During the school year of 1944-1945, a plan was developed for the granting of an award based upon service. Students are awarded service points for many types of service to their school and community, both in organized activities and through participation in projects. The "Golden W" requires 350 service points, and the prestigious "Guard" requires 500 points. This year's recipients have carried on West High's legacy of service to their school and their community.
