

DISTRIBUTION OF MATERIALS

The Board recognizes that students, employees, parents or citizens may want to distribute materials within the school district that are noncurricular. Requests to distribute noncurricular materials in a single building must be approved by the building principal. Requests for distribution in multiple buildings must be approved by the Director of School and Community Relations. All materials must meet certain standards prior to their distribution.

It shall be the responsibility of the superintendent, in conjunction with the building principals, to draft administrative regulations regarding this policy.
