BLOODBORNE PATHOGENS

All school district employees are required to complete annual Bloodborne Pathogen training.

New employees will receive instruction on Bloodborne pathogens within ten working days of reporting to their initial assignment. The Human Resource Department is responsible for seeing that the new employee(s) receives the required instruction.

The instruction shall include:

- copy of the district policy (http://www.waterlooschools.org/policies/policies/711)
- general epidemiology of Bloodborne disease
- modes of transmission
- how to recognize exposure risk
- protective equipment types and use
- procedures of disposal
- explanation of signs and labels
- questions and answers
