school transcript but your college transcript as well.

3. Your high school and college academic calendars may be different. This means that even though you don't have to go to your high school classes, you may still have to go to your college classes.

4. If you have to pay for some of the classes, make sure you know all of the costs (such as tuition, fees, books, and supplies) ahead of time. You don't want to get into the class and then realize you don't have enough money to cover the expenses.

5. Make sure you set aside enough time for your college homework. You may get more than you are used to.

6. Find out how your college credits will transfer into your major at your next college or university.

For more information about taking college courses while in high school, contact your counselor.

Three common ways of earning college credit while in high school include concurrent courses, postsecondary education option courses and dual enrollment courses. Remember you are starting a college transcript when you take these classes.
Please remember to list the NCAA Eligibility Center to receive ACT or SAT scores. This is done by listing 9999 as one of the colleges when registering for either the ACT or SAT.

Below is a list of the classes at each school that are currently approved by the Eligibility Center. Only those courses may be used to meet core and to figure core GPA. This list may change from year to year.

The NCAA Eligibility Center approves Edgenuity coursework on nontraditional core-course legislation and courses may be used in the NCAA initial-eligibility certification progress.

NCAA courses under review to be added.

**NOTE:** Courses may be added or deleted during the school year. Please check the latest HS Program of Studies on the WCSD website.
NCAA Academic-Eligibility Requirements
(source: www.eligibilitycenter.org)
If students want to participate in athletics or receive an
athletic scholarship the first year, they must have graduated
from high school and meet the following academic standards
for either Division I or Division II. Note that only core
courses that appear on the high school/district’s list of NCAA
courses on the NCAA Eligibility Center website are used to
calculate core-course GPA.
DIVISION I
- Sixteen (16) core courses
- Ten (10) core courses completed before the seventh
  semester; seven (7) of the 10 must be in English,
  math or natural/physical science; these
courses/grades are “locked in” at start of the seventh
semester, which means they cannot be repeated for
GPA improvement
- Must present a corresponding SAT or ACT test score
  and core-course GPA on the Sliding Scale B
- Earn a minimum GPA of 2.300
- GPA is calculated using the best 16 core courses that
  meet both progression (10 before seventh semester;
  7 in English, math or science; “locked in”) and
  subject-area requirements

Core Course Requirements – Division I
- 4 years English
- 3 years math (Algebra I or higher)
- 2 years natural/physical science (1 year of lab if
  offered)
- 1-year additional English, math or natural/physical
  science
- 2 years social science
- 4 years additional courses (any area above, foreign
  language or comparative religion/philosophy)

DIVISION II
- Sixteen (16) core courses
- Must use the Division II Competition Sliding Scale to
  match test scores and core-course GPA (see
  www.eligibilitycenter.org )
- Earn a minimum GPA of 2.200

Core Course Requirements for Division II
- 3 years English
- 2 years math (Algebra I or higher)
- 2 years natural/physical science (1 year of lab if
  offered)
- 3-year additional English, math or natural/physical
  science
- 2 years social science
- 4 years additional courses (any area above, foreign
  language or comparative religion/philosophy)

DIVISION III
Contact your Division III college regarding its policies on
financial aid, practice and competition.

## Taking College Classes while in High School

Students can get a jump start on college and post high school training and earn college credits by taking Concurrent, PSEO or Dual Enrollment classes. Each Program is different and the chart explains the differences. (Hawkeye* or HCC* also includes DMACC & Kirkwood CC even though not mentioned)

<table>
<thead>
<tr>
<th></th>
<th>Concurrent</th>
<th>PSEO (Post-Secondary Education Option)</th>
<th>Dual Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>What is it?</strong></td>
<td>A concurrent course is college credit course offered by Hawkeye Community College (HCC), DMACC, or Kirkwood. Students can select from a variety of core and/or CTE courses at East, West, WCC, or Elk Run locations. Classes are taught by qualified high school teachers who serve as adjunct instructors for HCC. When students take agreed upon concurrent classes through the WCSD, the cost of the course and textbooks are paid through the district.</td>
<td>The Postsecondary Enrollment Options (PSEO) program allows eligible high school students to expand their academic course offerings by taking college-level courses at 4 year institutes. These are courses not available at the high schools. PSEO courses are paid for by the Waterloo District.</td>
<td>High school students may enroll independently in college-level courses as a tuition-paying student. These courses are considered Dual Enrollment courses.</td>
</tr>
</tbody>
</table>
| **Eligibility**         | Waterloo recommends concurrent classes for 11th and 12th graders. 9th and 10th graders will be scheduled for these classes in rare cases based on student need and demonstrated proficiencies. You must meet the following requirements to take a concurrent course:  
  • Demonstrate proficiency in reading, math, and science. Iowa Assessments have been used in the past to measure proficiency, but this year a combination of criteria based on a portfolio approach will be included.  
  • Meet Hawkeye’s* course requirements for any course requiring prerequisites or placement scores | PSEO courses are open to 11th and 12th grade students who have not met high school graduation requirements and 9th and 10th grade students identified as talented and gifted through our district. You must meet the college’s entrance requirements for any course requiring prerequisites or placement scores. You must meet the following requirements to take a PSEO course:  
  • Demonstrate proficiency in three academic areas: reading, math, and science. This is primarily determined by the Iowa Assessment.  
  • Meet institution’s course requirements for any course requiring prerequisites or placement scores | Dual Enrollment courses are open to 11th and 12th grade students who have not met high school graduation requirements and 9th and 10th grade students identified as talented and gifted through their local district. You must meet the college’s requirements for any course requiring prerequisites or placement scores. |
<p>| <strong>Number of Courses</strong>   | You may take up to 23 credits through Hawkeye* per academic year (Fall and Spring semesters).            | You may take up to 23 credits per academic year (Fall and Spring semesters). Visit with your high school counselor for a list of available classes. | You may enroll in classes and become a part-time student. The number of courses you can take as a part-time student varies from one institution to another. Courses must be taken for college credit and you must meet the course requirements. |
| <strong>Credits</strong>             | You will earn both high school credit and college credit for the courses taken. After successfully completing a course, it will be recorded on your high school and Hawkeye* transcripts. If you are attending a college other than Hawkeye after graduation, contact that college to be sure your Hawkeye* courses will transfer. | You will earn both high school credit and college credit for the courses taken. After successful completion of a class, it will be recorded on your high school and college transcripts. | You will earn college credit for the courses taken. You do not earn high school credit. After successful completion of a class, it will be recorded on your college transcript. |</p>
<table>
<thead>
<tr>
<th>Concurrent</th>
<th>PSEO (Post-Secondary Education Option)</th>
<th>Dual Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Costs</strong></td>
<td>If the course is agreed upon, the district pays Hawkeye for the cost of tuition. If the course is taken at one of four WCSD locations, the cost of books is paid by the district. You or your family will be responsible for the cost of transportation to and from class, field trips, and other out-of-class activities.</td>
<td>The district will pay for the cost of tuition, textbooks, materials, and fees. You or your family will be responsible for the cost of transportation to and from class, field trips, and other out-of-class activities. If you do not pass a course, you or your family are responsible for all tuition and fees. ($250)</td>
</tr>
<tr>
<td><strong>How to Enroll</strong></td>
<td><em>These courses have enrollment &amp; minimum test requirements which MUST be met before you can register.</em> These steps must be completed before your high school classes begin. 1. Schedule your required high school courses. 2. Meet with your high school Counselor to determine which concurrent courses are available. 3. Fill out an online registration form (that includes your Social Security Number) as directed by your counselor or HCC* representative. Hawkeye* does not allow you to register without the SS#. 4. Take a copy of your Accuplacer or ACT scores to the <em>HCC representative at your school. 5. The HCC</em> representative will determine if your scores qualify you to register.</td>
<td>You or your family will be responsible for all costs. You are also responsible for providing transportation to and from the college.</td>
</tr>
<tr>
<td></td>
<td>These steps must be completed by May 15 for the Fall Semester and/or November 30 for the Spring Semester. Registrations submitted after that date will be approved on an individual basis. 1. Schedule your required high school courses. 2. Meet with your high school counselor to determine which college classes you can take. 3. Complete the PSEO enrollment form and send to the Office of Advanced Programs. 4. Waterloo Schools have their own PSEO registration forms and contracts. 5. Have your school counselor and parent/guardian sign the form. 6. Have your high school send your transcripts and your ACT scores.</td>
<td>These steps must be completed by May 15 for the Fall Semester and/or November 30 for the Spring Semester. Registrations submitted after that date will be approved on an individual basis. 1. Schedule required high school courses. 2. Meet with your counselor to select classes. 3. Complete the <strong>dual enrollment form</strong>. 4. Have your counselor and parent/guardian sign the form. 5. Complete and meet all entrance requirements</td>
</tr>

Source: [http://www.regents.iowa.gov/RAI/info.html#other](http://www.regents.iowa.gov/RAI/info.html#other)

Updated from website October 2019
Regent Admission Index (RAI)

Students from Iowa high schools must have a Regent Admission Index score of at least 245 and take the minimum number of required high school courses to qualify for automatic admission to Iowa State University, the University of Northern Iowa, and the College of Liberal Arts and Sciences at The University of Iowa. Students who achieve a score of less than 245 will be considered for admission on an individual basis. There are two RAI formulas for computing students' RAI scores; the Primary RAI formula for students whose high schools provide class rank and the Alternative RAI formula for students whose high schools do not provide class rank. WCSD provides a class rank.

The index combines four factors that strongly predict success at regent universities:
- ACT or SAT test score
- high school cumulative grade-point average
- the number of years of RAI-approved high school courses completed in the core subject areas.

RAI Formula

\[
(3 \times \text{ACT composite score}) + (30 \times \text{cumulative GPA}) + (5 \times \text{number of years of RAI approved high school courses completed in the core subject areas})
\]

It is recommended that students go to the Regent Admission Index website where there is a CALCULATOR in which students can insert their specific information regarding their ACT or SAT test scores, their high school rank, their cumulative grade-point average and the number of completed high school courses. The Index Calculator will automatically calculate the student's score for admission. In addition, there is additional information that further explains the Admission Index and how to use it, plus information about admissions in general.

www.regents.iowa.gov/RAI/index.html

Figuring the Number of High School Courses

To figure the number of high school courses completed in the core subject areas, students will need to look at the School Codes for the Exchange of Data (SCED) course classification system numbers for the courses they've taken. The SCED number is made up of a series of digits and in the WCSD Program of Studies, each course has the SCED number listed in small print below the title of the course. Only the first 6 digits are necessary in determining eligible courses when using the RAI.

The first five digits of the SCED number are the course description. The first two digits in the course description represent the subject area and the next three digits identify the SCED course title within the subject area. The sixth digit represents the level of rigor of the course. Only those courses that are taught at G (general), H (honors), E (enriched or advanced), or C (concurrent enrollment courses, dual credit, and PSEO courses) rigor levels may be counted in the RAI calculation.

Below is an example of the SCED digits used for English 9 in this Program of Studies.

<table>
<thead>
<tr>
<th>Subject area</th>
<th>Course title</th>
<th>Rigor Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>001</td>
<td>G</td>
</tr>
</tbody>
</table>

On the following page is a chart with the SCED Code Numbers for those eligible courses that can be used in the RAI.
In general, the courses that may be counted in the RAI calculation are limited to those offered in the following five subject areas: English, mathematics, science, social sciences, and foreign language. In addition, the regent universities recognize that the traditional measures of academic performance do not adequately describe some students' potential for success and there are other courses offered outside these five subject areas that may also serve as excellent preparation for college (e.g., animal science, Computer Science, journalism, etc.). While these courses are not eligible to be counted in the RAI calculation, each regent university will view these courses favorably when considering applicants who fall into the individual review category. The Regent universities strongly encourage all interested students to apply for admission.

Applicants who feel their academic record is not an accurate reflection of their potential for success are encouraged to provide supplemental information explaining their circumstances in addition to the application, academic transcripts, and test scores.

Performance Based Diploma Academy at East & West

The mission of the PBD Academy is to remove any barrier to learning that might exist for a student so that they graduate ready for college, career and citizenship.

Program Description

The Performance Based Diploma Academy provides a personalized learning environment and a comprehensive system of supports to remove barriers to learning and graduation. The PBD Academy provides an on-site alternative education program serving students for whom the traditional classroom setting and pacing are not a good fit. Students are recommended for the Academy by teachers and counselors. Four core teachers, a lead teacher/coordinator and a counselor facilitate self-paced, computer-assisted learning in English, math, science and social studies. Electives and career tech classes are taken in the traditional curriculum setting.

Students in the PBD Academy:
- spend their time taking courses in the four core academic areas, working with a counselor, meeting with community mentors, and receiving employability skill development while taking electives in career-oriented fields.
- are eligible to participate in all of the high school’s activities and receive a standard Waterloo diploma upon completion of requirements.
- are considered to be East or West students and are subject to the rules and regulations of all students. Students and their parents sign a contract outlining specific requirements to remain in the academy. Students who are unsuccessful in this program will be scheduled into “regular” classes or may be transferred to a district alternative program.
- can be placed in PBDA if they become credit deficient and are not on track to graduate.

PBD Academy Components

Academic

Students take their core academic courses in a smaller focused environment, using the Edgenuity curriculum, which allows them to do most of their coursework on the computer working at their own pace. The Edgenuity courses are customized to be aligned with the Waterloo Community Schools’ curriculum, so students learn the same material and concepts as peers in traditional classes. Students’ transcripts will reflect the same course names as those in traditional classes. Career/technical and elective classes are taken outside the academy with the rest of the student body. **Students will receive the same Waterloo Community Schools Diploma.**

</tbody>
</table>

Other courses are also available depending on student need.

Career

Students will learn the importance of seeking careers that help them realize their life potential. Students will also take the Waterloo Schools’ elective courses in their areas of career interests. The hope would be to have all students take advantage of one or more career pathway options at the Waterloo Career Center. Special attention is paid to the employability skills of the Iowa Core Curriculum.

Counseling

The PBD Academy is staffed with a full-time counselor who will meet with students regularly to discuss any issues which may affect their success. Goal setting/decision making and self-improvement skills will be emphasized. Guidance in students’ selection of careers, academic progress and employability skills are highlighted.

Mentoring

Adult mentors are available to serve as positive role models. Students will work with their mentors while focusing on life management skills. Career interests of the student are matched to the career of the mentor. The team works with the counselor to ensure a good mentor/mentee relationship.
Career Interest Academies at East and West

East and West High Schools are four-year comprehensive high schools educating more than 3000 students. The staffs are committed to continuous school improvement. Our mission is to ready students for college, career, and citizenship. This includes a vision of increased student academic achievement through proven research based instructional strategies. Waterloo has a strong base of classes including advanced placement courses, concurrent classes with Hawkeye Community College and post-secondary education options.

2010-2011 began an exciting change in our high schools. East and West High Schools were organized into Career Interest Academies which are a type of a smaller learning community. Our smaller learning communities connect approximately 300 to 400 students within a career interest area. In addition, each high school has a Performance Based Diploma Academy for students who are at risk of not graduating. These students take their core classes in the PBD Academy and elective classes in a Career Interest Academy.

Career Interest Academies (CIAs) offer a number of benefits to our students:

- Students are a part of a smaller “school-within-a-school”, so they will get to know their peers and teachers better and be part of the academy “family”.
- Students continue to get a well-rounded education of general education courses while also learning more about their career interests.
- As the CIAs develop, more courses specifically related to each career pathway will be developed. We will offer job shadowing and internship opportunities for students in many areas. In addition, some traditional general education courses may take on a few new twists, adding some career-related activities while continuing the rigor and content needed for admission to college.
- Students will leave the Career Interest Academy more focused with the skills and knowledge to assist them in transitioning into college, other post-secondary education, or the workforce.
- Students may change their academy choice at the end of the year if their interests change.
- Students who are a part of the Performance Based Diploma Academy will take their electives in one of the Career Interest Academies.
- They set, promote and support high standards for student academic performance while developing students' talents and abilities necessary to pursue a postsecondary education and/or employment.
- Students choose a major area of interest that will allow them to explore an area that they might be interested in as a career or that they would just like to learn more about. Choosing a career interest area increases the relevance of the high school experience.
- Students develop long range education plans with the adults in their academy.

The schools have been organized into the Career Interest Academies listed below:

**East High School**
1. Arts, Communication and Business
2. Engineering, Technology, and Manufacturing
3. Health and Human Services

**West High School**
1. Arts, Communication and Business
2. Engineering, Technology and Manufacturing
3. Health Services
4. Human Services

* Concurrent courses with Hawkeye Community College, Kirkwood Community College or Des Moines Area Community College.

❖ denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course. Generally, S coded courses do not count in the RAI.

**Construction Safety (Q1/3 MWF)**

IND361

17-017-C-011-00

1 credit

Open to 10-11-12

Hawkeye Community College CON108

The Construction Safety course will provide students with the requirements and expectations required to work safely in the numerous occupations of the construction industry. The course will introduce students to the national OSHA safety standards for General Construction and upon their completion of this course will receive the OSHA 10-hour General Construction certification.
Advanced Manufacturing

Basic Design and Modeling  (Qtr. 1/3 w/MTP)  IND346
21-005-G-050-00
Open to 10-11-12  1 credit
This course provides students an introduction to engineering and advanced manufacturing. Students will expand their knowledge of the following concepts: modeling systems, design, and technology. In addition students will explore the following topics: engineering design principles, material science, research and development process, and manufacturing techniques and systems.

Machine Trade Print reading I  (Qtr. 2/4 w/BDM)  IND314
21-108-C-050-20
Open to 10-11-12  1 credit
Hawkeye Community College MFG122  3 credits
This course provides the student with the necessary knowledge to read and interpret basic prints used in the machining industry. It covers terminology, line-types, and drawing interpretation. First and third angle orthographic projection, dimensioning methods, and tolerancing are the major topics covered.

Intro to CNC Programming I  (Qtr. 1/3 MWF w/CS, IBMT, AM)  IND320
21-010-C-033-00
Open to 10-11-12  .5 credit
Hawkeye Community College MFG157  2 credits
In this course students will create basic programs for CNC mills. Students will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Speed and feed calculations, operator notes and start-up lines, mill tooling types and procedures, rectangular coordinates, canned (drill) cycles, and file management are other areas of study.

Basic Machine Theory  (Qtr. 2/4 MWF w/AM)  IND349
13-203-C-0xx-00
Open to 10-11-12  1 credit
Hawkeye Community College MFG211  2 credits
This course presents basic machining processes and concepts necessary to set-up and operate machine shop equipment.

Applied Math  (TR w/ICP, IBMT)  MAT307
02-152-G-050-00
Open to 10-11-12  1 credit
This course is designed to apply basic number conventions to real world applications in the building trades. Quantitative reasoning ranging from the use of arithmetic through the use of minor algebraic concepts will be employed. The course will also include units in measurement, proportions, and percent. Problem based, constructionist learning will account for a large portion of the course work.

Machine Operations  IND377
13-999-C-112-00
Open to 10-11-12  2 credits
Hawkeye Community College MFG222  4 credits
An introductory machining course presenting basic machining operations. Student will perform basic operations on lathes, horizontal + vertical-milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

Manufacturing Internship A/B  IND530/531
13-998-G-050-10 (A)
13-998-G-050-20 (B)

Engineering Internship A/B  CAR510/511
21-048-G-050-10 (A)
21-048-G-050-20 (B)

Culinary/Hospitality Program

ProStart Culinary Level I  FCS215
16-056-G-100-10
Open to 10-11-12  2 credits
Recommended to follow successful completion of Exploring Careers in Human Service course
Students will develop essential skills necessary to begin a successful career in the culinary and food industry. This course will cover an overview of the restaurant and foodservice industry, how to create a safe operation, an introduction to the kitchen, service and management, and it will incorporate a lab component. Students will discuss and learn how the industry has grown globally, its trends, and the technology used within the industry. Students who take and pass the ProStart final exam for level 1 will be on the path to receive the national ProStart Certification of Achievement (COA).

ProStart Culinary Level II  FCS315
16-056-G-100-20
Open to 10-11-12  2 credits
Recommended to follow successful completion of ProStart Culinary Arts Level I  May also seek teacher approval
Students will develop fundamental skills necessary to maintaining a successful career in the food industry and culinary. This course will cover topics such as reaching your customers, managing costs; today's operational concerns, meat, poultry, seafood, baking and desserts, and it will incorporate a lab component. Students who have taken and passed the ProStart Culinary level I final exam and then take and pass the ProStart final exam for level II will be on the path to receive the National ProStart Certification of Achievement (COA). COA can give you a head start to careers and collegiate opportunities. Numerous restaurant, foodservice, and hospitality programs offer benefits to ProStart graduates.

Food Science and Safety  FCS322
16 052-G-100-10
Open to 10-11-12  2 credits
Recommended Biology or Chemistry, ProStart Culinary Level I
Students will complete hands-on activities, projects, and problems that simulate actual concepts and situations found in the food science and safety industry, allowing students to build content knowledge and technical skills. Students will investigate areas of food science, including: food safety, food chemistry, food processing, food product development, and marketing.
### ProStart Culinary Competition Team

16-056-G-100-30  
Open to 10-11-12  
2 credits  
You must be taking, or have passed ProStart Culinary Level I to try out for this team.  

Students participating as part of the culinary competition team will represent the Waterloo Career Center in the state of Iowa. Teams that participate in the competition will demonstrate culinary skills needed for a career in the restaurant and foodservice industry, to a group of industry judges. The team that wins will then move-on to represent Iowa at the National ProStart Invitational. This is where teams will put their skills to the ultimate test. This demanding culinary competition invites top students to represent their school and state, with winning teams competing for scholarships.

### Hospitality and Tourism Management Prog Yr. 1

16-099-G-100-10  
FCS324  
Open to 10-11-12  
2 credits  
Recommended to follow successful completion Human Services or Intro to Foods and Nutrition course.  

Students will be provided with specific skill knowledge. They will be introduced to things like hotels, restaurants, gaming, tourism, and the hospitality business as a whole. They will research how this global industry fits into society, and explore how the business has grown, where it is trending today, and where it is going.

### Hospitality and Tourism Management Prog Yr. 2

16-099-G-100-20  
FCS325  
Open to 10-11-12  
2 credits  
Recommended successful completion of Hospitality & Tourism Management Prog Yr. 1  

Students will learn important employability skills and job specific technical skills leading to an industry-recognized professional certification from the American Hotel & Lodging Assoc. They will define and describe why we need hospitality and how we can provide results in sustainability in business. Students will obtain work based training, and advanced placement while developing essential skills necessary and specific to the restaurant and food industry.

### ProStart Management Competition Team

16-055-G-100-00  
Open to 10-11-12  
2 credits  
You must be taking, or have passed ProStart Culinary Level I to try out for this team.  

Students participating as part of the management competition team will represent their school in the state of Iowa. Teams that participate in the competition will demonstrate management skills by creating a business concept to present to a panel of industry judges. The team that wins will then move-on to represent Iowa at the national ProStart Invitational. This is where teams will put their skills to the ultimate test. This demanding management competition invites top students to represent their school and state, with winning teams competing for scholarships.

### ProStart Culinary and Hospitality Internship A/B

16-098-G-100-10 (A)  
16-098-G-100-20 (B)  
Open to 12  
2 credits  
Students who have taken and passed the ProStart Culinary Level I and II final exams can complete this 400 hour internship. This will put them in a position to gain the time needed for the National ProStart Certification of Achievement (COA).  

Seniors in the Culinary and Hospitality Program have the opportunity to work with industry professionals in their desired profession. Interns spend 8-10 hours a week at their internship site completing work assignments, attending meetings, and developing special projects requested by the sponsor.

### Digital Graphics

Graphic Imaging/English in a Digital World, is the first course in this program's sequence. Any course taken after this may be taken in any order. Students in the class of 2023 or 2024 who have already taken a course in this program do not have to meet this prerequisite. Preferred sequence of courses would be:  

- Graphic Imaging  
- English in a Digital World  

### Graphic Imaging (MWF w/EDGW)

COM223  
11-054-C-067-20  
Open to 10-11-12  
1 credit  
Hawkeye Community College GRA142  
4 credits  
Prerequisites: Desktop Publishing  

This course involves in-depth uses of Adobe Illustrator and Adobe Photoshop. Students further their experience from previous classes and apply their skills to more advanced features of imaging software and challenging projects. Students work on combining original artwork with images and graphics generated with advanced imaging software. The course focus is to evolve student's ideas to marketable products, layouts and graphic visual plans.

### English in a Digital Graphic World ☀ (TR w/GI)

ENG408  
01-055-G-050-00  
Open to 10-11-12  
1 credit  
This course will engage students in developing language arts critical thinking skills and knowledge through analyzing selected literature, applying writing techniques, and exploring additional literacy skills. Students will investigate the career world of digital graphics through units that include technical writing, graphic short stories, proposal creation, visual literacy, business writing and others. The learning focus uses a hands-on activity-based approach that challenges students to apply literacy skills in a digital graphics career-oriented course.

### Basic Digital Photography (MWF w/LVC)

COM221  
11-054-C-067-10  
Open to 10-11-12  
1 credit  
Hawkeye Community College MMS103  
3 credits  
This course is an introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance. Artistic issues like framing, camera angle, use of color and composition will be addressed as well. Students will produce final images using industry standard software.
Students enrolled in this course will experience and enhance their skills in viewing, writing, and thinking through photographic images, fiction and nonfiction. Students will create both narrative and technical writing throughout the semester analyzing concepts and information while also telling stories based on their own visual ideas.

This course is a comprehensive drawing class that builds upon student’s initial knowledge and experience from previous art classes. This class strengthens the students’ abilities by the drawing of basic shapes, studying perspective rendering, and creating full studies of the human head, face and overall form. Students strengthen their use of structural and compositional theories such as unity, balance, and symmetry. Color theory is thoroughly explored and students use both wet and dry media to further advance their creative and technical skills.

This course is an introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance. Students enrolled in this course will experience and enhance their skills in viewing, writing, and thinking through photographic images, fiction and nonfiction. Students will create both narrative and technical writing throughout the semester analyzing concepts and information while also telling stories based on their own visual ideas.

This course will introduce students to the skills and software used for digital production of printed materials including still photos, brochures, flyers, posters, business cards and other materials printed from original digital creations.

This course examines the principles of sound and acoustics and basic audio capture techniques. The equipment for recording as well as production and editing audio will be analyzed and employed. Sound quality and final output issues will be addressed.

This course will introduce the basics of video production, camera handling, digital exposure, and workflow. Emphasis is on how to handle image workflow to produce a professional video output.

This course explains the theory and execution of motion graphics in video production environment. Instruction in use of and methods for constructing a variety of motion graphics and animation techniques will be delivered. Media management and output formats will also be addressed.

Students enrolled in this course will experience and enhance their skills in viewing, writing, and thinking through photographic images, fiction and nonfiction. Students will create both narrative and technical writing throughout the semester analyzing concepts and information while also telling stories based on their own visual ideas.

Students will study screenwriting for both film and television, emphasizing structure and form. Students will understand the process from the inception of the idea through the finished product. This course also provides instruction in writing for broadcast, video, and news media. Developing ideas, interviewing, gathering information and objective writing will be covered.

This course is an introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance.
Early Childhood Education

**Introduction to Early Childhood Education (Q1/3)**  FCS415
19-153-C-050-10
Open to 10-11-12
Hawkeye Community College ECE103
3 credits
This course gives students a historical and philosophical foundation of the field of early childhood education. Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

**Early Childhood Curriculum (Qtr. 2/4)**  FCS417
19-153-C-050-20
Open to 10-11-12
Hawkeye Community College ECE158
3 credits
This course focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children’s development stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

**Child Health, Safety, and Nutrition**  FCS419
19-151-C-112-00
Open to 11-12
Hawkeye Community College ECE133
3 credits
This course focuses on current concepts in the fields of health, safety and nutrition and their relationship to the growth and development of the young child ages birth to eight. Blends current theory with practical applications and assessments. Includes the influences of families and diversity on health, safety, and nutrition in early childhood settings.

**Early Childhood Guidance**  FCS421
19-153-C-112-30
Open to 10-11-12
Hawkeye Community College ECE243
3 credits
This course focuses on effective approaches and positive guidance strategies for supporting the development of all children. Emphasizes supportive interactions and developmentally appropriate environments. Uses assessment to analyze and guide behaviors. Studies impact of families and diversity on child guidance.

**Teacher Internship A/B**  FCS520/521
19-196-G-050-10 (A)
19-196-G-050-20 (B)

---

Electrical Construction Trades

**NCCER Electrical I**  IND378
17-109-G-067-00
Open to 10-11-12
2 credits
Trainees develop an understanding of electrical systems in structures, follow blueprints and install wiring and other electrical components, such as circuit breaker panels, switches and light fixtures. This program is the beginning course on the journey toward a student’s apprenticeship.

**NCCER Electrical II**  IND379
17-109-G-067-00
Open to 11-12
2 credits
Required: Students must complete NCCER Electrical I to schedule for this course. Students will discover the different methods for single-family and multi-family dwellings and learn to wire devices according to electrical codes. The course will cover load calculations, service entrance sizing, proper grounding techniques and associated safety procedures.

**NEC Residential Lecture (Qtr. 1/3 w/Res Lab)**  IND372
17-103-C-056-10
Open to 10-11-12
DMACC ELT147
3 credits
The basic principles of the NEC for layout and construction for residential wiring systems. Apply code rules to house wiring installations. Discuss security systems, fire and smoke detectors, low-voltage and remote controls.

**NEC Residential Lab (Qtr. 2/4 w/Res Lec)**  IND373
17-103-C-056-20
Open to 10-11-12
DMACC ELT148
3 credits
Utilize the basic principles of the NEC for layout and residential electrical wiring systems. Apply code rules, using hands-on approach for residential electrical installations from simplistic to complicated circuit wiring.

**Principles of Electricity (MWF w/AME)**  IND371
17-102-C-067-00
Open to 10-11-12
DMACC ELT303
3 credits
For beginners: theory, controlling electricity, voltage, amps, resistance, wattage, series and parallel circuits, DC & AC, batteries, electric lighting, generators and motors.

**Applied Math for Electricians (TR w/ PE)**  MAT308
02-152-G-045-00
Open to 10-11-12
1 credit
This course is designed to apply basic number conventions to real world applications in the electrical trades. Quantitative reasoning ranging from the use of arithmetic through the use of algebraic concepts will be employed. The course will also include units in measurement, proportions, and percent. Problem based learning will account for a large portion of the course work.
Financial Services

**Personal Finance**  
BUS343  
19-262-C-112-00  
Open to 10-11-12  
Hawkeye Community College FIN121  
3 credits  
This course enables students to achieve high standards and competencies in economic principles in contexts of high relevancy and applicability to their individual, family, professional, and community lives. A project-based approach that utilizes higher order thinking, communication, leadership, and management processes will integrate course topics. Upon completion, students should be able to better understand scarcity, supply and demand, market structures, the role of government, money and the role of financial institutions, economic stabilization and cycles, investing and financial markets, and consumer credit.

**Business Finance**  
BUS306  
12-103-G-050-00  
Open to 10-11-12  
1 credit  
This course focuses on a 360 degree at all things business, with a focus specifically on finance, addressing how business raise, distribute and use financial resources while managing risk. Course content involves lending broker, real estate and stock advising.

**Foundation to Entrepreneurship**  
BUS225  
12-053-C-112-00  
Open to 10-11-12  
2 credits  
Hawkeye Community College BUS128  
3 credits  
This course is suitable for anyone who dreams of one day becoming his/her own boss. Students will learn how to identify and evaluate opportunities, analyze feasibility, and plan to entrepreneurship and its importance in society and inspires students to recognize entrepreneurial characteristics within themselves.

**K-12 Education Preparations**

**Foundations of Education**  
CAR338  
19-151-C-067-00  
Open to 10-11-12  
1 credit  
Hawkeye Community College EDU210  
3 credits  
This course examines American education from a historical, philosophical, and sociological perspective. Challenges and issues in education today will be discussed in the context of school organization, politics, funding, curriculum, professionalism, legal issues, and effective school and teacher characteristics.

**Literature of a People**  
ENG417  
01-064-G-050-00  
Open to 10-11-12  
1 credit  
This course is designed to improve student’s language arts and critical-thinking skills. In addition, it uses literature written by authors who share a particular characteristic; such as, religion, culture, or gender. Students determine the underlying assumptions and values within the selected works, reflect upon the influence of a common characteristic, and compare the point of view of various authors. Oral discussion is an integral part of literature courses, and written compositions are often required.

**Marketing Management**

**Intro to Business**  
BUS310  
12-057-C-060-00  
Open to 10-11-12  
1 credit  
Hawkeye Community College BUS102  
3 credits  
Compass Cut Scores must be met. This course is an introductory survey course which provides an overview of the major functions in business with relation to current social, economic, global, and environmental concerns.

**Sports Marketing**  
BUS322  
12-163-C-056-00  
Open to 10-11-12  
1 credit  
Hawkeye Community College MKT198  
3 credits  
Entrance requirements may apply. This course will explain the basics of sports marketing, research and delivery.
Principles of Retailing (QTR2/4 w/IB) BUS347
12-161-C-056-00
Open to 10-11-12 1 credit
Hawkeye Community College MKT160 3 credits
Organized learning activities emphasize the status of retail environments, operations, locations, merchandising, pricing and promotions.

Principles of Selling (Qtr1/3, w/SM) BUS327
12-202-C-056-00
Open to 10-11-12 1 credit
Hawkeye Community College MKT140 3 credits
This course has planned learning activities and experiences emphasizing the psychology of selling, the selling process, sales techniques, and selling as a professional career.

Principles of Marketing (MWF w/EWW) 21-22S BUS324
12-152-C-087-00
Open to 10-11-12 1 credit
Hawkeye Community College MKT110 3 credits
This course is an overview of the processes, problems and activities associated with the planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges.

English in the World of Work (TR) ENG215
01-103-G-044-00
Open to 10-11-12 1 credit
Students will develop skills needed for successful written communication in the workplace. Students will focus on the various ways writing is used in workplace communications: email etiquette, notices and reminders, professional style of writing to colleagues, supervisors, and customers; students will also learn the basics of interviewing and will experience a mock interview as an assessment-all of which will have a focus on clarity, courtesy, consideration, conciseness, and concreteness. This course is recommended for students who plan to enter the workforce immediately upon graduating high school or students who intend to pursue a technical degree/endorsement at a community college. The coursework will be tailored to each individual student’s post-high school plans. Students will complete a career portfolio highlighting a resume or student profile, cover letter, writing assignments (e.g. sample email), reflective writing over course presentations, and a written reflection and plan for their intended career choice.

Business Internship A/B BUS510/511
12-048-G-050-10 (A)
12-048-G-050-20 (B)

Marketing Internship A/B BUS520/521
12-198-G-050-10 (A)
12-198-G-050-10 (B)
Introduction to Residential Construction is required to be the first course in this program’s sequence.

**Intro to Residential Construction**  IND220
17-002-C-033-00
Open to 10-11-12 .5 credit
Hawkeye Community College  CON102  2 credits
Students will be introduced to basic residential construction safety, history, terminology, materials, and basic construction techniques. This course will cover basic information and develop manual skills needed to begin construction of a new home.

**Building Science I** (Qtr2/4, TR)  IND362
17-999-C-001-00
Open to 10-11-12 .25 credit
Hawkeye Community College  CON302  1 credit
Students will learn building science principles and methods to determine how thermal energy transfer, air infiltration and exfiltration, internal and external air pressures, moisture migration, and durable design strategies apply to today’s residential design and construction industry.

**Framing Techniques** (w/SLBR)  IND364
17-004-C-056-20
Open to 10-11-12 1 credit
Hawkeye Community College  CON201  2 credits
The Framing Techniques and Lab 1 course will introduce students to the methods used to layout wall lines and plates, measure and cut all required parts, and assemble a floor deck, walls, and roof/ceiling framing with an emphasis on air sealing and advanced framing techniques.

**Site Layout and Blueprint Reading** (Qtr1/3 TR)  IND365
21-108-C-056-10
Open to 10-11-12 1 credit
Hawkeye Community College  CON131  1 credit
The Site Layout and Blueprint Reading course will train students to interpret and use site plans and other working drawings. Students will learn how to interpret construction symbols and building specifications. Students will develop site layouts for various projects utilizing lasers, builder’s levels, and transits using site plans and other working drawings.

**Applied Geometry** (TR w/IRC)  MAT306
02-998-G-050-00
Open to 10-11-12 1 credit
This course is designed to apply algebra and geometry to the building trades. Mathematical reasoning based on concepts from basic number knowledge through minor trigonometry will be utilized. Problem based, constructionist learning will account for a large portion of the course work.

**Construction Tech Lab**  IND363
17-004-C-112-10
Open to 10-11-12 2 credits
Hawkeye Community College  CON133  4 credits
The Construction Technology Laboratory course offers students the opportunity to further develop their skills with hand and power tool operations, and to devote more time to hands-on construction projects while improving their skill competencies.

**Construction Internship A/B**  IND520/521
17-048-G-050-10 (A)
17-048-G-050-20 (B)
Web Programming and Development

**Intro to Programming Logic (Python, VR)**
10-152-C-112-00
Open to 10-11-12
Hawkeye Community College CIS121
3 credits
This course will introduce language independent programming logic design techniques. Students will learn techniques such as flow-charting and pseudo-code to build complete programs that can be translated into modern programming languages. Students will learn to use elements of decision making, looping, control breaks, and arrays. Language independent Object Oriented Programming will be introduced along with other advanced topics.

**Intro to Web Development (Qtr1/3 w/DDM)**
10-201-C-056-00
Open to 10-11-12
Hawkeye Community College WDV102
3 credits
Students will learn basic HTML and CSS web page design by creating as e-Portfolio as a “resume.” This course introduces the current standard of HTML and discusses upcoming versions. Students will learn the basics of CSS for design and layout using both text and multimedia. Website maintenance cycles and roles used in the cycles will be introduced. By using FTP, students will create and maintain a small web page on a live web server. By using a text based editor, students will learn to code in an HTML editor rather than just the visual aspect to gain greater control of the code. Best design practices will be introduced.

**Database Design and Management (MySQL) (Qtr2/4 w/IWD)**
10-052-C-056-20
Open to 10-11-12
Hawkeye Community College CIS355
4 credits
This course will introduce students to data management using databases. This includes database design, normalization/optimization, relationships, security, and database management systems.

**Web Layouts (Unity & C#)(Qtr. 1 w/GD)**
10-201-C-044-00
Open to 10-11-12
Hawkeye Community College WDV105
3 credits
Students will learn foundational Unity and C# programming to be successful in creating web scenes. This course is designed to give the student the knowledge of layouts and design of websites. Students will use a graphic editor, such as Adobe Photoshop, to convert a visual image layout to a working HTML and CSS layout. This course goes over aspects to content in making a great website.

**Game Development (Unity, VR & C#) (Qtr. 2 w/WL)**
10-205-C-044-00
Open to 10-11-12
Hawkeye Community College CIS364
3 credits
Student will build advanced skills in Unity and C# that were started in Web Layouts. In this course students will develop project management skills as they develop a complete web game. This course delves into the development of games from idea to prototype to a first stage functional game. A variety of platforms will be explored. Recommended to have taken Web Layouts

**Counter Intelligence Computer Skills (Cyber Security)**
COM232
10-999-G-050-00
Open to 10-11-12
1 credit
An overview how information security concepts function including: Risk assessments, cyber threats, laws governing information security, and ethical standards. Specific skill sets include: Pin testing, Wireshark concepts, Virtual Private Networks (VPN), Ddos attacks; cloud computing, ransomware attacks, and other cyber security topics.

**PHP Programming (Qtr. 3 w/SSWP)**
COM412
10-160-C-044-00
Open to 10-11-12
1 credit
Hawkeye Community College CIS231
3 credits
Student will develop a basic understanding of PHP programming language. This course is designed to give the student the tools and the knowledge to program using the web programming language PHP as a server-side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications. Recommended to have taken Intro to programming Logic.

**Server Side Web Programming (QTR 4 w/SSA)**
COM410
10-201-C-044-00
Open to 10-11-12
1 credit
Hawkeye Community College CIS215
3 credits
Students develop a basic understanding of .NET and C# language. This course is designed to give the student the tools and the knowledge to program web applications using the web programming language ASP.NET C# as server-side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Information Technology Internship A/B**
COM520/521
10-001-G-050-10 (A)
10-001-G-050-20 (B)
HEALTH CAREERS

Health Careers Core Classes

Medical Terminology (1/3)          CAR328
14-154-C-050-00
Open to 11-12                      1 credit
Hawkeye Community College HSC113  2 credits
This course presents the foundation necessary to develop a basic medical terminology vocabulary. Emphasis on the components of terms as related to each body system will be provided. The course further provides the student with the opportunity to properly spell, pronounce, and utilize medical terms. The utilization of a medical dictionary will also be a focus.

Intro to Health Professions (2/4) CAR322
14-001-C-050-00
Open to 11-12                      1 credit
Hawkeye Community College HSC108  2 credits
This course introduces the student to the health care system and provides an opportunity to explore a wide variety of health career/professions. Students will explore ethical and legal responsibilities within the healthcare system including expectation for professional behavior. This course will allow for certification in common healthcare requirements.

Human Anatomy and Physiology I    SCI481
03-053-C-056-10
Open to 11-12                      2 credits
Hawkeye Community College BIO168  4 credits
Recommended: successful completion of Biology & Chemistry
The first of a two-semester sequence especially designed for students pursuing careers in allied health fields as well as any student desiring an in-depth undergraduate transfer course. The course focuses on the interdependent relationships between the structure and functions of body systems and the ways these parts interact (homeostasis) to insure the survival of the organism. Major topics addressed include levels of organization, the chemistry of life, support/movement, integration/control, and coordination. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions. To be applicable to any health career program, successful completion of both BIO-168 and BIO-173 with a grade of C or better is required.

Human Anatomy and Physiology II   SCI482
03-053-C-056-20
Open to 11-12                      2 credits
Hawkeye Community College BIO173  4 credits
Recommended: successful completion of Biology & Chemistry
The second of a two-semester sequence designed for students pursuing careers in allied health fields or wishing an in-depth undergraduate transfer course in the biological sciences. The course focuses on interdependent relationships between the structures and functions of body systems and the way these parts interact (homeostasis) to insure survival of the organism. Major topics addressed include systems associated with circulation, maintenance, elimination and continuity. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions.

Nursing Exploration Program

Health Careers Core Classes
Listing/course descriptions pg. 33

Nurse Aide          CAR323
14-051-C-112-00
Open to 11-12         2 credits
Hawkeye Community College HSC168  3 credits
Prerequisite: Instructor, parental and coordinator approvals, and C or higher grade in Biology.
This course is designed to meet the training requirements of the Omnibus Reconciliation Act (OBRA) for aides working in nursing facilities (NF) and skilled nursing facilities (SNF). Emphasis in the course is on students achieving a basic level of knowledge and demonstrating skills to provide safe, effective resident/client care. This course includes laboratory and clinical work at a local nursing care facility. The career exploration experience components will include community service/volunteer work, obtaining continuing education units through professional development opportunities and/or done individually at a nursing care facility for pass/fail credit only.
If a student is not passing the lecture with a minimum of 80% and/or lab portion with a passing grade prior to the start of clinical rotation, he/she will NOT be allowed to attend the clinical portion and will be dismissed from the remainder of the course.
Students are required to attend a minimum of 75 hours of the course.
Content: 96 hours (32 hours classroom instruction, 16 hours laboratory, and 48 hours clinical)
Course units: The Nurse Aide in Long-Term Care
- Foundations of Resident Care
- Understanding Residents
- Body Systems and Related Conditions
- Confusion, Dementia, and Alzheimer’s disease
- Personal Care Skills
- Basic Nursing Skills

Intro to Nursing (Qtr. 1 w/INSL) CAR488
14-051C-044-00
Open to 11-12                      1 credit
Hawkeye Community College PNN115  4 credits
This course is an introduction to nursing and is the initial course for the student entering the profession of nursing and begins with an introduction to the history of nursing and nursing as a profession. Components of the nursing process are described and utilized with implementation of nursing technologies. The student will learn aspects of infection control, hygiene, safety, body alterations, therapeutic communication and healthcare prevention.
Intro to Nursing Skills Lab (Qtr. 2 w/IN)  CAR489
14-051-C-033-00
Open to 11-12  1 credit
Hawkeye Community College PNN116  2 credits
This course provides the student with knowledge and practical application of basic nursing skills while incorporating concepts learned in Introduction to Nursing. Students learn and practice basic nursing skills in personal care, Infection control, safety, vital signs, sterile technique, patient safety, documentation, and medication administration. There is major emphasis on the critical elements of nursing procedures and the scientific rationale for performing the procedures correctly.

Nursing Clinical I  CAR490
14-051-C-033-00
Open to 11-12  1 credit
Hawkeye Community College PNN117  3 credits
This course provides students with an introduction to clinical nursing. Emphasis is placed on utilization of the nursing process as a basis for clinical decision making and development of critical thinking. Nursing professionalism and basic nursing skills such as infection control, hygiene, asepsis, vital signs, and physical assessment are introduced.

BioMedical Lab Technician

Health Careers Core Classes
Listing/course descriptions pg. 33

Intro to Lab Science (TR w/LM)  CAR491
14-102-C-022-00
Open to 11-12  1 credit
Hawkeye Community College MLT101  2 credits
This course familiarizes the student with the MLT program and the field of laboratory medicine. The organization and role of the clinical laboratory are explored, as well as medical ethics and conduct, employment opportunities, and professional organizations.

Lab Mathematics (MWF w/ ILS)  CAR492
14-105-C-044-00
Open to 11-12  1 credit
Hawkeye Community College MLT103  3 credits
Mathematical calculations applicable to the clinical laboratory are studied in this course. Emphasis is on the Metric System and calculations involved in the preparation of laboratory solutions and dilutions.

Fund of Lab Techniques 21-22SY (Qtr. 1/3 w/U)  CAR493
14-102-C-044-00
Open to 11-12  1 credit
Hawkeye Community College MLT110  3 credits
This course is directed toward developing the knowledge and technical skill necessary to perform basic laboratory tests. Emphasis is placed on use and maintenance of laboratory equipment, quality control, and safety techniques.

Urinalysis  21-22SY (Qtr. 2/4 w FLT)  CAR494
14-102-C-044-00
Open to 11-12  1 credit
Hawkeye Community College MLT120  3 credits
This course includes the study of urine formation and methodology determining the physical, chemical, and microscopic properties of urine in normal and abnormal states.

Dental Assisting

Human Anatomy and Physiology I  SCI481
Listing/course description pg. 32

Human Anatomy and Physiology II  SCI482
Listing/course description pg. 32

AP Psychology A/B  SOC308/309
Taught at home school; Course description pg. 87

Composition I  ENG411
Taught at home school; Course description pg. 54

Dental Hygiene

Human Anatomy and Physiology I  SCI481
Listing/course description pg. 32

Human Anatomy and Physiology II  SCI482
Listing/course description pg. 32

Medical Terminology (Qtr. 1/3)  CAR328
Course description pg. 32 (will be linked with online core class)

AP Psychology A/B  SOC308/309
Taught at home school; Course description pg. 87

Composition I  ENG411
Taught at home school; Course description pg. 54

Emergency Management

Health Careers Core Classes
Listing/course descriptions pg. 33

Emergency Medical Technician I  CAR495
14-055-C-044-10
Open to 11-12  2 credits
Hawkeye Community College EMS363  3 credits
Requirement: Student must be 17 prior to the start date of this course.
This course prepares the student to provide emergency care at an Emergency Medical Technician (EMT) level as outlined by the National Emergency Medical Services Education standards. Introduces basic emergency care concepts including fundamental knowledge of the EMS system, safety/well-being of the EMT and medical/legal and ethical issues to the provision of emergency care. Focuses on adult patient assessment, care and, transportation. Students receive Mandatory Reporting for child/adult training and earn American Heart Association Basic Life Support certification.
Emergency Medical Technician II (Qtr3w/EMTClin) CAR496
14-055-C-044-20
Open to 11-12 1 credit
Hawkeye Community College EMS364 3 credits
Prerequisite: EMS363
Requirement: Student must be 17 prior to the start date of this course.
This course introduces shock and resuscitation, patient assessment, care and transportation of the acutely ill, trauma patient, special patient populations, and EMS operations. It also focuses on Geriatric Education for EMS (GEMS), Hazmat Awareness, and Incident Command. Students will be required to demonstrate proficiency for skills within the scope of practice for patients of all ages.

Emergency Medical Tech II Clinical (Qtr4w/EMTII) CAR497
14-098-C-044-00
Open to 11-12 1 credit
Hawkeye Community College EMS365 1 credit
Requirement: Student must be 17 prior to the start date of this course.
This course prepares students to provide emergency medical assessment, care, and transportation of acutely ill or injured patients of all ages. Develops student proficiency in previously learned skills when providing direct patient care in selected clinical settings. Requires student participation in and documentation of patient contacts and field experience approved by the medical director and the EMS program director. Students must demonstrate competency in skills for patients of all ages within the scope of practice.

**Internships A/B**
Open to 11-12
2 credits

*Recommended: Instructor Approval*

Students have the opportunity to work with a professional in their desired profession. Interns spend 5 to 15 hours a week (90-200 hours total per semester) completing work assignments, attending meetings, and developing special projects requested by the sponsoring employer. The intern has the opportunity to make contributions to the organization while achieving personal, academic, and career growth. Locations are throughout the Cedar Valley. Interns can schedule classes and still participate in an internship experience on a part-time basis as it fits within their schedules. Interns also work through an online class component taught and supervised by a Multi-Ocupations Certified instructor. Curriculum for the online component includes career development, employability, communication skills, problem solving, leadership, and decision-making skills integrated with technology. Interns participate in self-assessments and pursue personalized learning plans. Required coursework will be completed online through Google Classroom. Students will provide their own transportation.

**Career Exploration: Internships & Apprenticeships**
10-999-G-050-00  CAR406/CAR407
Open to 10-11-12
2 credits

Career Exploration courses help students identify and evaluate personal goals, priorities, aptitudes, and interests with the goal of helping them make informed decisions about their careers. These courses expose students to various sources of information on a career and training options and may also assist them in developing job search and employability skills.

Each Program offers Quality Pre-Apprenticeships
Center for Advanced Professional Studies (CAPS)

The Center for Advanced Professional Studies (CAPS) Education Experience is for students who are interested in exploring teacher education as a profession. Students in this profession-based learning program will be participating in field experiences, mentorships, and networking. Students will be immersed in practices of educational technology and will incorporate 21st century skills into every aspect of observation and coursework. Students will study educational pedagogy as the basis for the profession and will experience the true essence of the teacher-classroom experience. CAPS Education is a hands-on learning opportunity to explore the teaching profession, develop insight and knowledge of the field of K-12 education, and experience first-hand what a teacher’s day-to-day work involves. Students will be placed in classrooms throughout the school district to observe and work with students in a variety of capacities. This program will immerse junior and senior level students in a project-centered field of study in the area of teacher education.

The Center for Advanced Professional Studies (CAPS) Solutions course is designed to meet the needs of students interested in utilizing marketing strategies to solve problems, develop products, and/or start and run a business. This unique CF CAPS course will equip students with the skills necessary to be successful in marketing related fields. The immersive experience empowers students to frame opportunities using marketing tools for solving problems, product development, modeling, and agile project management that assist in developing a mindset to turn ideas into action.

HCC Intro to Health Careers HSC108 2 credits

The Center for Advanced Professional Studies (CAPS) Med is designed for junior and senior students interested in Health Sciences and Medicine as a scientific inquiry-based experience to advance the understanding of patient care, disease process, research, and ethics. The goal is to develop the students’ comfort in the role of a health professional and to develop skills in doctor/nurse patient relationships, medical diagnosing, health sciences research, and professional settings. In addition to gaining basic clinical skills, students will also receive advanced instruction from medical experts gaining medical skills to help further their understanding of medical diagnosing and treatment protocols for the patient. Students solve real-world medical and health care problems as they learn the advancements and limitations of medicine and health careers. Students will be exposed to a variety of health scenarios and medical professions in job shadow, training, labs, tours, guest speakers, and volunteering.

HCC Exploration of Engineering Careers SDV149 3 credits

The Center for Advanced Professional Studies (CAPS) Robotics & Engineering course is for students who are interested in a combination of science and engineering fundamentals, robotics, technology, entrepreneurship, and innovation. Students use technical knowledge to create solutions to real problems. The class will include a broad introduction college and career readiness and employability skills. Students will also learn the essential components of Robotics and Engineering including design processes through the completion of client’s projects. All students will have hands-on active learning opportunities with a full immersion in real-world projects developed in conjunction with local business partners. This course will be a 3-period block, with instruction taking place at Viking Pump. Successful completion of this course will also earn associates 3 college credits from HCC.

Open to 11-12

Students enrolled in the Cedar Falls High School CAPS program will take their semester class at a designated Cedar Falls business partner and be taught by a Cedar Falls High School Instructor.

Center for Advanced Professional Studies (CAPS) students will receive Hawkeye Community College elective credit. Junior and Senior level students taking the CAPS program will engage in a unique learning opportunity to explore their interested in a profession-based learning approve. The program is designed to be student driven with teachers as facilitators while working on industry problem-based projects with Cedar Valley employers.
The International Baccalaureate Diploma Program (IBDP) is a rigorous course of study, utilizing international standards, based on an integrated curriculum infused with globalism. The IBDP was designed to provide students from all countries an education credential that could be recognized by universities around the globe. Schools that adopt International Baccalaureate are public, private, magnet, comprehensive, international, or redesigned. The Waterloo Community School District has made the IBDP available to all interested and prepared students.

The International Baccalaureate Diploma Program is a full course curriculum leading to examinations, in six academic areas, which meet the needs of highly motivated secondary school students. The IBDP applies a comprehensive curriculum that allows its graduates to fulfill requirements of various national education systems.

Students enrolled in the full IB DP are exempt from taking C3 Foundations, Contemporary Affairs, Economics and Geography.

Courses offered:
Students will select three higher level (HL) and three standard level (SL) courses to complete during their junior and senior years. All WCSD Pre-IB and IB courses are included in the Program of Study. Current IB offerings include 16 courses from six subject areas:

**Group 1 Subjects:**
- Language A - Studies in Language and Literature
  - Lang & Lit English HL
  - Language and Literature

**Group 2 Subjects:**
- Language B – Language Acquisition
  - Spanish SL
  - Spanish HL
  - German SL

**Group 3 Subjects:**
- Individuals and Societies
  - History HL
  - Economics SL
  - Economics HL

**Group 4 Subjects:**
- Experimental Sciences
  - Biology SL
  - Biology HL
  - Chemistry SL
  - Chemistry HL
  - Sports, Exercise & Health Science SL

**Group 5 Subjects:**
- Mathematics
  - Math SL
  - Math HL

**Group 6 Subjects:**
- The Arts
  - Visual Arts SL
  - Visual Arts HL
  - Theatre Arts SL

Full IB Diploma students must study one course from groups 1 through 5. In addition, students must select either an Arts course or electives from groups 3 and 4. In addition, all diploma candidates must fulfill three central requirements:
1. Theory of Knowledge, an assessed course that contrasts ways of knowing in all six subjects;
2. Extended Essay, an externally assessed, independent research project of 4,000 words in one of the subject areas;
3. Creativity, Activity, Service (CAS) to develop the entire self through community service, creative and physical activities.

IB assessments are scored on a 1-7 scale, with an additional three points available for exemplary work on Theory of Knowledge and the Extended Essay. To earn an IB Diploma, a student must achieve a minimum total score of 24 without failing any courses.

All IB DP students will receive a WCSD diploma and recognition during the graduation ceremony in May. Scores are re available to access July 6th. Student scores, within each subject, are recognized at universities in over 102 countries. IB courses and exams are recognized for the purpose of advanced credit and/or placement at over 900 North American colleges and universities.

How to enroll:
Interested students must meet with the IB counselor at their high school to schedule WCSD Pre-IB courses. Students are expected to enroll in WCSD Pre-IB courses and receive a passing grade to be prepared for the rigor of the IB courses offered in 11th and 12th grade. In addition, interested students must fill out an IB DP application which can be found on East and West High School websites. All IB Diploma candidates will have their exams paid for by the Waterloo Community School District.
Note: All of the courses listed below are at an accelerated pace and the coursework demonstrates elevated rigor. These courses should be taken by students pursuing the International Baccalaureate Diploma.

❖ Denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course. Generally, S coded courses do not count in the RAI.

</table>

**IB Visual Arts SL/HL** is a two-year, accelerated course that requires students to complete studio work plus research workbooks. The course is designed for students specializing in the visual arts with creative and imaginative abilities and who may pursue the visual arts at a college or university. Students are required to commit time outside of school to both their research workbooks and studio projects. Junior to senior year, students will be required to complete works for their portfolios, which are individually theme related. The course culminates with a senior gallery night to display student work at the end of the two years.

**IB Theatre Arts SL/HL** is a two-year course that will focus on three core syllabus areas: theater in context, theatre processes, and presenting theatre. In the first year, students will engage in instructional activities that hone skills relevant to theatre arts. In the second year, students complete three major assessments: a research presentation, a director’s notebook, and a collaborative project. By creating, designing, directing and performing theatre based on theatre contexts and theatre processes, students will experience the international and intercultural dynamic that inspires and sustains the world of theatre arts.

**IB Language & Literature English HL** is a two-year course emphasizing the study of language and literary analysis. Students will perform both written and oral assessments (internally graded by the teacher and externally graded by an IB examiner). Students will analyze, synthesize, and evaluate nonfiction, drama, poetry, novels, and other prose in American and world literature. The course will also emphasize thematic and philosophical connections as well as differences in literary periods, styles, and contexts. This course will make use of more mature materials that allow students to see a wider view of the world.

**IB Math SL** is a two-year course with Pre-Calculus being the first year. Topics of study include Fundamental Algebra, Functions, Trigonometry, Geometry, Statistics & Probability, and Calculus. The emphasis of this course is calculus and pure math. This course is ideal for students who plan to pursue substantial mathematics components, e.g. engineering, physical sciences, some economics, and math itself.

**IB Math HL** is a two-year course for students wanting a rigorous college level math course. Ideally the student should enter the course having already completed Pre-Calculus during their sophomore year. Students will complete the core course which includes: Algebra, Functions and Equations, Circular Functions and Trigonometry, Vectors, Statistics and Probability, and Calculus. In addition to the core concepts the students will study advanced topics in Calculus (some of curriculum normally seen in Calculus II in college), Probability and Statistics, Sets and Relations, as well as Discrete Mathematics. The emphasis of this course is calculus and pure math. This course is ideal for students who plan to take courses with substantial mathematics components, e.g. engineering, physical sciences, some economics, and math itself.
Adequate preparation in mathematics and writing skills are essential for success in this course. Adequate preparation in mathematics and writing skills are essential for success in this course. Adequate preparation in mathematics and writing skills are essential for success in this course. Adequate preparation in mathematics and writing skills are essential for success in this course.

The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics is essential for success in this course.

Laboratory experimentation will be extensive and will require a significant time commitment by the student. The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics is essential for success in this course.

Recommended: WCSD Pre-IB Biology, or WCSD Pre-IB Integrated Life/Physical Science

IB Biology HL is a two-year research-oriented course covering all the topics that are typically covered in the first two semesters of college biology. The course covers the topics of evolution and biodiversity, ecology (including conservation biology), cell biology (including the origin of cells), molecular biology, genetics (including biotechnology and bioinformatics), and human/animal physiology. Laboratory and field research is extensive. The course emphasizes the areas of experimental design, data analysis, and science writing. The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics and writing skills are essential for success in this course.

IB Chemistry HL A/B ∗

Recommended: WCSD Pre-IB Chemistry, WCSD Pre-IB Biology, WCSD Pre-IB Algebra II, or WCSD Pre-IB Integrated Life/Physical Science

IB Chemistry SL A/B ∗

Recommended: WCSD Pre-IB Chemistry, WCSD Pre-IB Biology, WCSD Pre-IB Algebra II, or WCSD Pre-IB Integrated Life/Physical Science

IB Economics SL A/B ∗

Recommended: WCSD Pre-IB Economics

IB History HL A/B ∗

Recommended: WCSD Pre-IB World History

IB History HL A/B ∗

Recommended: WCSD Pre-IB World History

IB Math HL-Applications & Interpretation A/B ∗

Recommended: WCSD Pre-IB Algebra II, Pre-Calculus, AP Calculus

IB Math HL is a two-year course for students wanting a rigorous college level math course. Ideally the student should enter the course having already completed Pre-Calculus during their sophomore year. Students will complete the core course which includes: Algebra, Functions and Equations, Circular Functions and Trigonometry, Vectors, Statistics and Probability, and Calculus. In addition to the core concepts the students will study advanced topics in calculus (curriculum normally seen in Calculus I in college), probability and statistics, sets and relations, as well as discrete mathematics. The emphasis of this course is statistics, modeling, and technology. This course is ideal for students who plan to pursue social sciences, natural sciences, medicine, statistics, business, psychology, and design.

IB Biology SL A/B ∗

Recommended: WCSD Pre-IB Biology, or WCSD Pre-IB Integrated Life/Physical Science

IB Biology SL is a two-year laboratory course covering all topics considered appropriate for an introductory college biology course. The principles of biology, such as evolution, ecology, cellular structure and function, molecular biology and genetics are covered extensively. Laboratory experimentation will be extensive and include the mathematical analysis of data and writing of lab reports. The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics and writing skills are essential for success in this course.

IB Chemistry SL is a two-year laboratory course that covers all topics considered appropriate for an introductory college chemistry course. The principles of chemistry, such as structure, states of matter, thermo chemistry, reactions and descriptive chemistry are covered in detail. Laboratory experimentation will be extensive and will require a significant time commitment by the student. The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics is essential for success in this course.

IB Economics SL is a one or two-year course providing students with the basic tools of economic reasoning while teaching them to use those tools to explain or interpret economic problems and to evaluate policy solutions. Course content will include microeconomics, macroeconomics, international economics and development economics. There are two externally moderated exams.
IB Economics HL A/B

SOC378/379

SOC478/479

Open to 11-12 2 credits

IB Economics HL is a two-year course providing students with all of the SL instruction as well as some additional topics (e.g., Theory of the Firm, Market Structures, the Phillips Curve, Absolute and Comparative advantage, the implications of and solutions to a persistent current account deficit/surplus, the Marshall-Lerner Condition, trade creation/diversion, the Terms of Trade). A mathematical component (e.g., supply and demand as linear equations, calculating the effects of government intervention, the Keynesian Multiplier, calculating nominal vs. real values, calculating GDP growth, calculating inflation/unemployment from a set of data, constructing a weighted price index, calculating marginal and average tax rates) is also included. There is an additional exam over the HL Extension topics and the mathematical component which is externally moderated, as are the others.

IB Theory of Knowledge A/B

SOC380/381

SOC480/481

Open to 11-12 1 credit

Recommended: International Baccalaureate Diploma Candidate

Theory of Knowledge provides a connecting link for the learner to synthesize the approaches to understanding gained over the course of IB study. TOK is taken every other day with seminar on alternating days. Students will explore and apply the eight Areas of Knowledge and eight Ways of Knowing. The course raises questions about the validity of knowledge, and in so doing seeks a cross-curricular understanding of how a learner learns and, ultimately, knows. Students will pursue a wide range of readings to be examined in a Socratic Seminar setting combining literature, history, science, mathematics, and fine arts, among others.

IB Spanish SL A/B

FOR362/363

FOR462/463

Open to 11-12 2 credits

Recommended: WCSD Pre-IB Spanish II or Spanish III.

IB Spanish SL is a two-year course emphasizing communication and culture. Students will continue to use the grammatical structures from the previous levels of study and learn more advanced structures while perfecting written and oral communication skills. Students sitting for the SL exam must have studied the language for at least four years. Five years of the language is strongly recommended.

IB Spanish HL A/B

FOR366/367

FOR466/467

Open to 11-12 2 credits

Recommended: WCSD Pre-IB Spanish II or Spanish III.

IB Spanish HL is a two-year course that covers all the material taught in SL as well as the study of two literary works (read and analyzed). Students will read outside of class and discuss the literature during class. Students will also extend the range and complexity of the language they use and understand in order to communicate. They continue to develop their knowledge of vocabulary and grammar, as well as their conceptual understanding of how language works in order to construct, analyze and evaluate arguments on a variety of topics relating to course content and the target language culture(s).

IB German SL A/B

FOR310/311

FOR410/411

Open to 11-12 (W) 2 credits

Recommended: WCSD Pre-IB German II.

IB German SL is a two-year course that emphasizes language acquisition and the development of language skills. The course aims to cultivate students’ intercultural understanding and to help students understand and use German in a variety of contexts and for a variety of purposes. IB German SL students through social interactions and the study of a range of text types-develop an awareness and appreciation of the different perspectives of people from other cultures. Students taking the SL exam must have studied the language for at least four years of coursework.

IB Sports, Exercise and Health Science A/B

SCI466/467

Recommended: WCSD Pre-IB Biology, Chemistry, or WCSD Pre-IB Integrated Life/Physical Science

The IB DP course in sports, exercise and health science standard level (SL) involves the study of the science that underpins physical performance. The course incorporates the traditional disciplines of anatomy and physiology, biomechanics, psychology and nutrition. Students cover a range of topics and carry out practical (experimental) investigations in both laboratory and field settings. This provides an opportunity to acquire the knowledge and understanding necessary to apply scientific principals and critically analyze human performance.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

### ART I - Fundamentals of Art and Design

**ART100**  
05-151-G-050-00  
Open to 9-10-11-12  
1 credit  
This class must be taken before any courses in the art department with the exception of Mixed Media Design. Students will learn about the elements of art, principles of design, hemisphericity, critique and analysis, methods and techniques, and visual literacy. Students will create art projects in a variety of mediums including both 2 and 3 dimensional.  
A sketchbook is required for this course.

### STUDIO COURSES

#### ART II - Drawing and Painting

**ART101**  
05-155-G-050-10  
Open to 10-11-12  
1 credit  
**Recommended**: Fundamentals of Art and Design  
Students will learn various drawing and painting techniques and complete assignments using a variety of mediums including graphite, pastels, watercolors, acrylic paint and ink.  
A sketchbook is required for this course.

#### Sculpture and Ceramics

**ART102**  
05-158-G-050-10  
Open to 9-10-11-12  
1 credit  
**Recommended**: Fundamentals of Art and Design  
Students will work with three-dimensional media such as clay, wood, plaster and paper. Hand-built and wheel-thrown forms of clay construction are also part of this course.

#### Jewelry Design

**ART103**  
05-166-G-050-10  
Open to 10-11-12  
1 credit  
**Recommended**: Fundamentals of Art and Design  
Students will learn the process of wire working, glass, clay, finishing jewelry and other materials. Specific design assignments will be the focus to formulate ideas for jewelry.

#### Mixed Media Design

**ART104**  
05-165-G-050-10  
Open to 9-10-11-12  
1 credit  
Students will apply the elements of art and principles of design to create unique 2 and 3-dimensional works of art. Students will be introduced to current trends in the mixed media and crafting industry. Focus will be on learning about a variety of mediums, tools, methods and techniques.

#### Graphic Design

**ART200**  
05-162-G-050-10  
Open to 10-11-12  
1 credit  
**Recommended**: Fundamentals of Art and Design  
Students will work on a variety of graphic design projects including illustration, typography, package design, stage design and computer graphics. Students will learn elements of Adobe Master Collection software for use in digital projects.  
A sketchbook is required for this course.
Photography  ART201
05-167-G-050-10
Open to 10-11-12  1 credit
Recommended: Fundamentals of Art and Design
Students will develop an understanding of the use of cameras. Composition, focal control, printing photographs, and use of lighting will be focus areas. The use of Adobe Photoshop will be practiced for editing photos. Students may take Advanced Photography after taking Photography.

IB Visual Arts SL/HL  A/B  ART360/361
05-173-H-050-11 (11A) 05-173-H-050-21 (11B)
05-173-H-050-12 (12A) 05-173-H-050-22 (12B)
Open to 11-12  2 credits
Recommended: Fundamentals of Art & Design and Teacher Approval
IB Art Visual Arts SL/HL is a two-year, accelerated course that require students to complete studio work plus research workbooks. The course is designed for students specializing in the visual arts with creative and imaginative abilities and who may pursue the visual arts at a college or university. Students are required to commit time outside of school to both their research workbooks and studio projects. Junior to senior year, students will be required to complete works for their portfolios, which are individually theme related. The course culminates with a senior gallery night to display student work at the end of the two years.

WCSD Pre-IB Adv. Medium Exploration  ART470
05-154-E-050-00
Open to 10-11-12  1 credit
Recommended: Student must have successfully completed Fundamental of Art. Teacher approval required.
An accelerated and advanced exploration of materials designed to acquaint students with the basic elements of art and provide students with experiences in the use of a variety of art media. Students will identify two- and three-dimensional processes as well as identify the functions of the visual arts in our society.

WCSD Pre-IB Adv. Investigations Through Art History  ART472
05-152-E-050-10
Open to 10-11-12  1 credit
Recommended: Student must have successfully completed Fundamental of Art. Teacher approval required.
This course is an investigation of diverse artistic traditions of cultures from prehistory to the present. Students will learn visual and contextual skills by exploring art making processes and products through art history. Artist comparative study will be the end product of this course.

Advanced Studio Courses & Independent Study
Recommended: Fundamentals of Art and Design and Studio Course(s) in selected area.
Open to 10-11-12
A studio course may be repeated for advanced credit or as independent study. Advanced course opportunity will allow students to develop a collection of individual work for their portfolio based on original concepts. The portfolios may be necessary for scholarship application, career search, and college entrance. Expectations for advanced studio course work/Independent study will be set between the individual instructor and student.

Only students passing Fundamentals of Art and Design with a C or higher are encouraged to take studio courses. Students who have not achieved that level of mastery will have difficulty in studio classes.
Students will be considered for approval depending on: available space in the classroom and prior grades. Students applying for Independent study must be highly motivated.

Advanced Studio Courses
ART300 Advanced Drawing and Painting 05-155-G-050-20
ART301 Advanced Sculpture and Ceramics 05-158-G-050-20

### Integrity / Internet Contracts

Significant technology is available to students at Expo, East and West High Schools. Each student must sign an **Integrity/Internet contract(s)** as required by the schools and the district prior to using any computers; this includes computers and computer-based curriculum work in many courses, and Internet access. This also includes the Media Center, where a signed contract allows students use of the computer card catalog, word processing, and multiple resources.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

### Accounting A/B

Accounting is “the language of business.” This course teaches students the basic accounting practices and procedures for operating a business. First semester students will learn to analyze business transactions and make simple financial statements for a service-type, one-owner business. Second semester continues to expand accounting knowledge. Students will learn to analyze business transactions and make simple financial statements for merchandising businesses. This will provide the background for a student seeking an entry-level accounting job, as well as for college-bound students who plan to enter the field of business.

### Junior Achievement Economics

**BUS303**

12-105-G-050-00

Open to 10-11-12 | 1 credit

Students will learn about the free enterprise system, and explore their roles as citizens, producers and consumers while studying fundamental economic principles. **This course counts as an as an Economics credit.**

### Business Law

**BUS304**

12-054-G-050-00

Open to 10-11-12 | 1 credit

Students will be introduced the concepts of law that relate to business. Major topics include sources of law and ethics, criminal law, civil law, alternative dispute resolution, torts, contracts, consumer protection, real property, negotiable instruments, and employment. Students analyze real cases to uncover the nature of these topics. Students also develop a sense for how and why businesses may behave in certain ways.
Exploring Business Careers  
BUS326  
12-051-G-050-00  
Open to 9-10-11-12  
1 credit  
This class is an introduction to Business pathways. No matter your future career path, everyone works for a business. Students will get hands-on experience with a variety of careers including: management, entrepreneurship, law, human resource, accounting, variety of marketing areas, and advertising. Along with learning about careers, students will gain knowledge about the seven marketing functions and be provided with opportunities to learn and identify consumer concepts.

Intro to Entrepreneurship  
BUS328  
12-053-G-050-00  
Open to 11-12  
1 credit  
If you are able to identify a need and want to find a way to fill it, you may be an entrepreneur. Our entrepreneur pathway will give students an experience-based approach to small business ownership. You will develop business ideas, write a business plan, identify finance sources and practice economic concepts with business ownership. Students may compete with other high school entrepreneurs in national competitions.

Intro to Computer Applications  
COM101  
10-007-G-050-00  
Open to 9-10-11-12  
1 credit  
This course is strongly recommended to be taken before any other computer class. Students will improve their word processing, graphic skills, presentations, table creation, online resource use, document formatting, spreadsheet, and typing skills. Focus is placed on information processing for future success for all students.

Intro to Computer Careers  
COM109  
10-001-G-050-00  
Open to 9-10-11-12  
1 credit  
This course will expose students to various information technology careers, such as programming, computer repair, networking, security, and systems administration. Professions which heavily utilize technology, such as computer aided drafting and web design will also be surveyed. Through various projects, students will also have the opportunity to hone communication, teamwork, and project management skills. Covered will be Software/Programming, Web Design, Electronic Engineering, Networking-Cisco (Information Technology Pathway), Server/PC building, Security, and some Forensics Computer.

Microsoft Certification I  
COM110  
10-005-G-050-10  
Open to 9-10-11-12  
1 credit  
Recommended: C– or higher in Intro to Computers or Computer Apps type class  
This class prepares students to take the Microsoft Word certification exam. The class focuses on Microsoft Word skills. The semester final will be the Microsoft Certification Exam for Word.

Microsoft Certification II  
COM204  
10-005-G-050-20  
Open to 9-10-11-12  
1 credit  
Recommended: C– or higher in a Microsoft Certification I class  
This class prepares students to take the Microsoft Excel and PowerPoint certification exams. The class focuses on Microsoft Excel and Power Point skills. The semester final will be the Microsoft Certification Exam for Power Point and Excel (Microsoft Word will be available).

Digital Audio Foundations  
COM205  
10-249-G-050-00  
Open to 9-10-11-12  
1 credit  
Students will create, edit, and apply audio to projects such as voiceovers, commercials, videos, songs, etc.

Digital Video Foundations  
COM210  
10-202-G-050-00  
Open to 9-10-11-12  
1 credit  
Students will explore video editing software. Topics include video production, green screen, commercials, graphics, animations and use of Adobe and other industry standard software.

Multimedia Applications  
COM211  
10-008-G-050-00  
Open to 9-10-11-12  
1 credit  
This course will give students hands-on experience with multimedia and Web applications at an introduction level. Topics covered: video production, desktop publishing, mobile app creation, web design, Adobe software, and graphic design.

Intro to Word Processing I A/B  
COM600/601  
12-005-S-050-00 (A)  
12-005-S-050-00 (B)  
Open to 9-10-11-12  
2 credits  
Students will be provided instruction in proper computer keyboarding techniques. Keyboard mastery, speed, and accuracy on straight copy are stressed. These skills are then applied to word processing, personal and business letters, memos, reports and tables. Students will learn the basic functions of Microsoft Word. Requirements will include proper keyboard techniques, timed writings, word processing assignments and tests.
Co-op Career Internship

This course offering provides on-the-job training (including apprenticeships) in any of the occupational areas with the related classroom instruction and is available to all high school seniors with coordinator approval. MOC Career Internship is an instructional method that combines the efforts and resources of the employment community and the school to jointly prepare students for future employment and further education. Students accepted into this course offering have the opportunity to do “flex-work” schedules around their school classes and/or extra-curricular activities if needed. Students will receive credit for both the related class and their paid work experience. This course offering includes the following two components:

Career Internship Related Class A/B CAR400/401
22-152-G-050-10 (A)
22-152-G-050-20 (B)
Open to 12 2 credits
Co-requisite: Requires Career Internship Work Experience with parental permission and coordinator approval, maximum 10 absences during junior year, and minimum 2.0 GPA. Transportation is the responsibility of the student.

This program helps students apply classroom knowledge and theory to practical work situations via a paid position related to the student's classroom study, educational, and/or career goals. This program combines academic classes with relevant work-based learning experience to enhance the learning process and enable students to explore possible employment choices and improved knowledge of what skill or preparation is necessary for a successful career. Throughout the course, students will develop a greater understanding of their academic and career interests, interpersonal and professional skills, verbal and written communication skills, and improve their overall ability to work with others. Students are placed in on-campus or community work sites and work approximately 15 hours each week.

Career Internship Work Experience CAR402/403/404/405
22-998-G-100-10 (A)
22-998-G-100-20 (B)
Open to 12 2 credits
Co-requisite: Requires Career Internship Related Class with parental permission, coordinator approval, maximum of 10 absences during junior year, and minimum 2.0 GPA. Transportation is the responsibility of the student.

The work based learning course provides students with relevant learning experiences in the workplace and the opportunity to develop employability skills. This program assists students in developing workplace skills, building confidence on-the-job, observing different professions, networking with people in the field, and establishing professional development goals. Students are required to work an average of 15 hours per week at a location agreed upon by the coordinator and student.

Career Exploration Experience A/B CAR320/321
22-151-G-050-10 (A)
22-151-G-050-20 (B)
Open to 11-12 2 credits
Parental, counselor and coordinator approvals. Transportation is the responsibility of the student/parent.

This course offering provides students opportunities to observe and systematically sample a variety of work conditions in order to decide if they wish to pursue certain careers and to determine their suitability for occupations being explored. Development of saleable skills is not the purpose of this course offering. A minimum of 90 hours is required during the semester, which may include classroom-related instruction, community service/volunteer work, job shadowing and non-paid work experience for credit, professional development, continuing education, career portfolio development, etc. Course hours may have to be taken before or after school and/or weekends during the semester.

Work-Based Learning Related Class A/B CAR802/803
22-153-S-050-00 (A)
22-153-S-050-00 (B)
Open to 11-12 2 credits
Recommended Co-requisite: Worked Based Learning Internship along with IEP team decision.

Class instruction correlates with on-the-job instruction and reinforces traits such as punctuality, communication skills, honesty, teamwork, quality orientation, and customer/client orientation. The content of all instruction is organized around the skill development needed by students, and includes an overview of occupational opportunities and educational requirements.

Work-Based Learning Internship A/B CAR800/801
22-998-S-100-00 (A)
22-998-S-100-00 (B)
Open to 11-12 2 credits
Recommended Co-requisite: Worked Based Learning Related Class with IEP team decision.

This work-based learning experience provides students the opportunity to develop and apply knowledge, skills, and employability attitudes and behaviors leading to better-informed career choices and productive employment. Students will be placed at a community-based work site. This work-based learning component involves responsibility and experience in applying skills relevant to the student’s plans for further education and career objective. Transportation to and from the work site is provided.

* Concurrent courses with Hawkeye Community College must meet entrance requirements.
◆ denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course. Generally, S coded courses do not count in the RAI.
◆ ◆ denotes the course is approved by the NCAA Eligibility Center.
Eight English credits are required for graduation. Students are required to successfully complete English 9 and 10, and American Literature/Composition. To earn the 8 English credits, students must successfully complete two additional electives. A writing elective course is highly recommended. **Yearbook counts as a general elective. It does not count toward required English credits.**

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

**Grade 9**

**Required:**
- English 9 or Adv English 9 or WCSD Pre-IB Adv English 10, Reading Workshop,
- Theatre Arts I, Musical Theatre I

**Electives:**
- Theatre Arts I, Musical Theatre I

**Grade 10**

**Required:**
- English 10 or WCSD Pre-IB Adv English 10, Creative Writing,
- Journalism, Reading Workshop, WCSD Pre-IB Adv Am Lit.,
- WCSD Pre-IB Adv Composition, Theatre Arts I, Musical Theatre I, Stagecraft

**Electives:**
- WCSD Pre-IB Adv Composition, American Masterpieces, Business Communications,
- Contemporary Literature, Creative Writing, Journalism, Reading Workshop,
- Speech, Writing for College & Career, Theatre Arts I/II, Stagecraft, Film Studies as Literature, Independent Reading, World Literature, Children’s Literature, Fundamentals of Oral Communications, Composition I/II, Musical Theatre I/II, IB Theatre Arts SL/HL,
- IB Language & Literature English HL

**Grade 11**

**Required:**
- American Literature / Composition OR AP English Language/Composition OR
- WCSD Pre-IB Adv American Literature, AND a composition course from among the following: WCSD Pre-IB Advanced Composition, Creative Writing, Journalism, Writing in the Workplace, or IB Language and Literature English HL

**Electives:**
- WCSD Pre-IB Adv Composition, American Masterpieces, Business Communications,
- Contemporary Literature, Creative Writing, Journalism, Reading Workshop,
- Speech, Writing for College & Career, Theatre Arts I/II, Stagecraft, Film Studies as Literature, Independent Reading, World Literature, Children’s Literature, Fundamentals of Oral Communications, Composition I/II, Musical Theatre I/III, IB Theatre Arts SL/HL,

Reading Workshop A/B  
RDG100/101  
01-006-B-050-10 (A)  
01-006-B-050-20 (B)  
Open to 9-10-11  
2 credits  
Reading Workshop is designed to improve a student’s reading comprehension, increase reading fluency (words read per minute) and develop knowledge, usage and mastery of vocabulary. One reading lesson per month focuses on a specific career from each of the academies. This course may be repeated for elective credit. The credit for this class does NOT fulfill one of the eight required English credits.

English 9 A/B  
ENG100/101  
01-001-G-050-10 (9A)  
01-001-G-050-20 (9B)  
English 9 A/B  
ENG600/601  
01-001-S-050-00 (9A)  
01-001-S-050-00 (9B)  
Open to 9  
2 credits  
This course introduces students to the five elements of language arts (reading, writing, speaking, listening, and viewing) at the high school level. Emphasis is on reading for comprehension. Students study the principles of vocabulary building. Speech activities involve experiences in critical listening and an introduction to public speaking. The literature unit includes non-fiction/short story, mythology, drama, poetry, and a novel. Literature, mythology, and speech activities will be designed to reflect an academy focus. Students will begin the process of writing including but not limited to narrative, informational, and persuasive styles.

WCSD Pre-IB Adv. English 9 A/B  
ENG102/103  
01-001-E-050-10 (9A)  
01-001-E-050-20 (9B)  
Open to 9  
2 credits  
This course introduces students to five elements of language arts (reading, writing, speaking, listening, and viewing) at the high school level. Emphasis is on the concept of writing as a process. A portfolio may be required of students. Students study the principles of vocabulary building. Speech activities involve experiences in critical listening and an introduction to public speaking. The literature unit includes non-fiction/short story, mythology, drama, poetry, and a novel and writing which involves research. Timed essay writing will deepen advanced habits, along with commentary work in a formal manner. Composition assignments may be longer and more complex. Students will begin to lead discussions on story or poetry.

English 10 A/B  
ENG200/201  
01-002-G-050-10 (10A)  
01-002-G-050-20 (10B)  
English 10 A/B  
ENG700/701  
01-002-S-050-00 (10A)  
01-002-S-050-00 (10B)  
Open to 10  
2 credits  
This course further develops the student’s appreciation and knowledge of literary genres, speaking skills, and writing competency. This course is an extension of the composition skills developed in English 9 and includes training in writing and revising full-length, multi-paragraph essays. Speech activities include expository speaking, recitation, and persuasion. The literary study includes a novel, selected nonfiction, poetry and short stories. Students will write a research paper regarding a self-chosen topic.

Collaborative work, use of technology tools, and presentations are part of the learning process.

WCSD Pre-IB Adv. English 10 A/B  
ENG202/203  
01-002-E-050-10 (10A)  
01-002-E-050-20 (10B)  
Open to 9-10  
2 credits  
This course will further develop the student’s appreciation and knowledge of literary genres, speaking skills, and writing competency. This course is an extension of the composition skills developed in English 9 and includes training in writing and revising full-length, multi-paragraph essays and is designed to elevate the quality of expository, analytical, and critical writing generated by students. Students will recognize and use effectively the elements of writing, research, literature, speaking and listening, and vocabulary. Students will work on commentary pieces and lead discussions on story or poetry. Speech activities include expository speaking, recitation, and persuasion. The literary study includes timed essays over a literary piece and comparative analysis essay completion. Students will write a research paper regarding a self-chosen topic. Advanced students may study a greater number of selections with deeper interpretation to develop higher order thinking skills. Composition assignments may be longer and more complex. Students will work on commentary pieces and lead discussions on story or poetry.

Creative Writing  
ENG205  
01-104-G-050-00  
Open to 10-11-12  
1 credit  
This course will familiarize the student with various aspects of imaginative writing and develop an appreciation for the subtle understanding of language. Topics covered are creative nonfiction/fiction writing, drama writing and poetry writing. Lengths of assignments will vary.

Journalism  
ENG206  
11-101-G-050-00  
Open to 10-11-12  
1 credit  
Students will study all facets of mass communication. This advanced course teaches the writing of news stories, features, editorials, in-depth articles, headlines, layouts and designs. This course is a prerequisite for the newspaper and recommended for the yearbook staff.

Theatre Arts I  
ENG209  
05-051-G-050-00  
Open to 9-10-11-12  
1 credit  
Theatre Arts is a performance and theory-based class that introduces students to the fundamentals of theatre arts. In this course, students create, rehearse, and present theatre in front of their peers and the instructor. The course offers engaging, creative, and fun projects allowing students to tap into their creativity, gain self-confidence, and experience working collaboratively with others. Through instruction, training, and performance experiences, the student will develop knowledge and skills critical to the following career pathways: the performing arts, journalism and broadcasting, telecommunications, visual arts, and audio and film technology. As students gain a broader theatre arts background, they develop other skills that have application to college and careers in and beyond theatre – communication, leadership and teamwork, presentation and performing skills, creative, imaginative problem solving, and critical thinking.
Theatre Arts II
05-062-G-050-00
Open to 11-12
1 credit
Theatre Arts or instructor approval based on proof of competency. For requisite skills, see Theatre Arts description.
Students enrolled in Theatre Arts II are seeking advanced study and further application of the competencies acquired in the Theatre Arts. Through advanced study, training, and performance experiences in the theatrical arts, the student will develop knowledge and skills critical to the following career pathways: the performing arts, journalism and broadcasting, telecommunications, visual arts, and audio and film technology. Theatre Arts II will continue to develop competencies in communication; leadership and teamwork; presentation and performance skills; creative, imaginative problem solving and critical thinking.

IB Theatre Arts SL/HL A/B
05-062-H-050-11 (11A)
05-062-H-050-21 (11B)
05-062-H-050-12 (12A)
05-062-H-050-22 (12B)
Open to 11-12
2 credits
Recommended: Adv Theatre Arts, Teacher approval
IB Theatre Arts SL/HL A/B is a two-year course that will focus on three core syllabus areas: theatre in context, theatre processes, and presenting theatre. In the first year, students will engage in instructional activities that hone skills relevant to theatre arts. In the second year, students complete three major assessments: a research presentation, a director’s notebook, and a collaborative project. By creating, designing, directing and performing theatre based on theatre contexts and theatre processes, students will experience the international and intercultural dynamic that inspires and sustains the world of theatre arts.

Musical Theatre I
05-060-G-050-11
Open to 9-10-11-12
1 credit
Recommended: Theatre Arts, Adv Theatre Arts, teacher approval
Musical Theatre explores American history and culture through the experience of American Musical Theatre genre. Instruction will focus on three areas of concentration: musical theatre in context, musical theatre processes, and presenting musical theatre. Students will first study its history and those contributing to its development: creators, producers, designers, directors, performers, and choreographers. Students pursuing future pathways in college or Fine Arts careers can elect to perform musical theatre work in class. Through study, active participation, and self-reflection, students can develop performance techniques in acting, movement, and voice. Instruction will focus on musical theatre history, literature, acting technique and theory, voice and movement technique, dramatic criticism, auditioning, elements of song and dance and other advanced concepts related to musical theatre performance and production. The goal is to develop competencies in the performing arts and the discipline necessary to succeed in college and future career pathways in and beyond musical theatre.

Musical Theatre II A/B
ENG211/212
05-060-G-050-12 (A)
05-060-G-050-22 (B)
Open to 10-11-12
2 credits
Recommended: Audition
Students will meet on a daily basis and is by audition only. Students will have the opportunity to thoroughly investigate the art of performance through the combined studies of drama, vocal music, and dance that serves as a performance ensemble. Areas of advanced concentration will include musical theatre history, literature, acting, criticism, auditioning, skills training, elements of song and dance and other advanced concepts related to performance and production.

American Literature/Composition A/B ◊

01-003-G-050-20 (B)

American Literature/Comp. A/B◊
ENG800/801
01-003-S-050-00 (A)
01-003-S-050-00 (B)
Open to 11-12
2 credits
Students will develop reading, writing, viewing, and thinking skills through the exploration of fiction, and nonfiction literature, including poetry and drama. The course provides a basic overview of the chronological development of literature in America. The writing component in the course will focus on common errors in grammar, usage, and mechanics within the context of essay writing as well as through daily practice. Students are expected to share their writing and critique the writing of others. Collaborative work, use of technology tools, and formal presentations are part of the learning process.

WCSD Pre-IB Advanced American Literature ◊
ENG302
01-054-E-050-00
Open to 10-11-12
1 credit
Students will develop advanced reading, thinking, viewing, and writing skills necessary for success in college through the exploration of fiction and nonfiction American literature. This course provides a rigorous, in-depth chronological approach to American literature and hones the skills of literary analysis through both written and oral commentary. Genres studied include short story, poetry, novel and drama.

WCSD Pre-IB Advanced Composition ◊
ENG303
01-103-E-050-00
Open to 10-11-12
1 credit
Students will develop writing skills necessary for success in college. Emphasis is placed on the writing of argumentative and expository essays as well as formal research papers with collaborative work included. This course provides students with an opportunity to develop high-level research and writing skills, and apply intellectual discovery and creativity. This course allows students to formally develop and present structured writing. Students are expected to share their writing, give formal presentations including technology, and critique the writing of others. It is recommended that this course be taken opposite of Adv. Am Literature or World Literature.
AP English Language/Composition A/B  ENG304/305
01-005-H-050-10 (A)
01-005-H-050-20 (B)
Open to 11  2 credits

Or teacher approved students who have competed 10
AP English Language/Composition is a course that prepares juniors
and seniors to take the AP English Language test. The course includes a
rigorous, in-depth approach to American literature and intensive
writing designed to teach analysis, argument, and synthesis. Students will work on commentary pieces in this course to prepare
them for college level rigor. Course assignments will be college level
work. This course meets the requirements for American Literature
and a composition course. Students will be assigned summer
homework for this course. Students enrolled in this course are
required to take the AP Exam.

IB Language & Literature HL A/B  ENG360/361
01-007-H-050-11 (11A)
01-007-H-050-21 (11B)
01-007-H-050-12 (12A)
01-007-H-050-22 (12B)
Open to 11-12  2 credits

Recommended: AP Language and Composition
Language and Literature-HL is a two-year course emphasizing the
study of language and literary analysis. Students will perform both
written and oral assessments (externally graded by the teacher and
eastern graded by an IB examiner). Students will analyze,
synthesize, and evaluate nonfiction, drama, poetry, novels, and other
prose in American and world literature. The course will also
emphasize thematic and philosophical connections as well as
differences in literary periods, styles, and contexts. This course will
make use of more mature materials that allow students to see a wider
view of the world.

Contemporary Literature  ENG306
01-052-G-050-00
Open to 11-12  1 credit

This course is designed to improve reading skills and establish life-
long reading habits. Students are expected to discuss and analyze a
variety of required modern novels, plays, and selections of modern
fiction and nonfiction.

Speech  ENG309
01-151-G-050-00
Open to 11-12  1 credit

Oral communication is an essential 21st Century Skill and highly useful
in all disciplines. Speech is an educationally relevant course that
provides students with an opportunity to become 'well spoken' while
mastering fundamental oral communication skills applicable to real-
world speaking situations and future career pathways. A process
approach is used to teach students how to build and present effective
oral presentations. Instructional units will improve speaking and
listening skills for use in one-on-one communication, group
presentations, digital storytelling, postsecondary courses, the world of
work, and other pathways. Speech is highly recommended for
students enrolled in the Arts, Business, and Communication Academy
or individuals interested in 21st Century careers found in the Arts,
Audio-Visual Technology, and Communication Career Cluster. Speech also develops essential 21st Century Employability Skills in
Leadership, Communication, Multitasking, Computer Literacy,
Teamwork and Problem Solving, and Dedication.

Children's Literature  ENG310
01-065-G-050-00
Open to 11-12  1 credit

This course is designed for those interested in literacy and/or
working with youth. It promotes the selection and evaluation of
literature for children and the engagement of young readers in a
variety of literary genres. The course will emphasize literature as a
key element of the reading curriculum, pre-school through twelfth
grade. The course will be relevant to those interested in education
and literacy.

Film Studies as Literature  ENG312
01-061-E-050-00
Open to 11-12  1 credit

NOTE: Parents will sign a permission slip regarding the viewing of
film for this course.

We commonly use storytelling in which to communicate personal
experiences, imaginary events, or historical events. Stories told
with film have a large influence on popular culture, our attitudes,
and our perceptions of the world around us and are a powerful tool
in today's culture to convey information and shape attitudes and
values. In this one semester course, students will view, study,
analyze, discuss, and write about film while enhancing their media
literacy (including industrial, technological, aesthetic, or culture in
motion pictures). Students will develop critical thinking skills and
strengthen writing skills. Students will write one formal analysis
essay, one literary criticism essay, write student created film scene
(employing film script text features) and other coursework as
assigned.

Independent Reading  ENG314
01-067-E-050-00
Open to 11-12  1 credit

This course is intended for students who love to read, analyze, and
discuss literature. The course is rigorous and activities will be
based mostly on discussion and structured book talks. Although
students will engage in reflective writing, literary analysis, and
literary criticism writing throughout the semester, (one minimum of
each piece of the aforementioned writing is required), the focus will
be on creating lifelong readers and information seekers. Students
will be required to choose level appropriate reading materials, with
support from the teacher.

Stagecraft  ENG316
05-055-E-050-00
Open to 10-11-12  1 credit

This course is a one semester production focused course designed
to give the beginning or experienced student of theatre arts a basic,
practical understanding of theatre arts career pathways, design and
production elements and construction and/or use of production
scenery, lighting equipment, sound equipment, projection
technology, costume and makeup design, theatrical rigging
systems, stage properties, and the proper and SAFE use of hand
and power tools associated with these areas. This is a 'hands-on'
course and all students are expected to engage in course activities.
There will be research, reading assignments, alternate texts, and
other instructional materials on which class discussions and
authentic tasks will be based.
Communicating in the Workplace

Students will develop reading, thinking, and writing skills necessary for successful communication in the workplace. Students will focus on the various communications used: public speaking skills (including presenting a business plan, using technology (e.g. slide presentations), creating effective visual aids for presentations; advertising strategies, technology in the workplace, and customer service skills. Students will also create their own business which they will create a portfolio over the course of the semester applying all facets of the units. Students will write a business proposal, create a slideshow, and present the proposal to the class for peer critique/review. Students will create a final written reflection over their business focusing on how they will incorporate technology, ethics/diversity, visual aids/advertising, and customer service into their business. This course is recommended for students who plan to enter the workforce immediately upon graduating from high school or students who intend to pursue a technical degree/endorsement at a community college.

World Literature

Students will develop reading, thinking, and writing skills necessary for success in college. This course presents literature from the world outside the United States. Drama, myth, poetry, novels, and essays will be covered in this course. It is recommended that students consider taking Advanced Composition as a semester course opposite World Literature, thus taking two courses as a year-long English course.

American Masterpieces

Students will develop reading, thinking and writing skills. This course is designed to establish a life-long reading habit; classic books by American authors will be read. This course represents in-depth analysis, discussion and research processes.

Writing in the Workplace

Students will develop skills needed for successful written communication in the workplace. Students will focus on the various ways writing is used in workplace communications: email etiquette, notices and reminders, professional style of writing to colleagues, supervisors, and customers; students will also learn the basics of interviewing and will experience a mock interview as an assessment—all of which will have a focus on clarity, courtesy, consideration, conciseness, and concreteness. This course is recommended for students who plan to enter the workforce immediately upon graduating high school or students who intend to pursue a technical degree/endorsement at a community college. The coursework will be tailored to each individual student’s post-high school plans. Students will complete a career portfolio highlighting a resume or student profile, cover letter, writing assignments (e.g. sample email), reflective writing over course presentations, and a written reflection and plan for their intended career choice.

English 12 B

This is an online English course open to PBDA and Expo students. Emphasis is on Literature and Writing.

Online Publications

The purpose of this course is to promote professional journalism, enhance students’ journalistic skills and encourage the production of a student-run publication. This course provides information and hands-on practice in designing, planning, and launching online digital publications. Students learn how to create and format content, how to optimize content for a variety of audiences and digital platforms, how digital publishing standards work, and how to organize digital content to include interactivity. Online Publications focuses on wiring articles, conducting interview, taking photographs, and understanding media law. Students will gain hands-on experience as they contribute to producing the school’s digital news publication. The course is structured as a workshop or seminar and is a project-based course. Students may be expected to sell advertising and meet deadlines. This course may be repeated for credit. Online Publications counts as a general elective. It does not count toward required English credits.

Publications: Yearbook A/B

Instructor approval; Journalism and/or Creative Writing recommended. Students will develop a high school yearbook reflective of the year’s activities. Course topics covered include methods of layout and design, computer technology, copy writing, photo editing, advertising, caption writing, meeting deadlines and selling ads. Students are expected to sell advertising. This course may be repeated for elective credit. Yearbook counts as a general elective. It does not count toward required English credits.
This college course presents elements of the oral communications process with emphasis in developing interpersonal, small group, and public speaking skills. Students will be involved in activities that provide opportunity for the understanding and improvement of their oral communication skills.

Composition I  01-103-C-050-10
Open to 11-12  1 credit
Hawkeye Community College ENG105  3 credits
Prerequisite: Approval process, including an appropriate writing placement score and must meet Compass score requirement
This college course develops the student’s writing skills by emphasizing fluency, organization, the use of supporting details, and research techniques. Writing is approached as a recursive process that includes prewriting strategies, drafting, revising, and editing. The course helps students define a sense of audience and purpose in their writing.

Composition II  01-103-C-050-20
Open to 11-12  1 credit
Hawkeye Community College ENG106  3 credits
Prerequisite: successful completion of English 105 Composition I
This course aims to review and extend writing principles learned in ENG 411 Composition I (fluency, thesis-driven organization, the use of supporting details, and research techniques, prewriting strategies, drafting, revising, and editing) to analytical argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation. Both Comp I and Comp II must be taken in order for the Composition credits to transfer to the three Iowa public universities.

Literacy I A/B  01-107-S-050-00 (A)
Individualized Literacy I A/B  01-107-S-050-00 (B)
Open to 9-10-11-12  1-2 credits
This course is designed to increase reading engagement and outcomes through feedback, practice, and ongoing assessment. Instruction focuses on word recognition, vocabulary and prediction. Instruction will focus on strategies for making predictions, building vocabulary, and word recognition. Data collection and continual assessment will be completed to monitor student on-going progress.

Literacy III A/B  01-067-S-050-00 (A)
Individualized Literacy III A/B  01-067-S-050-00 (B)
Open to 9-10-11-12  1-2 credits
This course is designed as a continuation of Literacy I & Literacy II. Instruction will focus on strategies for paraphrasing, summarizing selections of text, and applying critical reading strategies when taking tests. Data collection and continual assessment will be completed to monitor student ongoing progress.

English I, II, III, IV A/B

In this course, students will experience writing, reading, signing and language. Emphasis will be on teaching English Concepts using sign language.

Participation in Life Centered Curriculum Courses is determined through an IEP team decision. The Course of Study within the IEP defines graduation requirements based on individual needs.

Real World Reading I, II A/B

The content of this series of courses will be determined through data collection and continual assessment results. These courses are designed to improve reading engagement, oral reading fluency (expression, phrasing, rate, and accuracy) and comprehension. Instruction will include reading strategies to be applied across the curriculum. Students will be engaged in reading based on their individualized plans for life after high school. Examples may include reading schedules, signs, newspapers, weather, recipes, nutrition labels, home maintenance manuals, clothing care labels, websites, medical instructions, time sheets, etc. Students will learn to use technology in order to access a range of reading materials.

* Language Instruction Education Program courses

- Denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course.
- Generally, S coded courses do not count in the RAI.
- ◊ denotes the course is approved by the NCAA Eligibility Center.

The Waterloo Community School District currently serves a growing population of limited English proficiency students. They represent countries and languages spoken in Europe, Africa, Asia, North and Central America, the Pacific and Caribbean Islands, and the Middle East. All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

#### 9-12 ELL Program Goals

- Develop and/or reinforce positive attitudes toward school and positive self-concepts.
- Understand and learn to function within American society.
- Stimulate pride in the students’ own culture and linguistic backgrounds and appreciate diversity. Develop competency in sheltered English, Mathematics, American History, and Science in preparation for mainstream content area instruction.
- Prepare for post-secondary training, academic or voc/tech, as well as the job market.
- Provide ELs with a model of instruction that supports language development in the four domains: speaking, listening, reading, and writing in English, with a focus on academic vocabulary and grammar, in order to achieve native-like proficiency.
- Provide the foundation for language development instruction within academic content.
**ELL Courses**

The listed ELL courses are available at West High for students with Limited English Proficiency (LEP). With the exception of special provisions that may be included in a personal progress plan, ELL students must meet all graduation requirements for the Waterloo Community School District in order to receive a Waterloo Community School District diploma. Placement in the ELL program is dependent on a student’s linguistic and academic performance as evidenced by assessment.

ELL courses correspond to the content area course descriptions, with accommodations and modification in strategy, resources and delivery mode as appropriate to the needs of ELL students.

**ELL Learning Lab A/B**

ELL026/027

22-005-S-050-10 (A)
22-005-S-050-20 (B)
Open to 9-10-11-12

This course provides additional monitoring or tutoring with academics and new school adaptation. Targeted support is provided to help with the transition to the United States, continued English development, coursework, or assistance with special programming. This course is for general elective credit.

**ELL Newcomer A/B**

ENG010/011

01-008-S-050-10 (A)
01-008-S-050-20 (B)
Open to 9-10-11-12

This course is designed for entry-level non-English/limited English speakers. The focus of this course is to prepare newcomers for success in content classes. The focus of the course will be an introduction of social and academic language as it relates to school context and academic texts. This course is for general elective credit.

**ELL Strategies for beginning reading A/B**

ENG012/013

01-008-S-050-10 (A)
01-008-S-050-20 (B)
Open to 9-10-11-12

This is an introductory English reading course for the ELL newcomer student. Sheltered instruction strategies are embedded into the practice of the four language domains (L, S, R, W) with the goal of building students' reading comprehension skills. This course is for general elective credit.

**ELL Intro to English A/B**

ENG014/015

01-009-S-050-10 (A)
01-009-S-050-20 (B)
Open to 9-10-11-12

This course is designed for the ELL newcomer student. The topics in this course address developmentally appropriate elements of vocabulary and grammar in context with the goal of building receptive and productive linguistic competencies. The progress of individual students is monitored to allow for advancement to the next English language developmental level during the school year.

**ELL Intro to English II A/B**

ENG020/021

01-008-S-050-30 (A)
01-009-S-050-40 (B)
Open to 9-10-11-12

This course is designed to provide instruction in basic language skills, integrating reading, writing, speaking, and listening, while placing great emphasis on the progress of individual students. Course content depends upon students' abilities and may include vocabulary building, improving spelling and grammar, developing writing and composition skills, reading silently or aloud, and improving listening and comprehension abilities.

**ELL Academic Writing I A/B**

ENG022/023

01-008-S-050-10 (A)
01-008-S-050-20 (B)
Open to 9-10-11-12

This course is designed to build writing skills for academic purposes for newcomers to emergent English students. First semester will introduce and practice grammar and syntax lessons that will support the development of 2nd semester writing and composition skills. This course is designed for but not exclusively for the SLIFE English writer.

**ELL English I A/B**

ENG030/031

01-009-S-050-10 (A)
01-009-S-050-20 (B)
Open to 9-10-11-12

ELL English is a Basic English class for English Language Learners. Students will learn more about sentence structure and the process used for writing paragraphs. The skills of listening, speaking, and reading will also be developed in conjunction with the writing and grammar.

**ELL Conversation A/B**

ENG032/033

01-008-S-050-10 (A)
01-008-S-050-20 (B)
Open to 9-10-11-12

This course is designed for entry-level non-English/limited English speakers. The focus of this course is on developing functional, social conversation and confidence with pronunciation. Critical areas such as sharing personal information, expressing likes and dislikes, emotions, medical situations, and describing people and things will be addressed. This course is for general elective credit.

**ELL English II A/B**

ENG040/041

01-009-S-050-30 (A)
01-009-S-050-40 (B)
Open to 9-10-11-12

ELL English II is an intermediate English class for English Language Learners. The students will learn more about writing complex sentences and the process used for writing multiple paragraphs. The skills of listening, speaking, and reading will also be developed in conjunction with writing and grammar.

NOTE: This course provides credits that count toward the eight required English credits for graduation.
ELL Academic Reading & Writing A/B*  ENG042/043
01-067-S-050-10 (A)
01-067-S-050-20 (B)
Open to 9-10-11-12  2 credits
This course is designed to improve ELL student’s reading comprehension of grade level text, increase his/her reading fluency (words read per minute), and develop his/her knowledge, usage, and mastery of academic vocabulary. This course provides instruction that focuses on using ELL learning strategies. The credit for this class does NOT fulfill one of the eight required English credits.

ELL English 9 A/B*  ENG050/051
01-001-G-050-10 (A)
01-001-G-050-20 (B)
Open to 9  2 credits
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. This course introduces students to the five elements of language arts (writing, reading, speaking, listening, and viewing) at the high school level. Emphasis is on reading for comprehension. Students study the principles of vocabulary building. Speech activities involve experiences in critical listening and an introduction to public speaking. The literature unit includes non-fiction/short story, mythology, drama, poetry, and a novel. Literature, mythology, and speech activities will be designed to reflect an academy focus.
NOTE: This course provides credits that count toward the eight required English credits for graduation. This course counts in the RAI.

ELL English 10 A/B *  ENG052/053
01-002-G-050-10 (A)
01-002-G-050-20 (B)
Open to 10-11-12  2 credits
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. This course further develops the student’s appreciation and knowledge of literary genres, speaking skills, and writing competency. This course is an extension of the composition skills developed in English 9 and includes training in writing and revising full-length, multi-paragraph essays. Speech activities include expository speaking, recitation, and persuasion. The literary study includes a novel, selected nonfiction, poetry and short stories. Students will write a research paper regarding a self-chosen topic. Collaborative work, use of technology tools, and presentations are part of the learning process.
NOTE: This course provides credits that count toward the eight required English credits for graduation. This course counts in the RAI.

ELL American Literature/Composition A/B**  ENG054/055
01-003-G-050-10 (A)
01-003-G-050-20 (B)
Open to 11-12  2 credits
This two-semester course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will develop reading, writing, viewing, and thinking skills through the exploration of fiction, and nonfiction literature, including poetry and drama. The course provides a basic overview of the chronological development of literature in America. The writing component in the course will focus on common errors in grammar, usage, and mechanics within the context of essay writing as well as through daily practice. Students are expected to share their writing and critique the writing of others. Collaborative work, use of technology tools, and formal presentations are part of the learning process.
NOTE: This course provides credits that count toward the eight required English credits for graduation. This course counts in the RAI.

ELL Keyboarding  BUS020
12-005-S-050-00
Open to 9-10-11-12  1 credit
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students are instructed in keyboarding techniques for the use of computers and technology. Keyboard mastery, efficient use of service mechanisms and speed and accuracy on straight copy are emphasized. Students are assessed initially for individualized placement based on prior keyboard knowledge. At the conclusion of this course, a second assessment will assist in determining further keyboard/computer coursework.

ELL Intro to Computers Applications  COM030
10-001-S-050-00
Open to 9-10-11-12  1 credit
This course is designed specifically for the English Language Learner, many with limited background with computer skills. ELL Strategies and modifications will be used to enhance understanding. Students will improve their word processing, graphic skills, presentations, table creation, online resource use, document formatting, spreadsheet, and typing skills. Focus is placed on information processing for future success.

ELL C: Foundations  CAR005
22-152-G-050-00
Open to 9-10  1 credit
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. This is a required course for 9th grade students. The Expanded Learning Program, JROTC, ELL C Foundations, and Strategies courses also meet the requirement for C Foundations. It is highly recommended that very careful consideration be given prior to enrolling in one of these three courses that takes the place of C Foundations.
The course includes 21st Century concepts and skills in the areas of career choices, employability, financial literacy and high school orientation. Students will match their interest and aptitudes to career options with a focus on using employment information effectively, acquiring and improving employability skills that allow people to gain, remain and advance in the workplace as well as in society. Students will use technology to enhance their class projects. Students will be expected to demonstrate money management and make informed, responsible financial decisions. Students will review and update their career plan and explore pathway options (liberal arts, CTE, and IB). Students will gain an understanding of working in a global society.
NOTE: This course counts for the required C Foundations credit for graduation.
ELL Pre-Algebra A/B
MAT012/013
02-051-S-050-10 (A)
02-051-S-050-20 (B)
Open to 9-10-11-12
2 credits
This course is designed specifically for the English Language Learner with limited experience in previous mathematics courses and/or with interrupted formal education. ELL strategies and modifications are used to enhance understanding. Students will strengthen the fundamental skills needed to enroll in Algebra I. This course includes language of algebra, integers, solving multi-step equations and inequalities, ratio, proportion, percent, and basic operations using polynomials. Placement will be determined by an assessment.

ELL Algebra I A/B
MAT018/019
02-052-G-050-10 (A)
02-052-G-050-20 (B)
Open to 9-10-11-12
2 credits
ELL students will explore the following algebraic concepts: properties and operations of numerical and variable expressions, equation solving using equations to solve career context problems, performing operations with polynomials, systems of linear equations, solving inequalities, coordinating graphing of equations, factoring, radical expressions and equations containing radical expressions. Placement will be determined by an assessment. NOTE: This course counts towards the six math credits for graduation. This course counts in the RAI.

ELL Consumer Math I A/B
MAT020/021
02-157-G-050-10 (A)
02-157-G-050-20 (B)
Open to 11-12
2 credits
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will review basic computation and how it relates to consumer and career topics. In this course, students will review computation with whole numbers, fractions, decimals, and percent. They will use these skills to study gross earnings, personal finance such as checking accounts, borrowing and saving money, and consumer spending topics such as discounts insurance, taxes, purchasing automobiles, travel, housing costs, installment purchases and bill paying. This is a study of mathematics needed for everyday adult living situations.
NOTE: This course counts towards the six math credits for graduation.

ELL Foundations of Mathematics: General Mathematics A/B
MAT022/023
02-002-G-050-10 (A)
02-002-G-050-20 (B)
Open to 9-10
2 credits
This course is designed for the English Language Learner with limited or interrupted formal education and/or limited experience in previous mathematics courses. ELL strategies are used to enhance understanding of mathematics concepts. This course will cover the mathematical standards related to number sense. Placement will be determined by an assessment.

ELL Health and Life Management
PHE010
08-057-G-050-00
Open to 10
1 credit
This course is a graduation requirement.
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. This course is designed to teach students to obtain, process, and understand basic health information and services needed to make appropriate health decisions throughout life. Students will understand basic health concepts to enhance personal, family and community health, develop literacy/skills and critical thinking/decision making skills related to personal health and wellness. They will learn to develop and demonstrate behaviors that foster healthy, active lifestyles. The class focuses on personal health topics and evaluation of consumer health information and advertising. Course objectives include helping students develop decision-making, communication, interpersonal, and coping skills and strategies. This class meets the requirements of the State of Iowa health literacy skills and CPR training.
NOTE: This course counts toward the one credit health requirement for graduation.

ELL Physical Science A/B
SCI010/011
03-159-G-050-10 (A)
03-159-G-050-20 (B)
Open to 9-10-11-12
2 credits
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. This is an introductory level physics course designed around motion and energy. Students will investigate how objects are affected by the laws of motion, gravity, and forces. The students will design and evaluate a device that minimizes the effects of these forces on macroscopic objects. The students will also explore how energy is converted, transferred and conserved within a system. Finally, the students will investigate electromagnetic energy in the forms of electricity, magnetism, and light. This course will include some quantitative expressions at an Algebra I level.
NOTE: This course counts toward the six required science credits for graduation. This course counts in the RAI.

ELL Biology A/B
SCI020/021
03-051-G-050-10 (A)
03-051-G-050-20 (B)
Open to 10-11-12
2 credits
This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will conduct investigations and gather evidence to explain how organisms live and grow, how and why organisms interact with their environment, how characteristics of one generation are passed on to the next, and how members of the same species can have different characteristics. Students will construct explanations and use models to evaluate the evidence that shows how different species are related. Students will make and defend claims and analyze and interpret data in the context of biology core ideas.
NOTE: This course counts toward the six required science credits for graduation. This course counts in the RAI.
ELL Earth and Space Science A/B

03-008-G-050-10 (A)
03-008-G-050-20 (B)

Open to 9-10-11-12 2 credits

This course is designed for the English Language Learner. ELL Strategies and modifications are used to enhance understanding. The course will help students formulate an answer to these questions: “What is the universe, and what is Earth’s place in it?” Topics include the universe and its stars, the solar system and the history of planet Earth. “How and why is Earth constantly changing?” Topics include earth materials and systems, plate tectonics, the roles of water on earth, weather, climate, and biogeology. “How do Earth’s surface processes and human activities affect each other?” Topics include natural resources and hazards, humanity’s impact on Earth systems, and global climate change. This course blends these core ideas with scientific and engineering practices to support students in developing usable knowledge to explain ideas across the science disciplines.

NOTE: This course counts toward the six required science credits for graduation. This course counts in the RAI.

ELL U.S. History A/B

04-103-G-050-10 (A)
04-103-G-050-20 (B)

Open to 9-10-11-12 2 credits

This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will study political, cultural and social history and understand how that has determined the present. Studying key people and events, and American life, will be the basis for understanding connections between diverse peoples. Focus will be on the turning points in history and events that have lasting impact on our contemporary lives. First semester covers Reconstruction to Progressivism. Second semester covers WWI to the start of the Cold War. Students will engage in the standards of the Iowa Core Curriculum.

NOTE: This course counts toward the US History graduation requirement. This course counts in the RAI.

ELL Geography

04-001-G-050-00

Open to 9-10-11-12 1 credit

This course is designed specifically for the English Language Learner. ELL Strategies and modifications will be used to enhance understanding. Students will explore amazing and beautiful places both natural and man-made. Students will discover unique cultures of people all over the world. Focus will also be on how to use maps to plan trips in the United States and around the world. Students will even explore great things to do right here in Iowa.

NOTE: This course counts toward the Geography graduation requirement. This course counts in the RAI.

ELL U.S. Government

04-151-G-050-00

Open to 11-12 1 credit

This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will learn the concepts of our national, state, and local governments. They will be guided in developing an appropriate sense of responsible citizenship as participants in our democratic society. Topics covered include all branches of government and the interrelatedness of their functions and experiences to show students how government affects their daily life and how they can affect government. The course will infuse career-oriented activities and students will engage in the standards of the Iowa Core Curriculum.

NOTE: This course counts toward the US Government graduation requirement. This course counts in the RAI.

ELL Economics

04-201-G-050-00

Open to 10-11-12 1 credit

This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will learn concepts such as supply and demand, market pricing and government intervention, and be able to relate them to social issues pertinent to their personal lives. The course will cover the history of economics and geopolitical studies. NOTE: This course counts toward the Economics graduation requirement. This course counts in the RAI.

ELL World History A/B

04-051-G-050-10 (A)
04-051-G-050-20 (B)

Open to 10-11-12 2 credits

This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will cover ancient civilizations, the Middle Ages, Renaissance, Imperialism, World Wars, fall of the Soviet Union, etc. Students will engage in the standards of the Iowa Core Curriculum.

ELL Contemporary Affairs

04-195-G-050-00

Open to 11-12 1 credit

This course is designed for the English Language Learner. ELL strategies and modifications are used to enhance understanding. Students will study current world events and issues from the United States’ perspective. Students will critically analyze background information and events leading to the event/issue and will also consider the geographic influences and multiple perspectives impacting the event/issue. Students will engage in discussions and generate possible outcomes/solutions regarding current world events/issues. The course will have a unit on careers related to social studies.

NOTE: This course counts toward the Contemporary Affairs graduation requirement. This course counts in the RAI.
Exploring Careers in Human Services  
**HUM120**
22-151-G-050-00  
Open to 9-10-11-12  
1 credit  
This course is an introduction to hospitality, finance, human services, food production and early childhood education. Students will become familiar with the management, marketing and operations of restaurants and other food services, and lodging. The management of personal finances, early childhood education and training services are explored. Preparing individuals for employment in career pathways that relate to families and human needs will be included.

Introduction to Foods & Nutrition  
**FCS101**
19-252-G-050-10  
Open to 9-10-11-12  
1 credit  
This course is an introduction to the basic principles of nutrition, wellness, and food preparation. The main objectives of the course are centered on healthy foods, lifestyle choices, and proper food handling to make foods safe. The general goal is to enhance student awareness in regards to personal food choices, physical activity, and food preparation touching on techniques that are industry based.

Beginning Personal Finance  
**FCS220**
19-282-G-050-00  
Open to 10-11-12  
1 credit  
Students will study and apply economic principles in decision making for individual, family and community. Students will study economics on a national and personal level. Included topics are inflation, taxation, supply and demand and the government’s role in economics. **This course counts as an economics credit.**

Child Development  
**FCS229**
19-052-G-050-00  
Open to 9-10-11-12  
1 credit  
This course explores children’s development in the areas of cognitive, social, emotional, and physical aspects from prenatal to age three. Topics included are: prenatal, birth, health, safety, parenting, and choosing childcare.

Educational Technology in the Classroom  
**CAR334**
19-155-G-050-00  
Open to 11-12  
1 credit  
This course prepares students to integrate technology into their teaching curriculum. It will enable students to design educational and training materials while incorporating instructional technology. Students will explore a variety of technologies, including the computer, Internet, multimedia, graphics, audio, and text with an emphasis on increasing learning through their use. Students will also examine combining technology with a variety of instructional methods.

Peer Tutor A/B  
**LEA206/207**
22-054-G-050-10 (A)  
22-054-G-050-20 (B)  
Open to 10-11-12  
1 credit  
Recommended: Counselor approval, teacher approval, and must meet requirements on building approved form  
In this course students will have the opportunity to work as a tutor under the supervision of a high school teacher. They will assist assigned students in completion of assigned work and in subject matter help. Students must have earned an A or B grade in a previous course in the content area in which they will be tutoring. It is the supervising teacher’s responsibility to provide the work area, assigned work, and any other aid needed. Students will work one period per day. This is a pass/no credit course and the supervising teacher is responsible for turning in the grade.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students.
Teacher Assistant

LEA410/411
19-151-G-050-10 (A)
19-151-G-050-20 (B)
Open to 11-12 2 credits

Counselor approval, teacher approval and must meet requirements on building approved form

Students in this course will have the opportunity to work as an assistant to a high school teacher. They will assist the teacher in assigned duties including, but not limited to, working with individual students, working with small groups of students, making teaching aids or utilizing special talents. Students will work one period per day. This is a pass/no pass credit course and the supervising teacher is responsible for turning in the grade.

Personal & Social Development A/B

FCS065/066
19-260-S-050-00 (A)
19-260-S-050-00 (B)
Open to 9-10-11-12 2 credits

In this course students will learn character and leadership traits by developing critical-thinking skills, applying inter-personal skills, positive work habits, and job skills. Students will also focus on communication and study skills to improve academic achievement and hone employability skills for post-secondary success.

Participation in Life Centered Curriculum Courses is determined through an IEP team decision. The Course of Study within the IEP defines graduation requirements based on individual needs.

Extended Core Personal & Social Relationships I, II A/B

In this series of courses students will learn various options for personal recreation and leisure for home, school, and the community. In these courses’ students will utilize personal preference to make decisions regarding their personal time. Skills included in this course may include organizing, initiating, and participating in leisure activities. Students will engage in activities independently or in a group setting. Social skills will be a regular part of these courses.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

### ARMY JROTC

(Offered at East High)

Open to 9-10-11-12

Army JROTC is an accredited high school elective focusing on the development building skills in leadership, personal growth and behaviors, citizenship, decision making, health and fitness, first aid, team building, service learning, and geography; all within a student-centered learning environment. Cadets will have the opportunity to get involved in social activities, attend field trips, and participate on competition teams such as Drill Team, Raiders, and Marksmanship.

Students who participated in JROTC are in no way obligated to join the military. However, qualified JROTC cadets are eligible for advanced rank and pay grade upon enlistment in the service, should they choose to do so. College scholarship opportunities are available for suitable JROTC candidates who wish to pursue a college education. Cadets who qualify may also be nominated to attend one of the service academies.

Cadets are required to participate in citizenship activities in the community, drill and ceremonies, physical training, classroom instruction, and wear a uniform one day per week. Selected Cadets may attend a four-day leadership camp in the summer at no cost. JROTC has six core abilities that describe the broad, life-long skills that every Cadet needs for success ion future life and career endeavors. The core abilities are a result of the goals and values that drive the JROTC program and are built within the program's four years:

- Apply critical thinking techniques
- Build your capacity for life-long learning
- Communicate using verbal, non-verbal, visual, and written techniques
- Do your share as a good citizen in your school, community, country, and world
- Take responsibility for your actions and choices
- Treat self and others with respect

The JROTC program outcomes describe what JROTC Cadets will know and be able to do upon successful completion of the JROTC program, they are:

- Act with integrity and personal accountability as you lead others to succeed in a diverse and global workforce
- Engage in civic and social concerns in the community, government, and society
- Graduate prepared to succeed in post-secondary options and career pathways
- Make decisions that promote positive social, emotional, and physical health
- Value the role of the military and other service organizations.

**Important Note:** Students must pass each semester of the Army JROTC program to be able to move on to the next semester and remain in the program.
LET 1 The Emerging Leader ARR100/101
09-051-G-050-10 (A)
09-051-G-050-20 (B)
Open to 9-10-11-12 2 credits
JROTC foundations introduces Cadets to the mission of the program and how it helps prepare personal success and citizenship. They are exposed to the traditions, organizational structure, and disciplines of JROTC and begin putting into practice customs and courtesies important in the program. Cadets take a close look at personal behavioral preferences, interpersonal skills and abilities, and strategies to help build personal success. Cadets are introduced to the discipline and structure of military drill. Decision Making introduces Cadets to a process and system for addressing goals and handling conflict, both internal and with others. Cadets will learn about health and physical fitness which is an essential component of JROTC.

LET 2 Developing Leader ARR200/201
09-052-G-050-10 (A)
09-052-G-050-20 (B)
Open to 10-11-12 2 credits
Recommended: Let 1
Developing Leader builds upon the mastery of LET 1 skill and abilities, providing Cadets with new and more challenging opportunities in leadership development. Cadets examine their own leadership competencies and style and the role they play in teams. Good leaders are effective communicators; writing, listening, and speaking are essential outcomes which supports personal confidence. Cadets will begin to see how their strengths relate to their vocational interests and begin to explore post-secondary options. Cadets will learn the basics of first aid and be able to respond to common and severe emergencies. Cadets will learn about making good choices and decisions to situations that involve bullying and violence. Citizenship and government introduce Cadets to the purpose of government and the role of the U.S. Constitution on democracy and the rights of its citizens.

LET 3 The Supervising Leader ARR300/301
09-053-G-050-10 (A)
09-053-G-050-20 (B)
Open to 11-12 2 credits
Recommended: Let 2
Supervising Leader builds upon the mastery of LET 1 and 2 skills and abilities, providing Cadets with new and more challenging opportunities as a leader by overseeing planning, project implementation, and team personnel. Cadets at this level can acquire battalion staff positions and responsibilities and help integrate improvements in the local JROTC program and community. Cadets will evaluate their personal management skills and help prepare and lead meetings and continuous improvement plans as supervisors. Personal growth and behaviors focuses on personal planning and management, looking at opportunities after high school and making plans for college or work place. Service-Learning projects often lie in the hands of LET 3 and 4 Cadets to lead service-learning initiatives for the JROTC program. Cadets will create a service-learning plan, helping to organize teams and their roles in the project schedule.

Fourth Year (LET 4) ARR400/401
09-054-G-050-10 (A)
09-054-G-050-20 (B)
Open to 12 2 credits
Recommended: Let 3
Cadets are managing leaders with multiple opportunities to manage and lead in the battalion, in the school, and their respective communities. The LET 4 Cadet is ready to assume responsibilities and manage themselves and others whom they work with or oversee as a Cadet Manager. Cadets will explore leadership roles in continuous improvement, recognizing team attitudes that contribute achieving personal and battalion goals. LET 4 Cadets are mentors and leaders to younger Cadets and work with instructors and other Cadets on lesson development and delivery. Cadets are challenged to identify personal management and accountability strategies and develop a 10-year plan for professional and personal success. Cadets will examine how competing principles and values challenge the fundamental principles of society, and develop solutions for future challenges to citizen rights.
AIR FORCE JROTC
(Offered at West High)

Open to 9-10-11-12
Recommended: U.S. citizen or in the process of becoming a U.S. citizen

Air Force Junior ROTC is a citizenship program for high school students in the ninth through twelfth grades. AFJROTC encourages its students to get involved in their local communities to produce well-informed and helpful citizens. Cadets will have the opportunity to get involved in social activities, attend field trips, and participate on competition teams such as Drill Team.

Students who participated in AFJROTC are in no way obligated to join the military. However, qualified AFJROTC cadets are eligible for advanced rank and pay grade upon enlistment in the service, should they choose to do so. College scholarship opportunities are available for suitable AFJROTC candidates who wish to pursue a college education. Cadets who qualify may also be nominated to attend one of the service academies. Program graduates will have developed proven leadership and management skills and values that will enhance their ability to perform in academic and employment arenas.

Students are expected to wear the Air Force uniform once a week and meet all grooming standards including hair cuts for male students.

Course content is a blend of Aerospace Science (AS), Leadership Education (LE), and the Wellness Program.

In the area of Aerospace Science (AS) the overall objectives for the academic courses are for the cadet to develop:

1. An appreciation of the basic elements and requirements for national security.
2. Respect for and an understanding of the need for constituted authority in a democratic society.
3. Patriotism and an understanding of their personal obligation to contribute toward national security.
4. Broad-based knowledge of the aerospace age and fundamental aerospace doctrine.
5. An interest in completing high school and pursuing higher educational goals or skills.
6. An understanding of the Air Force and military as a possible career path.

Leadership Education (LE) is an integral part of each year’s instruction for AFJROTC cadets. Each year’s activities are broken into Academic and Leadership components. In practice, however, the overlap is considerable. The development of writing and speaking skills are categorized as “Leadership Hours,” yet when used to present subject matter related to what is being taught in the “academic” area, the results are twofold. Additionally, many after-school activities provide the proving ground for newly learned leadership skills. Activities such as drill teams, model rocketry clubs, and the formal cadet corps’ operation all require offices with

First Year  (AS/LE-10X)  AFR100/101
09-151-G-050-10 (A)  2 credits
09-151-G-050-20 (B)

AS-100: A Journey into Aviation History
This is the recommended first AS component for all new cadets. It is an aviation history course focusing on the development of flight throughout the centuries. It starts with ancient civilizations, then progresses through time to modern day. The emphasis is on civilian and military contributions to aviation; the development, modernization, and transformation of the Air Force; and a brief astronomical and space exploration history. It is interspersed with concise overviews of the principles of flight to include basic aerodynamics, aircraft motion and control, flight power, and rockets. Throughout the course, there are readings, videos, hands-on activities, and in-text and student workbook exercises to guide in the reinforcement of the materials.

LE-100: Traditions, Wellness, and Foundations of Citizenship
LE-100 is the component of JROTC leadership education. It will introduce cadets to history, organization, mission, traditions, goals, and objectives of JROTC for all services. It introduces key military customs and courtesies, how to project a positive attitude, and exam the principles of ethical and moral behavior. It provides strategies for effective note taking and study skills for academic success. Lessons will cover how to be emotionally, mentally, and physically healthy. Avoiding and preventing violence in today’s society will also be covered. How to recognize types of bullying and how to advocate for prevention of this type of behavior. It will cover healthy living, physical fitness, and how to make safe, drug-free, and responsible decisions. The textbook will also examine the negative effects of air and water pollution, and how to keep the environment safe. Cadets will be introduced to civics and our national government, including a historical understanding of the American flag and other important national symbols. The final chapter will also cover how the US Constitution protects our rights and freedoms as American citizens.

Second Year  (AS/LE-20X)  AFR200/201
09-152-G-050-10 (A)  2 credits
09-152-G-050-20 (B)
Recommended: Successful completion of first year

The Science of Flight: A Gateway to New Horizons is an introductory course and customized textbook that focuses on how airplanes fly, how weather conditions affect flight, flight and the human body, and flight navigation. The course is designed to complement materials taught in math, physics, and other science-related courses and is aligned with the National Science Education Standards, the Math Standards and Expectations, and ISTE National Educational Technology Standards for Students. In this course, every lesson includes a "Quick Write" and a short story related to the lesson; a "Learn About" that tells students what they’ll learn from the lesson; a list of vocabulary words in the lesson; "Wing Tips" that highlight specific and interesting facts; and many biographies and profiles. Each lesson closes with "Checkpoints" that
will allow students to review what they have learned. An "Applying Your Learning" section at the end of each lesson presents discussion questions that will give them a chance to use what they have learned and provides another way to reinforce their understanding of the lesson’s content. The text has four chapters, each of which contains a number of lessons.

**LE-200: Communication, Awareness, and Leadership**

LE-200 hours stress communications skills and cadet corps activities. Much information is provided on communicating effectively, understanding groups and teams, preparing for leadership, solving conflicts and problems, and personal development. Written reports and speeches compliment the academic materials. Cadet corps activities include holding positions of greater responsibility in the planning and execution of corps projects.

**Third Year (AS/LE-30X) AFR300/301**

09-153-G-050-10 (A)
09-153-G-050-20 (B)

*Recommended: Successful completion of second year*

**AS-220: An Introduction to Global Awareness**

This course introduces students to the world’s cultures through the study of world affairs, regional studies, and cultural awareness. It delves into history, geography, religions, languages, culture, political systems, economics, social issues, environmental concerns, and human rights. It looks at major events and significant figures that have shaped each region. Throughout the course, there are readings, video segments, hands-on activities, other optional activities, technology enrichment, and assessments to guide in the reinforcement of the materials.

**LE-300: Life Skills and Career Opportunities**

Life Skills and Career Opportunities, Second Edition provides an essential component of leadership education for today’s high school students. This course is designed to prepare students for life after high school in the high-tech, globally oriented, and diverse workplace of the 21st Century.

Students will learn how to become a more confident financial planner and to save, invest, and spend money wisely, as well as how to avoid the credit trap. They will learn about real-life issues such as understanding contracts, leases, warranties, legal notices, personal bills, practical and money-saving strategies for grocery shopping, apartment selection, and life with roommates. The Holland Interest Inventory and other self-assessments will help them to reveal their attitudes, aptitudes, and personal skills. This self-understanding will allow them to explore career paths and understand requirements that they will need to be successful at work and in life.

To help students increase their potential for success through education, they will learn how to select a school that is right for them; how to apply for admission to a vocational or technical school, community college, or college/university; and how to succeed in these learning environments. Information is provided on how to conduct the job search for students who wish to enter the workforce right after high school or after additional education and training. They will learn how to prepare a winning resume, and how to develop effective interviewing skills. Students will become more skilled at using the Internet for career research and learn how to network safely using social media. The text also provides information on working for the federal government to include careers in the military, aerospace industry, and public service. Finally, students will consider the most important elements of life skills for all Americans: civic responsibilities, such as volunteering, registering to vote, jury duty, draft registration.

**Fourth Year (AS/LE-40X) AFR400/401**

09-154-G-050-10 (A)
09-154-G-050-20 (B)

*Recommended: Successful completion of third year*

**AS-300: Exploring Space: The High Frontier**

This is a science course that includes the latest information available in space science and space exploration. The course begins with the study of the space environment from the earliest days of interest in astronomy and early ideas of the heavens, through the Renaissance, and on into modern astronomy. It provides an in-depth study of the Earth, Sun, stars, Moon, and solar system, including the terrestrial and the outer planets. It discusses issues critical to travel in the upper atmosphere such as orbits and trajectories, unmanned satellites, and space probes. It investigates the importance of entering space and discusses manned and unmanned space flights, focusing on concepts surrounding spaceflight, space vehicles, launch systems, and space missions. The section on manned spaceflight focuses on the Space Shuttle, space stations and beyond, covering milestones in the endeavor to land on the Moon and to safely orbit humans and crafts for temporary and prolonged periods. The course covers the human aspect of spaceflight, focusing on the human experience in space. It also examines the latest advances in space technology, including robotics in space, the Mars Rover, and commercial uses of space.

**AS-400: Management of the Cadet Corps**

Upper class cadets manage the entire corps under AFJROTC instructor supervision. This course is an AS option and practicum for those cadets to provide hands-on experience for the opportunity to put the theories of previous leadership courses into practice. All the planning, organizing, coordinating, directing, controlling, and decision-making will be done by the cadets, under the supervision of AFJROTC instructors. They practice their communication, decision-making, personal-interaction, managerial, and organizational skills.

**AS-410: Survival: Survive• Return**

The Survival text is a synthesis of the basic survival information found in Air Force Regulation 64-4 Survival Training, and serves as another AS option. The survival instruction will provide training skills, knowledge, and attitudes necessary to successfully perform fundamental tasks needed for survival. Survival also presents “good to know” information that would be useful in any situation. The information is just as useful to an individual lost hunting or stranded in a snowstorm.

**Leadership Education (LE) 400: Principles of Management**

Leadership IV: Principles of Management textbook is a guide to understanding the fundamentals of management, managing yourself, and others. Emphasis is placed on allowing the student to see himself/herself as a manager. Every organization, regardless of size, faces the challenge of managing operations effectively. No matter how well a manager carries out his or her job, there are always ways of doing at least part of the task more effectively.
There are four building blocks of leadership considered in this text from the military and civilian perspective. Attention to these four areas will form a strong foundation for a capability to lead others—something that can be very valuable to you for the rest of your life. The four areas are Management Techniques, Management Decisions, Management Functions, and Managing Self and Others.

**AF JROTC Cadet Staff Leadership and Management**

**Honors A/B**

<td>2</td>
<td>Recommended: Minimum 3.5 GPA in JROTC courses and minimum 3.0 GPA in all other courses; 4th year of JROTC, Senior Instructor permission/signature</td>
</tr>
</tbody>
</table>

Students for this advanced leadership course serve as members of the JROTC cadet senior staff together with cadets approved for the standard Cadet Staff Leadership and Management course. This hands-on experience affords students the opportunity to apply leadership and management lessons from previous JROTC courses. Students are expected to maintain a high level of performance in personal fitness, military bearing, and uniform wear. Students are assigned specific functional areas of responsibility and are expected to perform their duties/responsibilities in addition to mentoring and leading other members of the organization. Students who are approved for this course are expected to occasionally be available at times in excess of daily classes (i.e., before/after school meetings, weekend trips/activities, etc.) Students will conduct long and short-range planning, exercise decision-making, coordination, control and execution of cadet organization activities during the school year. Students are expected to apply higher-level leadership, organizational, communication, and personal interaction skills in the performance of their duties. Students in this honors option are also required to establish a leadership journal or personal portfolio and accomplish a major research project with a written report and formal presentation to a panel of faculty/community team members. The project may be a research paper, scientific analysis or a major service project with a written summary and personal reflection.

**Drill and Ceremonies**

The Drill and Ceremonies course provides an in-depth introduction to drill and ceremonies. This is not a stand-alone course, but it is to be taught as part of the Leadership Education 40% component for each Air Force Junior ROTC class. The Drill and Ceremonies course concentrates on the elements of military drill and describes individual and group precision movements, procedures for saluting, drill, ceremonies, review, parades, and development of command voice. Students are provided detailed instruction on ceremonial performances and protocol for civilian and military events and have the opportunity to personally learn drill. Though each class will follow an established lesson plan, most of the work is hands-on.

**Wellness Curriculum**

Wellness is an official part of the Air Force Junior ROTC program, and is taught along with every level of AFJROTC. It is an exercise program focused upon individual base line improvements with the goal of achieving a national standard as calculated with age and gender. Wellness is instrumental in developing citizens of character dedicated to serving our nation and communities. The program is provided as a tool to help you develop individualized training programs for your cadets. Cadets will be given the opportunity to put into practice the wellness concepts that are taught in Leadership Education I. Instructors are free to include other activities cadets enjoy such as team sports in order to keep the Wellness Program fun and motivating. The Wellness Program is a 36-week program modifiable to meet individual goals. Personal improvement will be rewarded. The 36-week program is comprised of 19 exercises which can be conducted with minimal space and with minimal climate dependency (e.g., the 1-mile run). The exercises develop all muscle groups and provide sufficient anaerobic and aerobic intensity. They require no equipment and use only body weight and common objects (e.g., chairs).

**Air Force JROTC Drill & Ceremony Class A/B**

Algebra I A/B ♦ MAT104/105
02-052-G-050-10 (A)
02-052-G-050-20 (B)
Open to 9-10-11-12 2 credits
Recommended: Successful completion of Pre-Algebra.
Students will explore the following algebraic concepts: properties and operations of numerical and variable expressions, equation solving using equations to solve career context problems, performing operations with polynomials, systems of linear equations, solving inequalities, coordinate graphing of equations, factoring, radical expressions and equations containing radical expressions.

Math Lab I - Algebra I A/B MAT108A/108B
02-002-B-050-10 (A)
02-002-B-050-20 (B)
Open to 9th graders enrolled in Algebra I 2 credits
In this course, students will work to strengthen Pre-Algebra skill needed to be successful in Algebra I as well as support newly learned material. This course will concentrate on the enhancement, n introduction, of basic math computational skill and is to be taken concurrently with Math 104/105 (Algebra I). This course will incorporate mathematics lab experiences; computer-based learning; traditional learning techniques and career focus experiences. The credit for this class does NOT fulfill one of the six required math credits.

WCSD Pre-IB Adv. Algebra I A/B ♦ MAT304/305
02-052-E-050-10 (A)
02-052-E-050-20 (B)
Open to 9 2 credits
WCSD Pre-IB Algebra I is an accelerated study of algebraic concepts. In this course students will spend considerable time exploring and applying concepts such as variable expressions, linear and quadratic equations, polynomial operations, systems of linear equations, inequalities, graphing and writing equations, and factoring polynomials. The amount of time spent on cognitively complex problem solving will be much higher than Algebra I. This course is designed for highly motivated students interested in exploring further study in mathematics.

Geometry A/B ♦ MAT106/107
02-072-G-050-10 (A)
02-072-G-050-20 (B)
Open to 9-10-11-12 2 credits
Recommended: Successful completion of Algebra I
Students will study basic geometric concepts and topics with applications that have a career focus. Topics covered include: the language of geometry, reasoning, introduction to proof, parallel relationships, properties of quadrilaterals, parallelograms, circles, right triangles, polygons, trigonometry, coordinate geometry and constructions.

Math Lab II - Geometry A/B MAT112A/112B
02-002-B-050-10 (A)
02-002-B-050-20 (B)
Open to 10-11-12th graders enrolled in Geometry 2 credits
In this course, students will work to strengthen Algebra skills needed to be successful in Geometry as well as support newly learned material. This course will concentrate on the enhancement, not introduction, of basic algebraic principles and is to be taken concurrently with Math 106/107 (Geometry). This course will incorporate mathematics lab experiences; computer-based learning; traditional learning techniques and career focus experiences. The credit for this class does NOT fulfill one of the six required math credits.

WCSD Pre-IB Adv. Geometry A/B ♦ MAT160/161
02-072-E-050-10 (A)
02-072-E-050-20 (B)
Open to 9-10 2 credits
Recommended: Successful completion of Algebra I
WCSD Pre-IB Geometry is an accelerated study of plane and solid geometric figures with emphasis on plane figures. The course stresses knowledge and application of geometry as a logical system, with definitions, postulates, and theorems, especially using analysis and deductive reasoning. Lessons include work in ratio and proportion, Pythagorean theorem, areas, special triangles, volumes, and other metric work. Memorization and application is an important part of this course. This course is also writing intensive. A scientific calculator, geometric compass and protractor are suggested. This course is designed for students with advanced abilities who are pursuing the International Baccalaureate Diploma.

Consumer Math I A/B MAT402/403
02-157-G-050-10 (A)
02-157-G-050-20 (B)

Consumer Math I A/B MAT800/801
Indiv. Consumer Math I A/B MAT080/081

Algebra II A/B ♦ MAT202/203
02-056-G-050-10 (A)
02-056-G-050-20 (B)
Open to 9-10-11-12 2 credits
Recommended: Successful completion of Algebra I
Students will review, extend and apply topics of Algebra I. Topics covered include: equations and inequalities, linear relations and functions, systems of equations and inequalities, polynomials, irrational numbers, complex numbers, quadratic equations and the quadratic formula, graphing and solving quadratic functions, trigonometric functions, matrices, and exponential and logarithmic functions.

Math Lab III - Algebra II A/B MAT113A/113B
02-002-B-050-10 (A)
02-002-B-050-20 (B)
Open to 10-11-12th graders enrolled in Algebra II 2 credits
In this course, students will work to strengthen Algebra and Geometry skills needed to be successful in Algebra II as well as support newly learned material. This course will concentrate on
Statistics  
02-205-C-050-00  
Open to 11-12  
1 credit  
Hawkeye Community College MAT156  
3 credits  
Prerequisite:  Students must meet the HCC entrance requirements and complete the registration process.

This course is a study of descriptive statistics including graphical representation, central tendency, correlation and regression, intuitive treatment of probability and inferential statistics including hypothesis testing.

Pre-Calculus A/B  
MAT300/301  
MAT300/301  
02-110-G-050-10 (A)  
02-110-G-050-20 (B)  
Open to 10-11-12  
2 credits  
Recommended: Successful completion of Algebra II

Students will review, extend and apply topics of Geometry and Algebra II.  Topics covered include the following: linear relations and functions, matrices, the nature of graphs, polynomial and rational functions, trigonometry, conic sections, exponential and logarithmic functions, sequences and series, and probability.  The course is geared to students interested in mathematics, physics, chemistry, engineering, and other related technical fields.  Students who have completed both Algebra Geometry in Middle School and who have taken WCSD Pre-IB Algebra II as a freshman and who have the consent of the teacher are encouraged to enroll in IB Pre-Calculus as a sophomore.

Math for Liberal Arts  
MAT404  
MAT404  
02-138-C-050-00  
Open to 11-12  
1 credit  
Hawkeye Community College MAT110  
3 credits  
This course is offered at the Waterloo Career Center.  This course is linked with the concurrent Statistics course at the WCC.  This is a liberal arts mathematics course that satisfies the minimum general everyday life as well as to expose students to areas of mathematics they may not have seen before.  Topics include problem-solving skills, set theory, algebra, consumer mathematics, probability, and statistics.  Other topics may be included.  Prerequisite(s):  a minimum grade of D-in MAT-063 or appropriate placement score.

AP Calculus A/B  
MAT400/401  
MAT400/401  
02-124-H-050-10 (A)  
02-124-H-050-20 (B)  
Open to 11-12  
2 credits  
Recommended:  Completion of Pre-Calculus

Topics include limits and continuity, derivatives and their application and integration.

Trigonometry  
MAT302  
MAT302  
02-103-G-050-00  
Open to 11-12  
1 credit  
Recommended:  Successful completion of Algebra II

Students will become familiar with trig functions and their graphs including circular and triangular trigonometry.  This one semester course is designed to give students a solid background in trigonometry.  Students begin with a review of angles and angle measurement and continue into the study of trigonometric functions with an emphasis on graphing, inverse functions, trigonometric identities, solving equations, applications of vectors including bearings, parametric equations and conic sections.

IB Math SL-Analysis and Approaches A/B  
MAT370/371  
MAT370/371  
02-140-H-050-11 (11A)  
02-140-H-050-21 (11B)  
Open to 11-12  
2 credits  
Recommended:  WCSD Pre-IB Algebra II, Pre-Calculus

IB Math SL is a two-year course with Pre-Calculus being the first year.  Topics of study include Fundamental Algebra, Functions, Trigonometry, Geometry, Statistics & Probability, and Calculus.  The emphasis of this course is calculus and pure math.
This course is ideal for students who plan to pursue substantial mathematics components, e.g. engineering, physical sciences, some economics, and math itself.

**IB Math SL-Applications & Interpretations A/B**

- **MAT372/373**
  - 02-139-H-050-11 (11A)
  - 02-139-H-050-21 (11B)
  - 02-139-H-050-22 (12A)
  - 02-139-H-050-22 (12B)

Open to 11-12  
2 credits  
**Recommended:** WCSD Pre-IB Algebra II, Pre-Calculus  
IB Math SL is a two-year course with Pre-Calculus being the first year. Topics of study include Fundamental Algebra, Functions, Trigonometry, Geometry, Statistics & Probability, and Calculus. The emphasis of this course is statistics, modeling, and technology. This course is ideal for students who plan to pursue social sciences, natural sciences, medicine, statistics, business, psychology and design.

**IB Math HL-Analysis and Approaches A/B**

- **MAT374/375**
  - 02-140-H-050-11 (11A)
  - 02-140-H-050-21 (11B)
  - 02-140-H-050-22 (12A)
  - 02-140-H-050-22 (12B)

Open to 11-12  
2 credits  
**Recommended:** WCSD Pre-IB Algebra II, Pre-Calculus, AP Calculus  
IB Math HL is a two-year course for students wanting a rigorous college level math course. Ideally the student should enter the course having already completed Pre-Calculus during their sophomore year. Students will complete the core course which includes: Algebra, Functions and Equations, Circular Functions and Trigonometry, Vectors, Statistics and Probability, and Calculus. In addition to the core concepts the students will study advanced topics in Calculus (some of curriculum normally seen in Calculus II in college), Probability and Statistics, Sets and Relations, as well as Discrete Mathematics. The emphasis of this course is calculus and pure math. This course is ideal for students who plan to take courses with substantial mathematics components, e.g. engineering, physical sciences, some economics, and math itself.

**Algebra I – Part I A/B**  
**MAT102/103**  
- 02-053-S-050-10 (A)  
- 02-053-S-050-20 (B)  
Open to 9-10-11-12  
2 credits  
This course is specially designed for students with Individualized Education Plans, students will be individually scheduled into this course based on their identified learning needs.

Students will become proficient in the language and skills of basic algebra. This course is the first of the two-year sequence in Algebra. Topics covered in this course include the properties and operations of numerical and variable expressions, equation solving, using equations to solve career context problems, performing operations with polynomials, and solving inequalities.

**Algebra I – Part II A/B**  
**MAT200/201**  
- 02-054-S-050-10 (A)  
- 02-054-S-050-20 (B)  
Open to 10-11-12  
2 credits  
This course is specially designed for students with Individualized Education Plans, students will be individually scheduled into this course based on their identified learning needs.

This course is the second semester of Algebra taught over an entire year. Students will become proficient in the language and skills of basic algebra. Students will explore the following algebraic concepts: properties and operations of numerical and variable expressions, equation solving, using equations to solve career context problems, and performing operations with polynomials, systems of linear equations, factoring, solving inequalities, coordinate graphing of equations, radical expressions and equations containing radical expressions.

**Foundations of Math A/B**  
**MAT700/701**  
- **Indiv. Foundations of Math A/B**  
  - MAT070/071  
  - **Open to 10-11-12**  
  - 2 credits  
Students will build skills in the areas of addition, subtraction, multiplication, and division. Students will extend their learning to whole numbers, fractions, and decimals. Instruction will include application of problem-solving skills in areas that are encountered in postsecondary settings, such as comparison shopping, making change, and representing data. Students will develop number sense to understand the flexibility of numbers and apply various strategies that can be used to solve math problems.

**WCSD Pre-Algebra A/B**  
**MAT900/901**  
- **Indiv. Pre-Algebra A/B**  
  - MAT090/091  
  - **Open to 9-10-11-12**  
  - 2 credits  
Students will be introduced to the language and skills of basic algebra. This course is a first step in preparing students to meet graduation requirements for math. Topics covered in this course include the properties and operations of numerical and variable expressions, equation solving, using equations to solve real world problems; and solving inequalities. Property and problem solving are also covered.
Math I, II, III, IV A/B
02-002-S-050-00

HIM110/111
02-002-S-050-00
02-002-S-050-00

HIM210/211
02-002-S-050-00
02-157-S-050-00

HIM310/311
02-157-S-050-00
02-051-S-050-00

HIM410/411
02-051-S-050-00

Open to 9-10-11-12 2 credits

Students will work on math skills designed to meet their individual needs. These skills may include basic math operations, consumer math and pre-algebra using sign language. Participation in Life Centered Curriculum Courses is determined through an IEP team decision. The Course of Study within the IEP defines graduation requirements based on individual needs.

Math I A/B
02-002-S-050-00 (A)
02-002-S-050-00 (B)

Open to 9-10-11-12 2 credits

In Math I, students will continue to build a solid foundation of Students will develop number sense to understand the flexibility of numbers and apply various strategies that can be used to solve math problems. addition, subtraction, multiplication, and division. Students will extend their learning to whole numbers, fractions, and decimals. Instruction will include beginning patterns, decimals and powers of 10, measurement, operations with fractions: addition and subtraction, understanding and reading word problems, using operations to solve problems, and place value decimals to billions.

Math II A/B
02-002-S-050-00 (A)
02-002-S-050-00 (B)

Open to 9-10-11-12 2 credits

In Math II, students will build on concepts learned in Math I using operations to solve problems. Instruction will include decimals and powers of 10, understanding fractions, percent, and operations with fractions: multiplication and division, as well as positive and negative numbers. Students will also explore Geometry concepts such as polygons and symmetry.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

**Note:** Instrumental music instruction is available to all students who have a desire to play a band or orchestral instrument even if they have had no experience. They will be assigned to a skills sectional and eventually a large group ensemble. A sequence of skills needed to successfully play in the organization will be outlined and the student will work on these skills until they have developed enough technique to be able to successfully participate in the large group.

**Note:** Jazz Band and Percussion Ensemble are extra-curricular activities and not specific courses. For more information, please see the Band teacher at the respective high schools.

### Marching Band

05-103-G-025-00
Open to 9-10-11-12
.25 credit

Recommended: Required for all East High Band students.
Recommended for all 10-12 West High Band students. Optional for 9th grade West students (must also be enrolled in the 9th grade Concert Band). Must attend all rehearsals and performances, attend marching band camp.

Co-requisite: enrolled in appropriate band class
The marching band is a fun, exciting, high profile, competitive group with an extensive rehearsal and performance schedule. The marching band performs at all home football games, the homecoming parade, and competitions on Saturdays. Students are required to attend marching band camp at the beginning of August. At marching band camp, students learn and memorize music, drill, and marching fundamentals so that future rehearsals can be used to clean and refine the marching band show. Marching band meets every day of the first quarter during zero hour.

### Band A/B

05-101-G-050-11 (A)
05-101-G-050-21 (B)
05-101-G-050-12 (A)
05-101-G-050-22 (B)

Open to 9-10-11-12

A variety of standard wind band literature will be studied and performed. Students in band will be participating in activities such as concerts, festivals, marching shows, parades, and other civic and special events. To continue the development of individual musicianship students will be required to attend individual or small group lessons outside of class. Students electing this class are required to participate in all performances unless excused by the director prior to the event.
Orchestra A/B 9th/10th MUS104/105
05-104-G-050-11 (A)
05-104-G-050-21 (B)
05-104-G-050-12 (A)
05-104-G-050-22 (B)
Open to 9-10-11-12 2 credits
Orchestra students will study and perform a variety of standard repertoire. To continue developing individual musicianship and technique, students will be required to attend individual or small group lessons outside of class. Participation in Chamber Orchestra, state honors orchestras, solo festivals and similar events are available to advanced students. Students are required to participate in all performances unless excused by the director prior to the event.

Treble Clef Chorus A/B MUS108/109
05-111-G-050-12 (A)
05-111-G-050-22 (B)
Open to 9-10-11-12 2 credits
This class meets daily and is open to all girls. Students will learn to sing correctly, improve music reading skills, and study basic music theory. A variety of choral literature will be studied and performed. Students will have the opportunity to participate in music festivals. To continue the development of individual musicianship, students will be required to attend individual or small group lessons outside of class. Students selecting this class are required to participate in all performances unless excused by the director prior to the event.

Bass Clef Chorus A/B MUS110/111
05-111-G-050-11 (A)
05-111-G-050-21 (B)
Open to 9-10-11-12 2 credits
This class meets daily and is open to all boys. Students will learn to sing correctly, improve music-reading skills and study some music theory. A variety of choral literature will be studied and performed. Students will have the opportunity to participate in music festivals. To continue the development of individual musicianship, students will be required to attend individual or small group lessons outside of class. Students selecting this class are required to participate in all performances unless excused by the director prior to the event.

Color Guard MUS112
08-006-G-025-00
Open to 9-10-11-12 .25 credit
Recommended: Audition
Students will explore the elements of musical expression through coordinated movement. The color guard rehearses and performs with the band at all marching functions, including home football games, parades and all festivals/competitions.

Jazz Improvisation MUS121
05-105-G-050-10
Open to 11-12 1 credit
Recommended: Audition Spring offering only
Students will explore both abstract elements and essential functions of music improvisation. The course stresses rudiments of jazz chord and scale spellings, chord scale mode relationships, jazz nomenclature, basic forms, and phrase construction. Aural training, including transcription or recorded jazz solos, will be emphasized. Class performance will focus on the blues form, as well as jazz standards with simple progressions. If an appropriate instrumentation can be assembled, the class can also function as a small jazz ensemble to perform at school and community events.

Guitar Level I A/B MUS130/131
05-108-G-050-11
05-108-G-050-21
Open to 9-10-11-12 2 credits
This course is designed for students with no previous formal guitar training. Students will receive guidance and direction in problem solving related to playing guitar at a beginning level. Students will learn chords and melodies in first position, reading standard notation, TAB and chord charts. Students will be introduced to both strumming and finger style playing. Success in the courses is based primarily on participation and effort.

Guitar Level II A/B MUS132/133
05-108-G-050-12
05-108-G-050-22
Open to 10-11-12 2 credits
Recommended: Intro to Alternative String Instruments-Guitar Level I or previous formal instruction.
Level II will expand on skills learned in Level I to include advanced chords, melodies, composition and improvisation. Students will be introduced to the various styles and genres of music played by the guitar. Compared to Level I higher emphasis and expectation will be placed on skill mastery and performance.

Concert Choir A/B MUS204/205
05-110-G-050-10 (A)
05-110-G-050-20 (B)
Open to 9-10-11-12 (E)
Open to 10-11-12 (W) 2 credits
Recommended: Audition
During daily class meetings students will work to develop a good choral blend with all voice parts, correct diction, proper breathing and gain a rounded appreciation of choral music. A wide variety of choral literature will be studied and performed in concert settings. To continue the development of individual musicianship students will be required to attend individual or small group lessons outside of class. Students will also have the opportunity to participate in music festivals. Students are required to participate in all performances unless excused by the director prior to the event.

Exploring World Music MUS313
05-118-G-050-90
Open to 10-11-12 1 credit
This course is designed to help students explore the world of music and to develop an understanding of the importance of music in their lives. Through a variety of listening, creating, performing, and other exploratory activities students will engage in the study of musical traditions from around the world as well as contemporary styles such as Hip-Hop, Rap, Country, and others. Students will learn how their own musical traditions fit into the world of music.
AP Music Theory A/B  
MUS303/304  
05-114-H-050-10  
05-114-H-050-20  
Open to 11-12  
2 credits  
Recommended: Strong ability to read and write musical notation is fundamental for this course. It is also recommended you have acquired at least basic performance skills in voice or on an instrument or Instructor Approval  
The ultimate goal of this course is to develop a student’s ability to recognize, understand, and describe the basic materials and processes of music that are heard or presented in a score. The achievement of these goals may best be approached by initially addressing fundamental aural, analytical, and compositional skills using both listening and written exercises. Building on this foundation, the course should progress to include more creative tasks, such as the harmonization of a melody by selecting appropriate chords, composing a musical bass line to provide two-voice counterpoint, or the realization of figured-bass notation.

Wings  
MUS305  
05-116-G-050-00  
Open to 10-11-12  
1 credit  
(Inspirational based choral music performance)  
Using music as a vehicle, students will travel through time to learn about the history and context of 19th and 20th century cultural music. We will explore the impact on society of genres such as gospel, inspirational, jazz, blues, and rock and roll. While discussing these topics students will have the opportunity to engage with the music and have possible performances showcasing their knowledge.

Applied Instrumental Lessons  
MUS308  
05-109-G-050-00  
Open to 10-11-12  
1 credit  
Students will improve technique, tone, and musicianship on instrument through practice of etudes, exercises, scales, and solos. Students are expected to practice daily and will have weekly scheduled lessons. Students will be expected to learn all major scales and chromatic scale up to All-State tempo by the end of the first quarter of study. Objectives can be added as needed to fit specific student goals. Students must approach this class with strict diligence.

Piano Lab I A/B  
MUS309/310  
05-107-G-050-10  
05-107-G-050-20  
Open to 10-11-12  
2 credits  
This course is designed for students with no previous or minimal formal piano training. Students will receive guidance and direction in problem solving related to playing piano at a beginning level. Students will learn chords and melodies, fingerings, and reading standard notation. Success in the course is based primarily on participation and effort.

Songwriting and Composition A/B  
MUS311/312  
05-119-G-050-10  
05-119-G-050-20  
Open to 10-11-12  
2 credits  
Students will build their knowledge of basic music concepts and applications. This course will introduce these concepts through study and utilization of popular styles of music. Students will engage in songwriting, beat writing, and other practical applications of music theory. Through practical application, students will acquire a knowledge of basic music literacy, notational systems, rhythmic, harmonic, and melodic part writing, and other musical skills.

Students are required to be in Physical Education a minimum of one semester each year (unless they exempt out). For any PE exemptions, see counselor. As a graduation requirement they must complete and pass 4 physical education courses in addition to one Health & Life Management credit. All Physical Education courses encourage students to explore activities that can be incorporated as a part of a healthy working lifestyle. Corporations and businesses associate healthy lifestyles with productivity in the workplace. Exposure to any of the physical education class offering should help students transition to active healthy adulthood.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

Open to 9-10-11-12

General Physical Education allows students to learn social and personal responsibility associated with participation in physical activity and to understand that physical activity provides an opportunity for enjoyment, challenge, self-exploration, social interaction, and the pursuit of leisure-time activity.

Activities taught include:

- Aerobics/Dance
- Archery
- Arena Football
- Badminton
- Basketball
- Bocce Ball
- Cross Country Skiing
- Eclipse Ball
- Flag Football
- Floor Hockey
- Frisbee Golf
- Golf
- Ice Fishing
- Indoor Games
- Ice Fishing
- Indoor Games
- Matt Ball
- New Zealand Ball
- Omnikin Ball
- Pass-Catch
- Pickle ball
- Ping Pong

Open to 9-10-11-12

The focus of this class is to build strength through regular participation in weightlifting opportunities provided in class. The class will primarily focus on free weightlifting and the Olympic lifts. Students will learn proper lifting techniques, weight room safety, and proper rest and nutrition for maximum results. In this class, students will be expected to lift and participate throughout the semester. Daily warm-up and conditioning are incorporated as a part of each workout. Students are expected to keep track of their lifting and chart lifts each day during class.

### Adv. Strength and Conditioning

Open to 9-10-11-12

This class provides an opportunity during the school day for students to participate in a program designed to enhance athletic performance. Each class or “training session” is built using appropriate exercise selection, volume and loading that focuses on long- and short-term goals as well as peaking athletic performance. The use of online platforms by a certified strength and conditioning specialist allows for individualized programs that offer multiple options and performance-tracking capabilities to increase accountability and optimal training.
Fitness PE
08-005-G-050-20
Open to 9-10-11-12 1 credit
This is a non-competitive, individually based course focused on lifetime fitness/wellness through movement activities. Students will focus their workouts incorporating wellness as a part of a healthy lifestyle through different types of exercise. Movement and activities will include but not be limited to non-competitive games and activities, walking and jogging, yoga/Pilates, fitness videos, aerobic workouts, and circuit training. This class is designed to be a safe, non-judgmental, fitness-based course. Students are expected to keep track of their workouts, plan an exercise program, complete an exercise program, set fitness goals, and complete a summary paper.

Community Wellness/PE 70
08-016-G-050-00
Open to 12 1 credit
Recommended: must have previously taken one physical education class
This PE course is a transition course for seniors to assist them with connecting to community wellness activities and classes. The course is designed to be an independent study program for students to participate in wellness activities at the Cedar Valley Sportsplex and/or other exercise facilities. Credit will be given for minutes in and above target heart rate zone as recorded on their heart rate monitor. West and East High PE faculty monitor student progress. Students are responsible for logging hours and turning in time sheets weekly. Credit will be given when students complete a log of a minimum of 70 activity hours to receive credit.

Health and Life Management
08-057-G-050-00
Health and Life Management
08-057-S-050-00
Health and Life Management
08-057-S-050-00
Open to 9-10-11-12
This class is a requirement for graduation.
This course is designed to teach students to obtain, process, and understand basic health information and services that are needed to make appropriate health decisions throughout life. Students will understand basic health concepts to enhance personal, family and community health, develop literacy/skills as well as critical thinking/decision making skills related to personal health and wellness. They will learn to develop and demonstrate behaviors that foster healthy, active lifestyles. The class focuses on personal health topics as well as evaluation of consumer health information and advertising. Course objectives include helping students develop decision-making, communication, interpersonal, and coping skills and strategies. This class meets the requirements of the State of Iowa health literacy skills and CPR training.

Denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course. Generally, S coded courses do not count in the RAI.

Denotes the course is approved by the NCAA Eligibility Center.
All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students.

The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

**Graduating classes of 2021 and beyond:** Six science credits are required for graduation and must include 2 credits of Earth and Space Science, 2 credits of Biology, and 2 credits of Physical Science (or equivalent chemistry/physics option).

**GRADE 9:** Earth and Space Science, Biology, WCSD Pre-IB Adv Biology, WCSD Pre IB Integrated Life Science.

**Advanced Pathways:** WCSD Pre-IB Adv Integrated Sciences are two yearlong courses that are meant to be taken in serial. These classes are designed for highly motivated students interested in pursuing AP and IB classes their Junior and Senior year. The course is designed to be rigorous and fast paced. It blends learning outcomes between different science disciplines to enhance understanding of cross cutting

Earth and Space Science builds on middle school ideas and skills, allowing high school students to explain more in-depth phenomena. The course will help students formulate an answer to these questions: “What is the universe, and what is Earth's place in it?” Topics include the universe and its stars, the solar system and the history of planet Earth. “How and why is Earth constantly changing?” Topics include earth materials and systems, plate tectonics, the roles of water on earth, weather, climate, and biogeology. “How do Earth’s surface processes and human activities affect each other?” Topics include natural resources and hazards, humanity’s impact on Earth systems, and global climate change. This course blends these core ideas with scientific and engineering practices to support students in developing useable knowledge to explain ideas across the science disciplines.

Recommended: One year of Earth Science

In this course, all issues relate to the theme of sustainability. Sustainability refers to the ability of a community to meet its present needs without compromising the ability of future generations to meet their own needs. Students will engage in a process of inquiry similar to that which scientists use. This involves asking questions about the natural world, gathering evidence, and constructing logical explanations to answer those questions. Students will participate in a wide range of activities, including hands-on labs, hands-on models, interactive computer simulations of scientific concepts, and discussions that connect what is learned in their own life, their community, and the world. Units covered include Ecology, Cell Biology, Genetics and Evolution.

**Ecology A/B**

SCI303/304

03-003-G-050-10 (A)
03-003-G-050-20 (B)

Open to 10-11-12 2 credits

Recommended: One year of science.

Students will develop an awareness of current environmental issues and the technologies for dealing with them. Topics such as solid and hazardous waste disposal, oil spill, wastewater treatment, and air pollution will be included. Examples of requirements include research and experiencing environmental issues through indoor and outdoor experiences, guest speakers, field trips, interactive activities, readings and projects. Class includes an independent research component.

**Advanced Placement (AP) Biology A/B**

SCI404/405

03-056-H-050-10 (A)
03-056-H-050-20 (B)

Open to 11-12 2 credits

Recommended: One year of Biology with a grade of B or higher. This course is designed to be the equivalent of a college introductory biology course. Students are provided with the conceptual framework, factual knowledge, and analytical skills necessary to deal with the rapidly changing science of Biology. Three general areas will be emphasized: molecules and cells, genetics and evolution, and organisms and populations. Laboratory experiences are an integral part of the course, including written laboratory reports.

Open to 11-12
2 credits
Recommended: WCSD Pre-IB Biology, or WCSD Pre-IB Integrated Life/Physical Science

WCSD Pre-IB Integrated Sciences are two-year long courses that are meant to be taken in serial. These classes are designed for highly motivated and hardworking students that are interested in pursuing AP and IB classes their Junior and Senior year. The course is designed to be rigorous and fast paced. It blends learning outcomes between different science disciplines to enhance understanding of cross-cutting concepts and compact learning outcomes. The goal of the course is to cover all state science standards in two years, rather than three, giving students more freedom of choice their Junior and senior year.
This is an introductory level physics course designed around motion and energy. Students will investigate how objects are affected by the laws of motion, gravity, and forces. The students will design and evaluate a device that minimizes the effects of interactions. Students will also use chemical reactions to show how particles within atoms interact with each other to form new substances while mass and the number of atoms are conserved. The students will communicate scientific and technical information about why the molecular level is important in the design of materials. Finally, the students will use models and nuclear reactions to investigate how changes within the nucleus occur to create energy through the processes of fission and fusion.

**Physical Science A**<br>SCI100<br>03-139-G-050-10 (A)<br><br>**Physical Science A**<br>SCI660

This is an introductory level chemistry class that focuses on matter and its interactions. Students will explore the periodic table to discover trends and patterns among the elements that make up all matter. The students will also use chemical reactions to show how particles within atoms interact with each other to form new substances while mass and the number of atoms are conserved. The students will communicate scientific and technical information about why the molecular level is important in the design of materials. Finally, the students will use models and nuclear reactions to investigate how changes within the nucleus occur to create energy through the processes of fission and fusion. Some mathematical expressions will be used at a Geometry level.

**Chemistry A/B**<br>SCI300/301<br>03-101-G-050-10 (A)<br>03-101-G-050-20 (B)<br>Open to 10-11-12 2 credits<br><br>Recommended: One year of Science and Algebra I

**Advanced Placement Chemistry A/B**<br>SCI1162/163<br>03-102-E-050-10 (A)<br>03-102-E-050-20 (B)<br>Open to 10-11-12 2 credits<br><br>Recommended: Algebra I

Adv/Pre-IB Chemistry is a one-year course that builds the foundation for IB/AP Chemistry. Topics include the nature of matter, atomic structure and theory, periodic table, bonding, chemical reactions, solutions, thermodynamics, equilibrium, and acids and bases. Laboratory notebooks are required and must be organized and completed for each lab. This course includes lab investigations developed by the students. This course has a special focus on dimensional analysis, laboratory writing, along with a broader coverage of topics to prepare students for IB SL Chemistry or IB SL Physics course.

**IB Chemistry SL A/B**<br>SCI362/363<br>03-107-H-050-11 (11A)<br>03-107-H-050-21 (11B)<br>Open to 11-12 2 credits<br><br>Recommended: WCSD Pre-IB Chemistry, WCSD Pre-IB Biology, WCSD Pre-IB Algebra II, or WCSD Pre-IB Integrated Life/Physical Science

**IB Chemistry HL A/B**<br>SCI364/365<br>03-107-H-050-11 (11A)<br>03-107-H-050-21 (11B)<br>Open to 11-12 2 credits<br><br>Recommended: WCSD Pre-IB Chemistry, WCSD Pre-IB Biology, WCSD Pre-IB Algebra II, or WCSD Pre-IB Integrated Life/Physical Science

IB Chemistry HL is a two-year laboratory course that covers all topics considered appropriate for an introductory college chemistry course. The principles of chemistry, such as structure, states of matter, thermochemistry, reactions and descriptive chemistry are covered in detail. Laboratory experimentation will be extensive and will require a significant time commitment by the student. The student must be highly self-motivated and possess higher order thinking skills. Adequate preparation in mathematics is essential for success in this course.
Physics A/B  
03-151-G-050-10 (A)  
03-151-G-050-20 (B)  
Open to 10-11-12  
2 credits  
Recommended: One year of Science and Geometry, which may be taken concurrently  
This is a college preparatory physics course designed around motion and energy. Students will investigate and calculate how objects are affected by the laws of motion, gravity, and forces. The students will design and evaluate a device that minimizes the effects of these forces on macroscopic objects. The students will also explore and measure how energy is converted, transferred and conserved within a system. Finally, the students will investigate and calculate electromagnetic energy in the forms of electricity, magnetism, and the different parts of the electromagnetic spectrum. This course will include quantitative expressions at a Geometry level.

Advanced Placement (AP) Physics I A/B  
03-156-H-050-11 (A)  
03-156-H-050-21 (B)  
Open to 10-11-12  
2 credits  
Recommended: One year of science and Algebra II which may be taken concurrently. No previous physics coursework is necessary. AP Physics I is designed to be equivalent to the first semester of an introductory, algebra-based college physics class. It is appropriate for any student intending to attend college and especially those who may continue into a scientific, medical, engineering, manufacturing, or technical career. Physics is considered to be the most basic science, with applications to a wide variety of situations and most professional careers. Students will study the interactions between energy and matter. Students will explore principles of Newtonian mechanics, work, energy, and power; mechanical waves and sound; and introductory, simple circuits. Laboratory experiments will be a major part of this course.

Human Anatomy and Physiology A/B  
03-053-G-050-10 (A)  
03-053-G-050-20 (B)  
Open to 10-11-12  
2 credits  
Recommended: Biology & Chemistry (Chemistry may be taken concurrently)  
Students will learn the structure (anatomy) and operation (physiology) of various tissues, organs, and organ systems of the human body. Laboratory work comprises a major portion of the course involving microscopes, dissection of a cat, and numerous chemical and/or biological techniques. This course is useful in preparation for medical, biological and physical education careers.

IB Sports, Exercise and Health Science A/B  
03-065-H-050-11 (11A)  
03-065-H-050-21 (11B)  
03-065-H-050-12 (12A)  
03-065-H-050-22 (12B)  
Open to 11-12  
2 credits  
Recommended: WCSD Pre-IB Biology, Chemistry  
The IB DP course in sports, exercise and health science standard level (SL) involves the study of the science that underpins physical performance. The course incorporates the traditional disciplines of anatomy and physiology, biomechanics, psychology and nutrition. Students cover a range of topics and carry out practical (experimental) investigations in both laboratory and field settings. This provides an opportunity to acquire the knowledge and understanding necessary to apply scientific principals and critically analyze human performance.

Physical Science A/B  
03-159-S-050-00 (A)  
03-159-S-050-00 (B)  
Open to 9-10-11-12  
2 credits  
Through the use of sign language, students will study the solid earth, the oceans, the atmosphere, weather patterns, outer space, and conservation of resources. Problem solving related to these topics will be explored.

Biology A/B  
03-151-S-050-00 (A)  
03-151-S-050-00 (B)  
Open to 9-10-11-12  
2 credits  
Through the use of sign language, students will be studying living things and the interrelatedness of man, plants, animals and the environment. Students will also study good health practices, human body systems, common diseases, sexuality, physical fitness and wellness, nutrition, chemical dependencies and problem solving related to topics studied.

Earth Science A/B  
03-001-S-050-00 (A)  
03-001-S-050-00 (B)  
Open to 9-10-11-12  
2 credits  
Students will study ecology, current trends in environmental issues, recycling, conservation of resources, safe environment shopping, weather patterns and problem-solving using sign language.

Participation in Life Centered Curriculum Courses is determined through an IEP team decision. The Course of Study within the IEP defines graduation requirements based on individual needs.

Science for Life I, II, III A/B  
03-202-S-050-00 (A)  
03-202-S-050-00 (B)  
03-202-S-050-00 (A)  
03-202-S-050-00 (B)  
Open to 9-10-11-12  
2 credits  
In this series of courses students will conduct investigations and gather evidence to explain scientific phenomena in biology, physical science, and earth and space science. Students will engage in three-dimensional learning to include science and engineering practices, disciplinary core ideas, and crosscutting concepts. Students will construct explanations and use models to evaluate scientific evidence across the three domains of science.

Graduating class of 2022 and beyond: Six credits are required in Social Sciences and must include two credits in United States History, two credits in World History, one credit in United States Government and one credit in Geography. Six, or more, social science credits are required for admission to most colleges and universities. Students in all Social Science courses will work on developing literacy and critical thinking skills to build their skills to be successful in real world situations. All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

* Concurrent courses with Hawkeye Community College must meet entrance requirements

❖ Denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course.

◊ Denotes the course is approved by the NCAA Eligibility Center

Generally S coded courses do not count in the RAI.

Students will study political, cultural and social history and understand how that has determined the present. Studying key people and events, and American life, will be the basis for understanding connections between diverse peoples. Focus will be on the turning points in history and events that have lasting impact on our contemporary lives. First semester covers Reconstruction to Progressivism. Second semester covers World War II to the start of the Cold War. Students will engage in the standards of the Iowa Core Curriculum.

Students will study political, cultural and social history and understand how that has determined the present. Studying key people and events, and American life, will be the basis for understanding connections between diverse peoples. The focus will be on the turning points in history and events that have a lasting impact on our contemporary lives. Students will cover Reconstruction to World War II and through September 11. In preparation for IB, AP, and concurrent courses, students will learn to study independently, engage in historical writing and research, analyze historical evidence, formulate questions to issues, use evidence to defend arguments, and draw conclusions about historical events. Students will engage in the standards of the Iowa Core Curriculum.

nothing to see that your country succeeds in their own journey throughout this simulation. From action forms to press releases, you can change the course of the simulation with just one click of a button. The future of the world is at your very fingertips with Arab-Israeli Conflict. This class will meet the Contemporary Affairs graduation requirement.

The African American Experience ✩◊ SOC304
04-107-G-050-00
Open to 10-11-12 1 credit
Celebrate the African American culture through a hand on, interactive learning experience that reviews the major role African Americans have played in shaping the history and culture of the United States. The course begins with the study of early West African Societies, moves through the story of the establishment, development, and modernization of our country, and concludes with current times. Students will review both historical and current events through the lens of arts & literature, technology, and social & political contributions. An emphasis will be given to the African American story in Waterloo and in Iowa, and the role African American Iowans played in shaping our Nation. Regardless of your race, ethnicity, or heritage, you will enjoy this view of history from a unique and engaging perspective.

Psychology I: Perspectives in Psychology ✩◊ SOC306
04-254-G-050-00
Open to 11-12 1 credit
Many people associate Psychology with Psychologists and the treatment of individuals with emotional or mental health problems. However, there are many different topics and careers associated with the study of Psychology. In this course, students will learn about the different psychological approaches such as: Behaviorism, Psychodynamics, Humanistic, Cognitive, Biological, and Sociocultural. Topics include Sleep and Dreams, Brain Function, The Developing Human, Sensation, Perception, Gender and more. Even if you’re not interested in becoming a psychologist, having a good understanding of the human mind and behavior will serve you well in any career. Psychology is about the connection between the mind and the body, and the combination of people’s thoughts, feelings, and actions.

Psychology II: Psychological Disorders & Personality ✩◊ SOC337
04-255-G-050-00
Open to 11-12 1 credit
Recommended: Psychology I
Have you ever wondered what makes people who they are? Are you curious as to what interferes with a person’s ability to function in a healthy way? In this course students will study psychological disorders and how they impact the way people think, feel, and behave in society. Students will discover different theories describing our personalities, and will look at the reasoning behind what motivates behavior. As a part of this, students will learn how to assess, diagnose, and offer treatments to people suffering from mental illnesses. Topics range from anxiety disorders to schizophrenia, to depression, to violent behavior. Not only will this help prepare for careers in Psychology/Psychiatry, but will also offer an understanding of people and their mental health issues, which can assist in any career as well as personal relationships. It is encouraged that students take Psychology I prior to enrollment, but is not required.

**Sociology**

04-258-G-050-00
Open to 11-12
1 credit
Why do some people commit crimes while others don’t? What can be done about poverty and inequality in the United States? Should sports teams with Indian mascots be allowed? Why is it considered normal to eat puppies in some parts of the world? If you are fascinated by the behavior of others and why we act the way we do, then sociology is for you. Sociology teaches us to answer “what,” “how,” and “why” about what is going on in our personal lives, our communities, and the world. Sociology challenges your basic assumptions about why people live the way they do. During the semester we frequently examine and discuss current events through a sociological perspective. Students enjoy conducting their own research study in this class. Similar to real-life sociologists, students will have the opportunity to study data from surveys that investigate important issues, attitudes, and experiences.

**Economics**

04-201-G-050-00

**Individualized Economics**

04-201-S-050-00
Open to 11-12
1 credit
Students will learn concepts such as supply and demand, market pricing and government intervention, and be able to relate them to social issues pertinent to their personal lives. The course will cover the history of economics and geopolitical studies. Students will engage in the standards of the Iowa Core Curriculum.

**IB Economics SL A/B**

04-206-H-050-11 (11A)
04-206-H-050-21 (11B)
04-206-H-050-12 (12A)
04-206-H-050-22 (12B)
Open to 11-12
2 credits
IB Economics SL is a two-year course providing students with the basic tools of economic reasoning while teaching them to use those tools to explain or interpret economic problems and to evaluate policy solutions. Course content will include microeconomics, macroeconomics, international economics and development economics. There are two externally moderated exams.

**IB Economics HL A/B**

04-206-H-050-11 (11A)
04-206-H-050-21 (11B)
04-206-H-050-12 (12A)
04-206-H-050-22 (12B)
Open to 11-12
2 credits
IB Economics HL is a two-year course providing students with all of SL instruction as well as some additional topics (e.g., Theory of the Firm Market Structures, the Phillips Curve, Absolute and Comparative advantage, the implications of and solutions to a persistent current account deficit/surplus, the Marshall-Lerner Condition, trade creation/diversion, the Terms of Trade). A mathematical component (e.g., supply and demand as linear equations, calculating the effects of government intervention, the Keynesian Multiplier, calculating nominal real values, calculating GEP growth, calculating inflation/unemployment) from a set of data, constructing a weighted price index, calculating marginal and average tax rates) is also included. There is an additional exam over the HL Extension topics and the mathematical component which is externally moderated, as are the others.

**Contemporary Affairs**

04-196-G-050-10

**Individualized Contemporary Affairs**

04-196-S-050-00
Open to 11
1 credit
Students will study current world events and issues from the United States’ perspective. Students will critically analyze background information and events leading to the event/issue and will also consider the geographic influences and multiple perspectives impacting the event/issue. Students will engage in discussions and generate possible outcomes/solutions regarding current world events/issues. The course will have a unit on careers related to social studies. Students will engage in the standards of the Iowa Core Curriculum.

**Geography**

04-001-G-050-00

**Individualized Geography**

04-001-S-050-00
Open to 10-11-12
1 credit
The Geography credit can be satisfied by taking AP, WCSD Pre-IB Adv. World History or IB World History-Graduating Class of 2022 and beyond.

This course is designed to help students better understand our constantly changing and complex world through the study of geography. The course will study geography from the physical, political, and cultural perspective through the five basic geographical themes of location, place, human-environment interaction, movement, and region. The course should compare and contrast these themes across all continents. Special emphasis will be placed on geographical skills, and geographic literacy (locating countries, capitals, & physical features of the world) as well as global, human issues in a contemporary world.

**Laws, Order, and Society**

04-106-G-050-00
Open to 10-11-12
1 credit
Do you like watching crime shows or police dramas? Are you a fan of Law and Order? What about Law and Order SVU, Criminal Intent? Do you like CSI or NCIS? If you answered yes to any of the questions then this is the class for you. In this class, students will learn about crimes, police officers, investigations, trials, and sentencing those convicted. Students have many opportunities to work in groups to discuss different cases and legal situations. Projects students have completed in the past include: solving a crime, writing a police report, performing forensic tests, participating in a mock trial, creating an ideal prison, and serving on a task force to help reduce different types of crime. Students who want a fun elective or who are interested in a career in the legal field should definitely sign up for this class.
Students will learn the concepts of our national, state, and local governments. They will be guided in developing an appropriate sense responsible citizenship as participants in our democratic society. Top covered include all branches of government and the interrelatedness of their functions and experiences to show students how government affects their daily life and how they can affect government. Students will engage in the standards of the Iowa Core Curriculum.

AP U.S. Government A/B ♩  
SOC417/418

Students will learn the concepts of our national, state, and local governments. They will be guided in developing an appropriate sense responsible citizenship as participants in our democratic society. Top covered include all branches of government and the interrelatedness of their functions and experiences to show students how government affects their daily life and how they can affect government. Students will engage in the standards of the Iowa Core Curriculum.

AP Psychology A/B ♩  
SOC308/309

Students will be introduced to the systematic and scientific study of behavior and mental processes of human beings, exposed to each major subfield within psychology, and enable students to examine the methods psychologists use in their science and practice. Students will explore how psychologists use research methods and critical analysis to explore human behavior. Students will engage in the standards of the Iowa Core Curriculum.

IB Theory of Knowledge A/B ♩  
SOC380/381

Theory of Knowledge provides a connecting link for the learner to synthesize the approaches to understanding gained over the course of study. TOK is taken every other day with seminar on alternating days. Students will explore and apply the eight Areas of Knowledge and six Ways of Knowing. The course raises questions about the validity of knowledge, and in so doing seeks a cross-curricular understanding of how a learner learns and, ultimately, knows. Students will pursue a wide range of readings to be examined in a Socratic Seminar setting combining literature, history, science, mathematics, and fine arts, among others. This course should be taken by students who are pursuing the International Baccalaureate Diploma.
US History to 1877  
SOC332  
04-102-C-050-00
Open to 11-12  
1 credit
Hawkeye Community College HIS151  
3 credits
Students must meet the HCC entrance requirements and complete the registration process.

This United States history course examines the country’s Colonial experience, Revolutionary period, and 19th Century history through Reconstruction. The course includes political, economic, and social history of this period, as well as the development of American thought.

US History Since 1877  
SOC353  
04-103-C-050-00
Open to 11-12  
1 credit
Hawkeye Community College HIS152  
3 credits
Students must meet the HCC entrance requirements and complete the registration process.

This United States history course examines the period from the end of reconstruction to the present. Emphasis is placed upon industrialization and its impact, the development of a strong federal government, an aggressive foreign policy, and a growing involvement in an international economy. The course includes political, economic, and social history of this period, as well as the development of American thought.

U.S. History A/B  
HIM120/121  
04-101-S-050-00 (A)
04-101-S-050-00 (B)
Open to 9-10-11-12  
2 credits
Students will study U.S. History from 1877 to present using sign language to present information. Activities include current events (international, national, state, local) cultural diversity and contributions to society; as well as problem solving related to major events of the past, present and future.

World Studies A/B  
HIM220/221  
04-051-S-050-00 (A)
04-051-S-050-00 (B)
Open to 9-10-11-12  
2 credits
Students will develop an understanding of geography and cultural diversities through the use of sign. Current events in the world will be discussed and related to the everyday lives of the students.

Economics  
HIM320  
04-201-S-050-00
Open to 9-10-11-12  
1 credit
Students will study consumer-decision making strategies, budgets, wise buying with credit, loans, insurance, banking and tax skills necessary for the student’s success through the use of sign language.

U.S. Government  
HIM321  
04-151-S-050-00
Open to 9-10-11-12  
1 credit
Students will learn the basic structure of government at all levels and how government affects their daily lives now and in the future. Emphasis will be on their rights and responsibilities.

Participation in Life Centered Curriculum Courses is determined through an IEP team decision. The Course of Study within the IEP defines graduation requirements based on individual needs.

Applied Social Sciences I, II A/B  
LCC104/105  
04-305-S-050-00 (A)
04-305-S-050-00 (B)
Open to 9-10-11-12  
2 credits
In this series of courses students will focus on aspects of geography, government, the behavioral sciences, and current events as they relate to community life, independent living, and employment. Students will learn skills to navigate the school and community environment. Modes of transportation to access these locations will be learned and explored. Students will learn about the local government and responsible citizenship. Skills that lead to positive relationships will be practiced. Class activities will promote positive social conversation and interactions. Learning to comply with directions and accept personal responsibilities will be a focus. Students will gain knowledge of local, state, and national current events. Current events will be used to determine cause and effect and to determine possible outcomes or solutions.

All courses emphasize 21st century skills and literacy development. Instruction is differentiated to meet the needs of all students. The special education service delivery plan outlines services available for students with an Individualized Education Program (IEP).

C3 Foundations

22-152-H-050-00
Open to 9
1 credit

This is a required course for 9th grade students (unless the credit was earned in 8th grade). The Expanded Learning Program, IB Diploma Program, JROTC, ELL C3 Foundations, and Strategies courses also meet the requirement for C3 Foundations. It is highly recommended that very careful consideration be given prior to enrolling in one of these three courses that takes the place of C3 Foundations.

The course includes 21st Century concepts and skills in the areas of career choices, employability, financial literacy and high school orientation. Students will match their interest and aptitudes to career options with a focus on using employment information effectively, acquiring and improving employability skills that allow people to gain, remain and advance in the workplace as well as in society. Students will use technology to enhance their class projects. Students will be expected to demonstrate money management and make informed, responsible financial decisions. Students will review and update their career plan and explore pathway options (liberal arts, CTE, and IB). Students will gain an understanding of working in a global society.

Expanded Learning Program A/B

LEA100/101

22-101-H-050-10 (A)
22-101-H-050-20 (B)
Open to 9-10-11-12
2 credits

Recommended: Identified for Expanded Learning Program services, enrolled in Advanced English 9 or 10, Advanced Placement courses, Post-Secondary enrollment, and/or instructor approval

This class is especially designed to meet the needs of gifted and talented learners. ELP offers the opportunity to extend and apply discussion, research, production, and critical thinking skills. This class emphasizes the development of independent, lifelong learners. Students will design and complete investigations and/or in-depth studies based on personal interests. Upper class students have the opportunity to participate in internships. Grades are assigned. The pass/no credit option is available. Students may select the course each semester all four years. When the Expanded Learning course is taken as a 9th grader, the requirement of the C3 Foundations credit is met.
Leadership Development Program I  LEA402
22-101-G-050-30
Open to 10-11-12  1 credit
This course is designed to develop leadership skills and abilities. Students participate in activities focusing on the individual, group teamwork, and community leadership. As a result of this course, students develop qualities necessary to be effective leaders both in school and in the community.

Leadership Development Program II  LEA403
22-101-G-050-40
Open to 10-11-12  1 credit
Recommended: Leadership I
This course is designed to build on the leadership skills developed in Leadership I. The focus is on expanding students’ knowledge of the role a leader plays within a school, community, and the country at large. The framework for this course is the Ten Pillars of Leadership combined with practical leadership experiences. Enrollment is limited; students must apply to be considered for this course.

I-JAG A/B (East)  CAR210/211
22-151-G-050-10 (A)
22-151-G-050-20 (B)
Open to 9-10-11-12  1 credit
Iowa Jobs for America’s Graduates is a course that focuses on leadership, teambuilding, and career-skills. The class includes (1) a career association - a student run organization that plans events and maintains its own governing body, (2) job-shadowing - choose a career association - a student run organization that plans events and maintains its own governing body, (2) job-shadowing - choose a career field and shadow a person in that field for a day, (3) guest speakers - listen to professionals from various career fields and educational institutions, and (4) leadership development conference - student elected leaders attend the state conference in Des Moines and may possibly attend a National meeting.

Essential Skills Development A/B  HIM600/601
22-003-S-050-00 (A)
22-003-S-050-00 (B)
Open to 9-10-11-12  2 credits
Essential Skills Development is one period a day for students to use sign language as their main mode of communication. Concepts and content from Core classes are supported using sign language.

Strategies A/B  SKI100/101
Individualized Strategies A/B  SKI010/011
22-003-S-050-00 (A)
22-003-S-050-00 (B)
Open to 9-10-11-12  1-2 credits
This course is specially designed for students with Individualized Education Plans (IEPs). In this course students will learn strategies that can be applied across the curriculum. This may include, but is not limited to, strategies and instruction in the areas of reading, writing, math, employability, self-advocacy, and interpersonal skills. Supports from core curriculum may also be provided. Strategy instruction will be determined using data collection and continual assessment on an individual basis. Students will develop skills and learn to use strategies that apply to their postsecondary expectations in the areas of living, learning, and working.

Employability in the 21st Century A/B  LCC110/111
22-153-S-050-00 (A)
22-153-S-050-00 (B)
Open to 9-10-11-12  2 credits
Students will participate in the school-based enterprise. Students will apply their knowledge and skills in a “live” business setting where challenges arise daily and interactions with customers are varied. This school-based enterprise helps prepare students to transition from school to work or college by deepening students’ communication, active listening, critical thinking, collaboration, time management, positive social interactions, and community awareness skills. For many students this school-based enterprise provides them with their first work experience and opportunities to develop critical employability skills. For other students, this school-based enterprise provides an opportunity to build management and leadership skills.

* Denotes the course is accepted in the Regents-Approved Index (RAI) of courses. The letters G, H, E, or C must be in the coding to be an approved course. Generally, S coded courses do not count in the RAI.

◊ denotes the course is approved by the NCAA Eligibility Center

Native speakers or students transferring into the program with previous language experience are required to take a placement test to determine appropriate course level. Contact your counselor to arrange testing.

The National Standards for Foreign Language Learning, as outlined by the American Council on the Teaching of Foreign Languages (ACTFL), are the basis for the design of each world language course. The “5 Cs” of Communication, Cultures, Connections, Comparisons, and Communities describe what students should know and be able to do as a result of world language study.

**Communication:** Students will learn how to communicate in meaningful contexts.

**Cultures:** Students will learn about the practices and products of other cultures from a variety of perspectives.

**Connections:** Students will link their study of the language to their personal lives and academic pursuits.

**Comparisons:** Students will compare their own language and culture to those of other countries.

**Communities:** Students will develop the skills and knowledge to use language outside the classroom and to become lifelong language learners.

World Language entrance (admission) requirements vary from college to college and even within a college, depending on the major and degree. World language requirements may range from 0-4 years. Many colleges also have exit world language requirements, which differ from entrance requirements. Some colleges do not honor Pass/Fail grades because they have a C minimum requirement. The best guidelines for college language entrance/exit requirements are: (1) check with the specific colleges under consideration, and (2) take four consecutive years of the same language with a minimum of a C to ensure compliance with language requirements. Students may enroll in any world language course regardless of their Career Interest Academy selection. Throughout all levels of world language courses, there will be a curricular focus on each career interest area.

In order to fulfill the UNI requirement, students must have maintained a minimum of C- in their high school world language courses and students cannot take a 1st or 2nd year language course as pass/fail.

24-052-G-050-10 (A)
24-052-G-050-20 (B)
Open to 9-10-11-12
Recommended: Students must have successfully complete 8th grade Language Arts. Students who have received a C or above in their most recent English course will have a better chance of success. Students must successfully complete the first semester to continue to the second semester.
This course introduces students to the people, language, and cultures of the Spanish speaking world. Students will learn to communicate basic information about themselves and their environment and will develop the fundamentals of speaking, listening, reading, and writing in Spanish.

Compacted Spanish I & II A/B ✦
24-052-H-050-10 (A)
24-053-H-050-10 (B)
Open to 9
Recommended: Students must successfully complete 8th grade Language Arts. Students who have received a C or above in their most recent English course will have a better chance of success.
Compacted Spanish compacts four semesters of Spanish (two semesters of Spanish I and two semesters of Spanish II) into two semesters. Students will complete both semesters of Spanish I during the fall semester of this course, the first semester of Spanish II during the spring semester of this course, and the second semester of Spanish II during the summer. For the student who signs up for this course, summer class will be a priority over sports and vacation plans. The class will be fast paced and challenging. Students will be expected to do much study and learning on their own. This course introduces students to the people, language, and culture of the Spanish speaking world. Students will learn basic communication and the fundamentals of the Spanish language through the study of vocabulary and grammatical structures. Throughout the course, students will develop their skill in speaking, listening, reading, and writing.

French I A/B ✦
