

INSTRUCTIONAL MATERIALS INSPECTION

The Board of Education has established the following guidelines to govern the inspection of instructional materials.

Parents and/or other community members who request to inspect materials should:

1. Contact the building principal so a time can be arranged to review the material on school property, except in special circumstances as determined by the Associate Superintendent for Teaching and Learning.
2. Review the criteria selection process as outlined in 603.6-R1 *Selection of Instructional Materials* in the board policy manual.
3. Receive a copy of standards and benchmarks to review alignment of materials.
