

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the Superintendent or designee. The Superintendent, or designee, will be assisted by the Director of Operations in consultation with transportation company administration.

Employees, students and families will be notified by the District's notification system, television, media websites, radio and social media outlets when school is canceled or temporarily delayed.
