

SEMESTER TESTS – SECONDARY

All students are required to take semester and/or end of course assessment tests. Generally, semester tests are given the last two days of each semester. Assessments that measure standards and benchmarks will be used at the high school level. All teachers will meet with their regular classes during the time specified for the tests. No classes will be dismissed by any teacher. All teachers are to grade the tests and record the test scores in the grade record system.

Any deviation from this regulation must be approved by the building principal and the Associate Superintendent for Educational Services.
