GUIDING PRINCIPLES FOR EMPLOYEES

Employees provide a variety of important services for the children of the school district community. Each employee plays a vital role in providing an equal opportunity for a quality education for students commensurate with the students’ individual needs. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees shall promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the Board’s goal is to obtain and retain qualified and effective employees. The Superintendent shall have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district’s standards of acceptable performance as long as it does not conflict with the master contract. It shall be the responsibility of the Superintendent to make recommendations to the Board in these areas prior to board action. The Board recognizes its duty to bargain collectively with duly certified collective bargaining units.

Board policies in this series relating to general employees shall apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees shall apply to positions that require a teaching license or administrator’s certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy.
